and challenging the traditional divide between religious and secular studies of Russia and the Soviet Union and highlighting previously unseen patterns of change and continuity between Russia's tsarist and socialist pasts. This grass roots faith community makes an ideal case study through which to explore patterns of spiritual searching and religious toleration under both tsarist and Soviet rule providing a deeper context for today's discussions about the relationship between Russian Orthodoxy and national identity. Holy Sobriety in Modern Russia is a story of resilience reinvention and resistance. Herrlinger's analysis seeks to understand these unorthodox believers as active agents exercising their perceived right to live according to their beliefs both as individuals and as a community.
