**Kelly Hignett, Melanie Ilic, Dalia  
Leinarte, Corina Snitar**

## **Stalin Revisited:**

Stalin's Terror Revisited M. Ilic, 2006-03-28 In this ground breaking collection a team of leading experts offer a detailed examination of under researched aspects of Soviet political repression in the 1930s Drawing on archival documents and materials that have received little attention in Western historiography much of the information detailed here is in English for the first time

**The Anatomy of Revolution Revisited** Bailey Stone, 2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton's 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640-60 the French Revolution of 1789-99 and the Russian Revolution of 1917-29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture

**Joseph Stalin** David R. Egan, Melinda A. Egan, 2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for *Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005* is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De Stalinization Including a subject index of several hundred headings and even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom

Stalin's World Sarah Davies, James Harris, 2014-10-14 Drawing on

declassified material from Stalin's personal archive this is the first systematic attempt to analyze how Stalin saw his world both the Soviet system he was trying to build and its wider international context Stalin rarely left his offices and viewed the world largely through the prism of verbal and written reports meetings articles letters and books Analyzing these materials Sarah Davies and James Harris provide a new understanding of Stalin's thought process and leadership style and explore not only his perceptions and misperceptions of the world but the consequences of these perceptions and misperceptions

**Transatlantic Antifascisms** Michael Seidman, 2018 The first comprehensive scholarly account of antifascism analysing its development in Spain France Britain and the USA *The Private World of Soviet Scientists from Stalin to Gorbachev* Maria Rogacheva, 2017-07-10 Rogacheva sheds new light on the complex transition of Soviet society from Stalinism into the post Stalin era Using the case study of Chernogolovka one of dozens of scientific towns built in the USSR under Khrushchev she explains what motivated scientists to participate in the Soviet project during the Cold War Rogacheva traces the history of this scientific community from its creation in 1956 through the Brezhnev period to paint a nuanced portrait of the living conditions political outlook and mentality of the local scientific intelligentsia Utilizing new archival materials and an extensive oral history project this book argues that Soviet scientists were not merely bought off by the Soviet state but that they bought into the idealism and social optimism of the post Stalin regime Many shared the regime's belief in the progressive development of Soviet society on a scientific basis and embraced their increased autonomy material privileges and elite status **The Industrialisation of Soviet Russia Volume 6: The Years of Progress** R. Davies, 2014-07-09

Based on extensive research in formerly secret archives this volume examines the progress of Soviet industrialisation against the background of the rising threat of aggression from Germany Japan and Italy and the consolidation of Stalin's power

**Stalin's Curse** Robert Gellately, 2013-03-05 The story of how Stalin ruthlessly built his Red Empire in the aftermath of World War II and what inspired him to build it *The Soviet Empire Reconsidered* Sanford R. Lieberman, David E Powell, Carol R Saivetz, Sarah M Terry, 2019-07-11 The demise of any empire provides an occasion for fresh examination of long accepted truths about its history and its intrinsic nature What set this particular empire apart from others Why did it develop in the way that it did Could events have taken a different path What legacies has the empire left to its heirs In this volume eminent scholars reflect on the unique and central features of the Soviet empire during its period of consolidation in Europe and speculate on the long term effects of its collapse They reconsider subjects that have absorbed Adam Ulam's attention in his own work the ideologies of central planning of totalitarianism and state terror at home and of intervention abroad and explore their impact on the people who lived under Soviet power at its apogee They also analyze the unraveling of the system on the domestic scene in elite and grassroots politics and in the international arena Concluding chapters focus on the configuration of new domestic and foreign policies and on prospects for security and cooperation in the region

*Stalin's Nomads* Robert Kindler, 2018-07-31 Robert Kindler's seminal work is a comprehensive and unsettling account of

the Soviet campaign to forcefully sedentarize and collectivize the Kazakh clans Viewing the nomadic life as unproductive and their lands unused and untilled Stalin and his inner circle pursued a campaign of violence and subjugation rather than attempting any dialog or cultural assimilation The results were catastrophic as the conflict and an ensuing famine 1931 1933 caused the death of nearly one third of the Kazakh population Hundreds of thousands of nomads became refugees and a nomadic culture and social order were essentially destroyed in less than five years Kindler provides an in depth analysis of Soviet rule economic and political motivations and the role of remote and local Soviet officials and Kazakhs during the crisis This is the first English language translation of an important and harrowing history largely unknown to Western audiences prior to Kindler s study The translation of this work was funded by Geisteswissenschaften International Translation Funding for Work in the Humanities and Social Sciences from Germany a joint initiative of the Fritz Thyssen Foundation the German Federal Foreign Office the collecting society VG WORT and the B rsenverein des Deutschen Buchhandels German Publishers Booksellers Association

**Women's Experiences of Repression in the Soviet Union and Eastern Europe** Kelly Hignett, Melanie Ilic, Dalia Leinarte, Corina Snitar, 2017-09-22 Based on extensive original research including studies of autobiographies and biographies reminiscences and memoirs archived oral history data and interviews conducted by the authors this book provides a rich picture of how women experienced repression in the former Soviet bloc Although focusing on key years when repression was at its height 1937 for the Soviet Union 1941 for Lithuania and Poland 1948 for Czechoslovakia and 1956 for Romania the book ranges more widely It demonstrates that although far fewer women than men were the direct victims of repression women experienced severe repression in many ways including exile deportation and as family members of those arrested imprisoned and executed

**Know Your Enemy** David C. Engerman, 2009-11-20 As World War II ended few Americans in government or universities knew much about the Soviet Union As David Engerman shows in this book a network of scholars soldiers spies and philanthropists created an enterprise known as Soviet Studies to fill in this dangerous gap in American knowledge This group brought together some of the nation s best minds from the left right and center colorful and controversial individuals ranging from George Kennan to Margaret Mead to Zbigniew Brzezinski not to mention historians Sheila Fitzpatrick and Richard Pipes Together they created the knowledge that helped fight the Cold War and define Cold War thought Soviet Studies became a vibrant intellectual enterprise studying not just the Soviet threat but Soviet society and culture at a time when many said that these were contradictions in terms as well as Russian history and literature And this broad network Engerman argues forever changed the relationship between the government and academe connecting the Pentagon with the ivory tower in ways that still matter today

**Stalin's Failed Alliance** Michael Jabara Carley, 2024-03-26 In the spring of 1936 the Soviet effort to build an anti Nazi alliance was failing Stalin continued nevertheless to support diplomatic efforts to stop Nazi aggression in Europe In Stalin s Failed Alliance the sequel to Stalin s Gamble Michael Jabara Carley continues his re evaluation of European diplomacy during the critical events between May

1936 and August 1939 This narrative history examines the great crises of the pre war period the Spanish Civil War Anschluss and Munich accords as well as both the last Soviet efforts to organize an anti Nazi alliance in the spring summer of 1939 and Moscow s shocking volte face the signing of the Nazi Soviet non aggression pact Carley s history traces the lead up to the outbreak of war in Europe on 1 September 1939 and sheds light on the Soviet Union s efforts to organize a defensive alliance against Nazi Germany in effect rebuilding the anti German Entente of the First World War The author argues for the sincerity of Soviet overtures to the western European powers and that the non aggression pact was a last ditch response to the refusal of other states especially Britain and France to conclude an alliance with the USSR against Nazi Germany Drawing on extensive archival research in Soviet and Western archival papers Stalin s Failed Alliance aims to see the European crisis of the 1930s through Soviet eyes

**Policing Stalin's Socialism** David R. Shearer, 2014-05-14 Policing Stalin s Socialism is one of the first books to emphasize the importance of social order repression by Stalin s Soviet regime in contrast to the traditional emphasis of historians on political repression Based on extensive examination of new archival materials David Shearer finds that most repression during the Stalinist dictatorship of the 1930s was against marginal social groups such as petty criminals deviant youth sectarians and the unemployed and unproductive It was because Soviet leaders regarded social disorder as more of a danger to the state than political opposition that they instituted a new form of class war to defend themselves against this perceived threat Despite the combined work of the political and civil police the efforts to cleanse society failed this failure set the stage for the massive purges that decimated the country in the late 1930s

*Retouching Stalin's Moustache* Thomas P. Muhl, 2011-04-15 Retouching Stalin s Moustache is the story of a talented artist survivor of twentieth century Europe under both fascism and communism who is coping with survival in America in a life complicated by further twists and turns of fate The narrative moves from flashback to foreground describing his early marriage and escape from the Old World It follows up with more recent adventures the dissolution of his marriage and newly created layers of memory This book shows how a permanently displaced person must struggle to seek out means of adjusting to the daylight world of today

Stalin's Genocides Norman M. Naimark, 2010 Annotation Between the early 1930s and his death in 1953 Joseph Stalin had more than a million of his own citizens executed This book is the chilling story of these crimes The book puts forward the argument that mass killings under Stalin in the 1930s were indeed acts of genocide and that the Soviet dictator himself was behind them

**Plans for Stalin's War-Machine** L. Samuelson, 2016-01-13 In the interwar period Red Army commanders headed by Tukhachevskii developed a new doctrine of mobile warfare and deep operations The military requirements of armaments and industrial production in the event of war was a central parameter in Stalinist industrialization Based on recently opened Russian archives the book analyzes military dimensions of Soviet long term economic and military reconstruction plans from the mid 1920s until 1941 It presents a new framework for estimating the Soviet war economic preparations drastically underestimated by contemporaries

*Terror by Quota* Paul R.

Gregory,2009-01-06 This original analysis of the workings of the Soviet state security organs under Lenin and Stalin illuminates the ways in which terror and repression in the Soviet Union were used during this period      **Soviet State and Society Under Nikita Khrushchev** Melanie Ilic,Jeremy Smith,2009-04-06 This book examines the social and cultural impact of the thaw in Cold War relations decision making and policy formation in the Soviet Union under Nikita Khrushchev With individual case studies exploring key aspects of Khrushchev s period of office it offers an important new perspective on the Khrushchev era      **Socialist Economic Systems** Steven Rosefielde,2023-06-29 Bernie Sanders socialist advocacy in the United States communist China s economic successes and a Marxist revival are inspiring many to muse about improved strategies for building superior socialist futures Socialist Economic Systems provides an objective record of socialism s promises and performance during 1820 2022 identifies a feasible path forward and provides a rigorous analytic framework for the comparison of economic systems The book opens by surveying pre industrial utopias from Plato to Thomas More and libertarian communal designs for superior living It plumbs all aspects of the revolutionary and democratic socialist political movements that emerged after 1870 and considers the comparative economic political and social performance of the USSR and others from the Bolshevik Revolution onwards The book also provides case studies for all revolutionary Marxist Leninist regimes and supplementary discussions of Mondragon cooperatives Israeli kibbutzim Nordic corporatism and European democratic socialism It investigates the theoretical and practical complexities of command planning reform communism market communism worker economic management and egalitarianism It examines communism as an engine of economic growth and a mechanism for improving people s quality of existence including living standards labor self governance egalitarianism social justice and prevention of crimes against humanity before addressing the perennial question of what needs to be done next A suggested path forward is elaborated drawing lessons from the warts and all historical performance of socialist economies during 1917 2022 and failed socialist prophecy The evidence indicates that the key to 21st century socialism success lies in empowering workers of all descriptions to govern democratically for their mutual protection and welfare without the extraneous imposition of priorities imposed by other movements The book is essential reading for anyone interested in socialism political economy comparative economic systems and political and social history
