Andrew Sloin,2017-02-13 A Dorothy Rosenberg Prize winner A remarkable social history that investigates the process of Sovietization among Jews in Belorussia Jeffrey Veidlinger author of *In the Shadow of the Shtetl* This insightful history demonstrates how Jewish life in Belorussia fundamentally changed when Jews started joining the Bolshevik movement and populating the front lines of the revolutionary struggle While Andrew Sloin s story follows the arc of Bolshevik history it also shows how the broader movement was enacted in factories and workshops workers clubs and union meetings and on the Jewish streets of White Russia In the eyes of the Bolshevik leadership the project of transforming Jews into integrated Soviet citizens was bound inextricably to labor The protagonists here are shoemakers speculators glassmakers peddlers leatherworkers needleworkers soldiers students and local party operatives who were swept up willingly or otherwise under the banner of Marxist socialism With extensive research and keen insight Sloin stresses the fundamental relationship between economy and identity formation as party officials grappled with the Jewish Question in the wake of the revolution

*Unknown Values and Stakeholders* Paolo D'Anselmi,Athanasios Chymis,Massimiliano Di Bitetto,2017-02-13 This second edition demonstrates that there are more conditions and actors prevalent in the economy than are considered today and builds a balanced view of responsibility that would not be shunned by corporate executives The wider economic responsibilities of organizations have been identified for corporations and responsibility has been focused on business

Unknown Values and Stakeholders argues that all organizations including public administration should be accountable for their economic responsibilities The authors reveal the unknown values and stakeholders of the accountability game and the new inequality in working conditions of the employed while at the same time showing a path towards effective economic development

**Black Rights/White Wrongs** Charles W. Mills,2017-03-01

Liberalism is the political philosophy of equal persons yet liberalism has refused equality to those it saw as sub persons

Liberalism is the creed of fairness yet liberalism has been complicit with European imperialism and African slavery

Liberalism is the classic ideology of Enlightenment and political transparency yet liberalism has cast a dark veil over its actual racist past and present In sum liberalism s promise of equal rights has historically been denied to blacks and other people of color In *Black Rights White Wrongs The Critique of Racial Liberalism* political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in self conceived liberal polities today Mills argues that rather than bracket as an anomaly the role of racism in the development of liberal theory we should see it as shaping that theory in fundamental ways As feminists have urged us to see the dominant form of liberalism as a patriarchal liberalism so too Mills suggests we should see it as a racialized liberalism It is unsurprising then if contemporary liberalism has yet to deliver on the recognition of black rights and the correction of white wrongs These essays look at racial liberalism past and present white ignorance as a guilty ignoring of social reality that facilitates white racial domination Immanuel Kant s role as the most important liberal theorist of both personhood and sub personhood the centrality of racial exploitation in the United States and the evasion of white supremacy in John Rawls s ideal theory framing of social justice and in the work of most other contemporary white political philosophers Nonetheless Mills still believes that a deracialized liberalism is both possible and desirable He concludes by calling on progressives to Occupy liberalism and develop accordingly a radical liberalism aimed at achieving racial justice

**America's Struggle with Chemical-Biological Warfare** Albert J. Mauroni,2000-01-30

Fear and ignorance have colored the perception of chemical and biological CB warfare both in the public and military spheres Media coverage following the alleged gassing of sheep at Dugway Proving Ground in 1968 has led most people to believe that CB warfare is an unstoppable doomsday weapon of mass destruction Yet in 1972 General Creighton Abrams the Army Chief of Staff attempted to disestablish the Chemical Corps because he saw no need for it Had that decision not been reversed in 1976 there would not have been any chemical defense specialists or equipment available for Operation Desert Storm in 1990 This study tracks events relating to the Department of Defense s CB warfare program between 1968 and 1990 as it evolved up to the Gulf War It also details how the military develops and procures CB defense equipment to protect today s soldiers Mauroni draws parallels between the development of binary chemical weapons the chemical demilitarization program and the DoD CB terrorism response efforts as each has very similar issues and solutions He seeks to educate leading officials and the general public about the facts behind CB warfare and the options for coping with it in the future With proper training and equipment the challenge of CB warfare can be met and dealt with on the modern battlefield
