in living in the present and in the dying of the self itself Experiences of and the evidence on altered and higher states of consciousness can lead us to better lives and better deaths

Stalking the Big Bird Harley Shaw, 2021-10-19 Merriam's turkey is a bird native to the southern Rocky Mountains and the Colorado Plateau a subspecies that might seem at first blush an unlikely subject for intensive research But as Harley Shaw well knows no creature is exempt from the close scrutiny of biologists Shaw is himself a research biologist perhaps best known for his book *Soul among Lions* Although the wild turkey may be less charismatic than the puma it offers an equal opportunity for Shaw to reflect on how we manage or mismanage wildlife But while focusing on this big bird of the Southwest his new book is really a field study of another rare species the wildlife management professional *Stalking the Big Bird* is a sober and seasoned view of what that rare breed is doing and failing to do in its efforts to protect the animals and landscapes that we love State and federal wildlife agencies have for some sixty years functioned under the belief that increased knowledge produced by research improves our ability to manage wildlife Shaw suggests that the more we know about a species the more difficult clear decisions may often become He offers shrewd observations on the difficulties of interpreting and implementing research results in the face of pressures exerted by government bureaucracies non governmental organizations and politically powerful loggers ranchers land developers and environmentalists He also shows that management of even a common game bird may be beyond the capabilities of responsible resource management agencies Through stories about his own experiences studying Merriam's wild turkey anecdotes about the foibles of field work and the bureaucratic boondoggles of wildlife management Shaw reveals some of the complexities involved in wildlife research Drawing on a lifetime of work and reflection his book shows that sound research and effective management of this animal and by extension others are severely hampered by political agendas social misunderstandings inappropriate research and above all human indifference As entertaining as it is informative *Stalking the Big Bird* will be of interest to environmentalists hunters and resource managers or anyone confused by the practices of modern wildlife conservation It will help both professionals and lay readers understand our relationship with one wild subspecies and in the process get a better handle on the true goals in managing the wild

The Original Investigator Speaks Out Richard Shelby,2015-03-27 JUNE 16 2016 At a press conference today in Sacramento the FBI and local law enforcement agencies announced a 50 000 reward for information leading to the arrest and conviction of the East Area Rapist killer along with a nationwide multimedia campaign to once again bring the case to the public s attention Hunting A Psychopath chronicles the on going search for the identity of the serial rapist and murderer known both as the East Area Rapist and Original Night Stalker The author first lays the ground work for how the investigation was conducted Then using what reports are still available plus some personal insights he examines each assault in the order they occurred Gradually the methods used by the EAR ONS in first searching out his victims then stalking them come to light The EAR ONS first surfaced in June 1976 in Sacramento CA He was last heard from in May 1986 in Irvine CA where he brutally murdered an eighteen year old woman In between those years he stayed busy assaulting fifty three people and murdering twelve more while spreading a blanket of fear across central CA and parts of Southern CA It has been over thirty years now and still he has not been brought to justice Although there have been other unsolved crimes of this same nature and of even greater magnitude this series seems to have had a lasting impact on the public enough so that a virtual army of private citizens are pursuing this investigation on their own When time permits there are full time police officers who also work this investigation By examining the information from each assault it gradually becomes clear just how meticulous the EAR ONS was Every detail from selecting a victim to the actual assault appear to have been carefully planned and orchestrated The EAR ONS was as devoted to committing sexual assaults and murders as anyone devoted to their own profession In a distorted way he was a professional rapist murderer and quite probably a certifiable psychopath Perhaps this continuing interest is because those wanting to involve themselves in the investigation know it can still be brought to a satisfactory conclusion **Violence Against Women Act of 1999, Stalking Prevention and Victim Protection Act of**
