Stan And Ollie The Roots Of Comedy The Double Life Of Laurel And Hardy:

Stan and Ollie Simon Louvish, 2005-07-01 Stan Laurel and Oliver Hardy have remained from 1927 to the present day the screen's most famous and popular comedy double act celebrated by legions of fans But despite many books about their films and individual lives there has never been a fully researched definitive narrative biography of the duo from birth to death Louvish traces the early lives of Stanley Jefferson and Norvell Hardy and the surrounding minstrel and variety theatre which influenced all of their later work Louvish examines the rarely seen solo films of both our heroes prior to their serendipitous pairing in 1927 in the long lost short Duck Soup The inspired casting teamed them until their last days Both often married they found balancing their personal and professional lives a nearly impossible feat Between 1927 and 1938 they were able to successfully bridge the gap between silent and sound films which tripped up most of their prominent colleagues Their Hal Roach and MGM films were brilliant but their move in 1941 to Twentieth Century Fox proved disastrous with the nine films made there ranking as some of the most embarrassing moments of cinematic history In spite of this Laurel and Hardy survived as exemplars of lasting genius and their influence is seen to this day The clowns were elusive behind their masks but now Simon Louvish can finally reveal their full and complex humanity and their passionate devotion to their art In **Stan and Ollie The Roots of Comedy The Double Life of Laurel and Hardy** Louvish has seamlessly woven tireless and thorough research into an authoritative biography of these two important and influential Hollywood pioneers **Stan and Ollie**

National Cancer Institute NCI and the Canadian Department of National Health and Welfare DNHW commissioned a film eventually called Challenge Science Against Cancer as part of a major effort to recruit young scientists into cancer research Both organizations feared that poor recruitment would stifle the development of the field at a time when funding for research was growing dramatically The fear was that there would not be enough new young scientists to meet the demand and that the shortfall would undermine cancer research and the hopes invested in it Challenge aimed to persuade young scientists to think of cancer research as a career This book is the story of that forgotten film and what it tells us about mid twentieth

century American and Canadian cancer research educational filmmaking and health education campaigns It explores why Canadian and American health agencies turned to film to address the problem of scientist recruitment how filmmakers turned such recruitment concerns into something they thought would work as a film and how information officers at the NCI and DNHW sought to shape the impact of Challenge by embedding it in a broader educational and propaganda program It is in short an account of the important but hitherto undocumented roles of filmmakers and information officers in the promotion of post Second World War cancer research
