Stan Wojenny Dlaczego:

The Rise and Fall of the Brezhnev Doctrine in Soviet Foreign Policy Matthew J. Ouimet, 2003-10-16 Since the sudden collapse of the communist system in Eastern Europe in 1989 scholars have tried to explain why the Soviet Union stood by and watched as its empire crumbled The recent release of extensive archival documentation in Moscow and the appearance of an increasing number of Soviet political memoirs now offer a greater perspective on this historic process and permit a much deeper look into its causes The Rise and Fall of the Brezhnev Doctrine in Soviet Foreign Policy is a comprehensive study detailing the collapse of Soviet control in Eastern Europe between 1968 and 1989 focusing especially on the pivotal Solidarity uprisings in Poland Based heavily on firsthand testimony and fresh archival findings it constitutes a fundamental reassessment of Soviet foreign policy during this period Perhaps most important it offers a surprising account of how Soviet foreign policy initiatives in the late Brezhnev era defined the parameters of Mikhail Gorbachev's later position of laissez faire toward Eastern Europe a position that ultimately led to the downfall of socialist governments all over Europe

US Intelligence and the Polish Crisis Douglas J. MacEachin, 2000 **Cold War Flashpoints** Cold War International History Project, 1998 Featuring new evidence on the Polish Crisis 1980 1981 Poland in the early Cold War the Sino American opening the Korean War the Berlin Crisis 1958 1962 Soviet Deliberations During the Polish Crisis, 1980-1981, 1999

Revolution and Counterrevolution in Poland, 1980-1989 Andrzej Paczkowski, 2015 Examines the 1980 Solidarity revolution in Poland the government's subsequent establishment of martial law in response in 1981 and the eventual transition to democracy in 1989 *Poles Apart* Jacqueline Hayden, 2018-10-24 First published in 1994 This book offers the reader a first hand account of the people who have been central to Poland's transformation since the early 1980s With interviews of main actors Lech Walesa Wojciech Jaruzelski and leaders of Solidarity Also observed and covered are the Gdansk shipyard strikes martial law a move towards democracy from Communism and the Round Table talks of 1989 The Haunted Land Tina Rosenberg, 2010-11-24 The Pulitzer Prize winning look at the collapse of Communism in Eastern Europe

The State against Society Grzegorz Ekiert, 1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises

reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse

Poland George Sanford, 2012-12-06 Poland pioneered the collapse of communism in Eastern Europe Domestic reformism and the negotiated abdication of ruling elites in 1989 have structured the country's politics in the 1990s But the division between the communist and Solidarity camps continues to cause problems for a potential reform coalition aiming to complete modernisation through the restructuring required for EU membership Secular Catholic and rural urban conflicts and well as the growing regional split between the north west and south east have fragmented political life and the party system Nevertheless Poland has made remarkable steps in the consolidation of democracy and the development of her political system whilst maintaining social stability she is also successfully transcending her historical security dilemma of open western and eastern frontiers and stronger aggressive neighbours by embedding herself in Europe through membership of NATO and the EU Poland is overcoming her historical problems

The Polish Revolution Timothy Garton Ash, 2002-01-01 In 1980 workers in Gdansk won from their communist rulers the right to form independent trade unions In this eyewitness account Ash describes the defiance of the strikers the emergence of Lech Walesa and the declaration of martial law

Satellites and Commissars Randall W. Stone, 2021-02-09 Why did the Soviet Union squander the political leverage afforded by its trade subsidy to Eastern Europe Why did Soviet officials fail to bargain with resolve to link subsidies to salient political issues to make credible commitments and to monitor the satellites policies Using an unprecedented array of formerly secret documents housed in archives in Moscow Warsaw and Prague as well as interviews with former Communist officials across Eastern Europe Randall Stone answers these questions and others that have long vexed Western political scientists Stone argues that trade politics revolved around the incentives created by distorted prices The East European satellites profited by trading on the margin between prices on the Western market and those in the Soviet bloc The Soviet Union made numerous attempts to reduce its implicit trade subsidy and increase the efficiency of the bloc but the satellites managed consistently to outmaneuver Soviet negotiators Stone demonstrates how the East Europeans artfully resisted Soviet objectives Stone draws upon recent developments in bargaining and principal agent theory arguing that the incentives created by domestic institutions weakened Soviet bargaining strategies In effect he suggests perverse incentive structures in the Soviet economy were exported into Soviet foreign policy Furthermore Stone argues incentives to smother information were so deeply entrenched that they frustrated numerous attempts to reform Soviet institutions

International Bibliography of the Social Sciences, 1994 The IBSS is the essential tool for librarians university departments research

institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

From Old Times to New Europe Agata Fijalkowski, 2016-04-22 *From Old Times to New Europe* considers the post totalitarian legal framework in today s Europe arguing that the study of totalitarianism and post totalitarianism continues to be significant as ever Drawing mainly on the Polish experience this analysis focuses on the significant part played by history in the development of the region s identity and preferences concerning the role of the state in public and private life It examines the political socio economic and legal aspects of key events and draws comparisons with other CEE states whilst implementing key socio legal theories to explain trends and strains in this post Communist and post totalitarian period With the benefit of access to archival sources in Poland and Russia this book will be of interest to students and researchers of European law law and society and international criminal justice

International Cold War Military Records and History William W. Epley, 1996

Empowering Revolution Gregory F. Domber, 2014-10-06 As the most populous country in Eastern Europe as well as the birthplace of the largest anticommunist dissident movement Poland is crucial in understanding the end of the Cold War During the 1980s both the United States and the Soviet Union vied for influence over Poland s politically tumultuous steps toward democratic revolution In this groundbreaking history Gregory F Domber examines American policy toward Poland and its promotion of moderate voices within the opposition while simultaneously addressing the Soviet and European influences on Poland s revolution in 1989 With a cast including Reagan Gorbachev and Pope John Paul II Domber charts American support of anticommunist opposition groups particularly Solidarity the underground movement led by future president Lech Wa sa and highlights the transnational network of Polish migr s and trade unionists that kept the opposition alive Utilizing archival research and interviews with Polish and American government officials and opposition leaders Domber argues that the United States empowered a specific segment of the Polish opposition and illustrates how Soviet leaders unwittingly fostered radical pro democratic change through their policies The result is fresh insight into the global impact of the Polish pro democracy movement

Privatizing the Police-State M. Los, Andrzej Zybertowicz, 2016-01-22 This is the first book that documents and analyses the paramount role of secret services in the decomposition of the communist system and the conversion of its elites into new capitalists The surge of civil society in 1980s Poland prompted a parallel expansion of the police state apparatus The book traces the subsequent reconstruction and privatization of social political and material resources of the police state and shows how these covert operations shaped other more visible aspects of the East Central European transformation A Note from the Authors Since the publication of this book the events in Poland and elsewhere have demonstrated the extraordinary influence and longevity of the power networks spawned by the communist police state apparatus and its eventual privatization There is new evidence uncovered almost daily whose interpretation would not be feasible without the conceptual and historical framework elaborated first in this book

Down with Big Brother Michael Dobbs, 2013-10-17 The author of this volume was present during the final decade of the

Soviet empire first for Reuters then for the Washington Post While Dobbs watched playwrights and electricians were transformed into presidents while Communist Party leaders became jailbirds or newly minted tycoons He identifies the seeds of destruction and shows how Mikhail Gorbachev in particular was the unwitting inspiration for the upheaval of the empire while he thought he could save the Communist Party by reforming it Dobbs conclusion is that though Big Brother may be dead his dark legacy is still alive in the turbulence in Russia Romania Bosnia and other countries that once made up the most brutal empire of the 20th century Democratic Control of the Military in Postcommunist Europe A. Cottey, T.

Edmunds, 2001-11-28 This major comparative study examines the challenges that the countries of postcommunist Central and Eastern Europe have faced in securing democratic control of their armed forces and establishing civilian control of defence policy This book explores how the interaction of the common challenges of postcommunism and the diverse circumstances of individual countries shape civil military relations in this changing region Detailed country case studies written by leading experts compare the experiences of the Central European states such as Poland and Romania the Baltic republics the former Yugoslavia republics Russia and Ukraine **Bulletin**, 1995 **Student Politics in Communist Poland** Tom

Junes, 2015-01-22 Student Politics in Communist Poland tackles the topic of student political activity under a communist regime during the Cold War It discusses both the communist student organizations as well as oppositional independent and apolitical student activism during the forty five year period of Poland's existence as a Soviet satellite state The book focuses on consecutive generations of students who felt compelled to act on behalf of their milieu or for what they saw as the greater national good The dynamics between moderates and radicals between conformists and non conformists are analyzed from the points of view of the protagonists themselves The book traces ideological evolutions but also counter cultural trends and transnational influences in Poland's student community as they emerged developed and disappeared over more than four decades It elaborates on the importance of the Catholic Church and its role in politicizing students The regime's higher education policies are discussed in relation to its attempts to control the student body which in effect constituted an ever growing group of young people who were destined to become the regime's future elite in the political economic social and cultural spheres and thus provide it with the necessary legitimacy for its survival The pivotal crises in the history of Communist Poland those of 1956 1968 1980 1981 are treated with a special emphasis on the students and their respective role in these upheavals The book shows that student activism played its part in the political trajectory of the country at times challenging the legitimacy of the regime and contributed in no small degree to the demise of communism in Poland in 1989 Student Politics in Communist Poland not only presents a chronological narrative of student activism but it sheds light on lesser known aspects of modern Polish history while telling part of the life stories of prominent figures in Poland's communist establishment as well as its dissident and opposition milieux Ultimately it also provides insights into modern day Poland and its elite many of whose members laid the groundwork for their later careers as student activists during the communist period
