

The book cover features a stylized, low-angle illustration of a city street. The perspective is looking down a street lined with tall, multi-story buildings. The buildings are rendered in a graphic, almost cubist style with flat colors and sharp lines. The sky is a deep blue, and a bright sun or moon is visible in the distance, creating a lens flare effect. The overall color palette is dominated by blues, yellows, and greys.

## **Stand Virtual Ethics Debating Media Values In A Digital Age:**

**Stand!** Lynch,1999      The Editorial Eye Jane T. Harrigan,Karen Brown Dunlap,2003-09-05 A complete guide to editing print and electronic media The Editorial Eye teaches students the skills they need to become professional editors from generating story ideas to correct comma placement Much praised for its accessibility this text covers essential editing skills in an engaging student friendly style This thoroughly revised edition includes new coverage of electronic media and online news along with updated chapters on layout and design      **The Media in Your Life** Jean Folkerts,Stephen Lacy,2001 With a strong emphasis on media convergence throughout this book helps readers develop a system wide view of the interacting social historical economic and technological forces at work in today s rapidly evolving mass media Written by two highly regarded scholars and teachers this book goes beyond other textbooks to help readers understand where how and why they fit into the contemporary media environment Too often mass communication texts rely only on popular publications or on academic research In this interactive text they have combined the concrete practice of journalism with empirical research enabling students to comprehend the impact of the dynamic media that are an integral part of our lives today Folkerts and Lacy guide readers through today s whirlwind of mass communication by providing them with the information and critical thinking skills necessary to consider objectively the media and its roles in their lives For anyone interested in gaining knowledge of the media      **Law, Media, and Culture** Janis L. Judson,Donna M. Bertazzoni,2002 We are living in an era in which hate has become a national value Hatred against the other is now an endemic and unforgiving aspect of our culture Law Media and Culture examines how the law defines and reacts to hate how the media reinforces it and how hate is manifested in popular culture This book also takes a fresh look at how the Internet has become a major tool to communicate hate and how the development of attitudes toward hate are shaped by gender      Media Law, Ethics, and Policy in the Digital Age Mhiripiri, Nhamo A.,Chari, Tendai,2017-01-10 The growing presence of digital technologies has caused significant changes in the protection of digital rights With the ubiquity of these modern technologies there is an increasing need for advanced media and rights protection Media Law Ethics and Policy in the Digital Age is a key resource on the challenges opportunities issues controversies and contradictions of digital technologies in relation to media law and ethics and examines occurrences in different socio political and economic realities Highlighting multidisciplinary studies on cybercrime invasion of privacy and muckraking this publication is an ideal reference source for policymakers academicians researchers advanced level students government officials and active media practitioners      *Ethnography in the Open Science and Digital Age: New Debates, Dilemmas, and Issues* Colin Jerolmack,Alexandra Murphy ,Victoria Reyes,2024-06-19 In the current moment ethnography is caught up in a number of debates that have led ethnographers to reflect on classic methodological and ethical dilemmas in new ways The replication crisis had led to a movement for open science e g registering hypotheses in advance sharing codes and data but it seems unclear that recommended best practices are appropriate to ethnography It s even up

for debate whether ethnography is more of a social science or a genre The fact that many ethnographies are widely read invites questions and criticisms from beyond the ivory tower including our subjects about the ethics of representation e g who has license to write about whom and the extent to which journalistic standards of data verification and transparency e g fact checking naming sources should apply to qualitative research Some ethnographers are calling for more open critical discussions about the embodied dimensions of fieldwork including not only emotions but also issues like sexual intimacy and harassment There s also a growing expectation that ethnographers empower our subjects to represent and analyze themselves What s more as more of social life is lived online it becomes increasingly unclear where the boundaries of the field site should be drawn and whether ethnographic conventions can be applied wholesale to the study of digital spaces
