

A black and white photograph of a man, John Limon, sitting in a dark room. He is positioned in the center-left, looking towards the right. He has dark hair and is wearing a light-colored shirt. His arms are crossed or resting on his knees. The background is dark, with palm fronds visible on the left and a bright spotlight shining from the top right. A circular object, possibly a mirror or a light fixture, is visible on the wall behind him. In the bottom right corner, there is a small, dark, geometric structure that looks like a piece of furniture or a prop.

**Comedy and Critique** Daniel R. Smith, 2018-06-20 Comedy and Critique explores British professional stand up comedy in the wake of the Alternative Comedy movement of the late twentieth century seeing it as an extension of the politics of the New Left standing up for oneself as anti racist feminist and open to a queering of self and social institutions Daniel Smith demonstrates that the comic sensibility pervading contemporary humour is as much speaking truth to power as it is realising one's position in power The professionalisation of New Left humour offers a challenge to social and cultural critique Stand up comedy has made us all sociologists of self identity and cultural power while also resigning us to a place where a comic sensibility becomes an acknowledgment of the necessity of social change

**Art of the Ordinary** Richard Deming, 2018-05-15 Cutting across literature film art and philosophy Art of the Ordinary is a trailblazing cross disciplinary engagement with the ordinary and the everyday Because writes Richard Deming the ordinary is always at hand it is in fact too familiar for us to perceive it and become fully aware of it The ordinary he argues is what most needs to be discovered and yet is something that can never be approached since to do so is to immediately change it Art of the Ordinary explores how philosophical questions can be revealed in surprising places as in a stand up comic's routine for instance or a Brillo box or a Hollywood movie From negotiations with the primary materials of culture and community ways of reading self and other are made available deepening one's ability to respond to ethical social and political dilemmas Deming picks out key figures such as the philosophers Stanley Cavell Arthur Danto and Richard Wollheim poet John Ashbery artist Andy Warhol and comedian Steven Wright to showcase the foundational concepts of language ethics and society Deming interrogates how acts of the imagination by these people and others become the means for transforming the alienated ordinary into a presence of the everyday that constantly and continually creates opportunities of investment in its calls on interpretive faculties In Art of the Ordinary Deming brings together the arts philosophy and psychology in new and compelling ways so as to offer generative provocative insights into how we think and represent the world to others as well as to ourselves

raising the question of just how contemporary spiritualities often deemed postmodern navigate philosophically the waters of truth morality authority selfhood and the divine Jobling tackles what she sees as a misplaced disregard for the significance of the fantasy genre as a worthy object for academic investigation by offering a full length thematic comparative and cross disciplinary study of the four case studies proposed chosen because of their significance to the field and because these books have all been posited as exemplars of a postmodern religious sensibility This work shows how attentiveness to spiritual themes in cultural icons can offer the student of theology and religions insight into the framing of the moral and religious imagination in the late twentieth and twenty first centuries and how this can prompt traditional religions to reflect on whether their own narratives are culturally framed in a way resonating with the signs of the times **Rethinking Biblical**
