The Communist Party of Poland, an Outline of History. M. K. Dziewanowski M. K. Dziewanowski, 1959 **An Essay on Sources for the Study of the Communist Party of the Soviet Union, 1934-1960** John Alexander

Armstrong, 1961 *A Concise History of Poland* Jerzy Lukowski, Hubert Zawadzki, 2006-07-06 The second edition of this guide to Poland has been updated to take account of the years from 1989 2005 This period marked its liberation from the Soviet Union the birth of Poland's Third Republic and recently its accession to the European Union in 2004 Poland's history has been marked by its resilience Once a dominant force in central and eastern Europe and home to a remarkable experiment in consensual politics it was excised from the map by its neighbours in 1795 Resurrected in 1918 partitioned afresh during the Second World War it survived to become a satellite of the Soviet Union Yet in the 1980s it was Poland which blazed the trail in casting off communism and was finally able to reassert its Christian heritage With its updated bibliography and new chronology the book is the ideal companion for all looking for a comprehensive survey of this fascinating country

God's Playground A History of Poland Norman Davies, 2005-02-24 This new edition of Norman Davies's classic study of the history of Poland has been revised and fully updated with two new chapters to bring the story to the end of the twentieth century The writing of Polish history like Poland itself has frequently fallen prey to interested parties Professor Norman Davies adopts a sceptical stance towards all existing interpretations and attempts to bring a strong dose of common sense to his theme He presents the most comprehensive survey in English of this frequently maligned and usually misunderstood country Historical Dictionary of Poland 1945-1996 Piotr Wróbel, 2014-01-27 Located between the former Soviet Union and eastern Germany Poland has the potential to become a political and economic bridge between the East and West It is crucial to European security and stabilization yet the list of reference books on recent Polish history is very short This book fills that gap providing information on Polish political economic and cultural history since 1945 **Local Politics**

in Communist Countries Daniel N. Nelson, 1980-01-01 There are many reasons why it is important to study local politics political culture government political process in Communist party states As in all politics local politics in Communist party states are the political articulation of the local community This is the political arena where policies concerning local issues are formulated by the officials This is where the officials are approached by citizens with their particular demands This is where citizens articulate their preferences aspirations and values through political participation And this is where officials both elected and appointed are recruited In this volume Daniel N Nelson has assembled a team of international scholars to consider local politics in Communist party states including the U S S R China Poland Yugoslavia and Romania Together they explore how local social and political forces are articulated in the national and party organizations they also reveal how the

study of comparative local politics provides vitality for the study of national politics Rather than treating local communities as receivers and translators of national inputs the contributors demonstrate that the local dimension and national politics mutually influence one another and illuminate the social reality in communist societies

The Palgrave Handbook of Anti-Communist Persecutions Christian Gerlach, Clemens Six, 2020-12-07 This handbook explores anti communism as an overarching phenomenon of twentieth century global history showing how anti communist policies and practices transformed societies around the world It advances research on anti communism by looking beyond ideologies and propaganda to uncover how these ideas were put into practice Case studies examine the role of states and non state actors in anti communist persecutions and cover a range of topics including social crises capitalist accumulation and dispossession political clientelism and warfare Through its comparative perspective the handbook reveals striking similarities between different cases from various world regions and highlights the numerous long term consequences of anti communism that exceeded by far the struggle against communism in a narrow sense Contributing to the growing body of work on the social history of mass violence this volume is an essential resource for students and scholars interested to understand how twentieth century anti communist persecutions have shaped societies around the world today Chapter 7 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com
