Zinser, 1978      *The Economic Impact of the Adirondack Park Private Land Use and Development Plan* Charles I. Zinser, 1980-01-01 Study of how land use legislation may be affecting the economy of the Adirondack Park      **Living with the Adirondack Forest** Catherine Henshaw Knott, 2018-09-05 Attitudes about land use Catherine Henshaw Knott suggests may reflect profound differences in class religion and life experience pitting urban Americans who see nature at risk against rural Americans whose lives are dominated by nature's forces She documents the thoughts and feelings of people whose lives are intimately connected to the forest including loggers trappers craftspeople and guides as well as tree farmers and maple syrup producers After describing the key players in the conflict and chronicling battles and bridge building between stake holders Knott concludes that the participation of local people in decision making is the only process that can shift an increasingly hostile cycle toward resolution      **Energy Abstracts for Policy Analysis** , 1980-07      **Final Environmental Impact Statement for 1980 Olympic Winter Games** United States. Economic Development Administration, 1977      *Laurance S. Rockefeller* Robin W. Winks, 2013-04-15 Despite his status as a scion of one of the wealthiest and most famous families in the United States and an enormously successful businessman in his own right Laurance S Rockefeller is unknown to all but a small circle of Americans Yet while he has been neither Vice President nor Governor nor chairman of the world's largest bank his contribution to society has been at least as great as that of his more famous brothers In *Laurance S Rockefeller Catalyst for Conservation* noted historian Robin W Winks brings Laurance to the forefront offering an intimate look at his life and accomplishments While Rockefeller has played a vital role in the business world as one of the most astute venture capitalists of our time providing seed money for among other endeavors Eastern Airlines Intel Corporation and Apple Computers his driving passion throughout his life has been the environment In addition to the millions of dollars he has donated and the numerous conservation organizations he has helped to found he served under five consecutive presidents in environmental advisory capacities Perhaps most significantly Rockefeller served under Presidents Eisenhower and Kennedy as chairman of the Outdoor Recreation Resources Review Commission ORRRC brilliantly orchestrating an assessment of the recreation and conservation needs and wants of the American people and the policies and programs required to meet those needs The reports issued by the Commission represent a groundbreaking achievement that laid the framework for nearly all significant environmental legislation of the following three decades Winks uses a combination of historical insight and extensive access to Rockefeller and government archives to present the first in depth examination of Laurance Rockefeller's life and work His deftly argued and gracefully written volume explains and explores Rockefeller's role in shaping the transition from traditional land conservation to a more inclusive environmentalism It should compel broader interpretation of the history of environmental protection and is essential reading for anyone concerned with the past or future of conservation in America
