The Edge Of Awareness:

Person-Centred Counselling in Action Dave Mearns, Brian Thorne, 2007-05-21 Watch Dave Mearns and Brian Thorne's video on YouTube to hear the story behind the writing of the Third Edition and to find out about Dave's time spent under the stewardship of Carl Rogers. SAGE celebrated the 20th Anniversary of the *Counselling in Action* series in November 2008. To view the video click [here](#). **REVIEWS** Thank you for revising the bible. I am a tutor on a so-called integrative counselling course and I thoroughly endorse the idea that Carl Rogers would have welcomed this honesty and new interpretation of his model. Your SAGE book is indeed a bible and I have repeatedly recommended it to the students' lecturer. YouTube For students and those new to person-centred counselling there is a clear exposition of person-centred theory. For experienced practitioners there are new and challenging theoretical developments within the person-centred approach. If new to counselling this is a must-have. If wondering whether to invest in this edition when there is already a copy of the earlier one on the shelf the challenge of the new theoretical material is persuasive but if that is not enough then the updated practice guidance, the practical questions and answers and the comprehensive references must make this new edition another bestseller. *Therapy Today* It is now almost twenty years since the first edition of *Person Centred Counselling in Action* appeared. In that time this SAGE bestseller has maintained enormous popularity with trainees and practitioners and has achieved world-wide acclaim. This substantially revised Third Edition provides an excellent introduction to the theory and practice of person-centred counselling while incorporating exciting new developments in the approach. Dave Mearns and Brian Thorne have preserved the compelling and accessible style of its predecessors. At the same time they provoke reflection on many of the key issues which concern not only person-centred practitioners but those across the whole counselling and psychotherapy field. New to this edition is the inclusion of relational depth, a key development for the person-centred approach and counselling generally. Extended discussion of the counsellor's use of self, a new chapter containing the authors' answers to frequently asked questions, the inclusion of diversity issues covering religion, gender and sexual orientation, further reading suggestions. Much has changed in the person-centred orientation since the death of Carl Rogers in 1987. Not only have new schools of thought emerged with different emphases and therapeutic possibilities but the authors of this book have themselves been responsible for significant advances in key areas of person-centred theory and practice. These developments are fully reflected in the revised text. Continuing to offer a clear exposition of the theory and practice of the approach, *Person Centred Counselling in Action* Third Edition will be invaluable for those embarking on their first stages of training. Well-established practitioners and even seasoned scholars will continue to find much to interest and stimulate them. Praise for previous editions. An important book, a most sophisticated text. Mearns and Thorne have written a book for all counsellors and psychotherapists. The reader will be left both grateful and hungry for more. *British Journal of Guidance and Counselling* The discussion of empathy, acceptance and congruence is central and should be required reading for all trainees working to understand the richness of

these core concepts outstanding Counselling and Psychotherapy The Journal of the British Association for Counselling and Psychotherapy Without doubt the clearest description of the person centred approach to counselling that I have read apart from Carl Rogers own writings I felt that I had got to know both Dave Mearns and Brian Thorne through their offering the reader their own congruence and I found this aspect of the book at times quite moving Social Work Today Gives real insight into person centred counselling This is a gentle book an absolute delight to read I couldn't put it down as it held me in the realm of my own feelings I would like to thank both authors for sharing so much of their intimate selves I recommend this book to trainee counsellors trained counsellors clients and those involved in the helping professions It is a book that has influenced me and that I would not want to be without BPS Counselling Psychology Review Excellent all rounder for practitioners to learn and build upon counselling skills with young offenders lecturer Guidance Youth and Youth Justice Nottingham Trent University An excellent text Student friendly and covering all main issues lecturer Psychology Swansea Institute of HE Stimulates a re exploration of the doctor patient relationship British Medical Journal I felt understood by this book Ann Weiser PCA Letter Network This book could very sensibly be placed on the reading lists of all counselling trainers and trainees this is the most informative and useful book I have read in a long time and I have no doubt that if Carl Rogers were still alive today he would not only agree but also acknowledge experiencing some envy Changes The skilful conveying of tenderness and building of trust are well explained and described with lots of case study examples Guidance Matters Excellent book a useful and practical way to underpin current emphasis on humanism in nursing lecturer West London NHS Mental Health Trust Continues to be an excellent easy introduction but with depth Deserves to be a bestseller lecturer Preston College The book conveys the profound respect for the person for his/her autonomy and uniqueness which is inherent in the Rogerian approach British Journal of Medical Psychology A marvelous book highly recommended Someone has finally written an easily accessible book about the theory and practice mostly practice of the kind of therapy that makes the most sense to many focusers Hurrah The Focusing Connection Truly allows the reader to enter the world of the person centered counsellor Contemporary Psychology Person Centred Counselling in Action written by Dave Mearns and Brian Thorne was originally published in 1988 about a year after the death of Carl Rogers It has helped to maintain and stimulate interest in this approach and has become a best seller in the Counselling in Action series The Journal of Critical Psychology Counselling and Psychotherapy *The Therapeutic Use of Self* Val Wosket, 1999 This study examines the therapist's contribution to process and outcome in counselling Based on case studies and research findings it presents the counsellor's evaluation as the vehicle for the development and insight into individual characteristics Who Dies? Stephen Levine, 1988 This work demonstrates how to open to the immensity of living with death It shows readers how to participate fully in life as the perfect preparation for whatever may come next be it sorrow or joy loss or gain death or a new wonderment at life
