James Birx,2005-12-08 This five volume Encyclopedia of Anthropology is a unique collection of over 1 000 entries that focuses on topics in physical anthropology archaeology cultural anthropology linguistics and applied anthropology Also included are relevant articles on geology paleontology biology evolution sociology psychology philosophy and theology The contributions are authored by over 250 internationally renowned experts professors and scholars from some of the most distinguished museums universities and institutes in the world Special attention is given to human evolution primate behavior genetics ancient civilizations sociocultural theories and the value of human language for symbolic communication      **Images of Idiocy** Martin Halliwell,2017-03-02 This book traces the concept of idiocy as it has developed in fiction and film in the nineteenth and twentieth centuries It focuses particularly on visual images of idiocy and argues that writers as diverse as Gustave Flaubert Fyodor Dostoevsky Joseph Conrad John Steinbeck Flannery O Connor and Rohinton Mistry and filmmakers such as Jean Renoir Akira Kurosawa Alfred Hitchcock Werner Herzog and John Huston have all been attracted to idiot figures as a way of thinking through issues of language acquisition intelligence creativity disability religion and social identity Martin Halliwell provides a lively and detailed discussion of the most significant literary and cinematic uses of idiocy arguing that scientific conceptions of the term as a classifiable medical condition are much too narrow With the explosion of interest in idiocy among American and European filmmakers in the 1990s and the growing interest in its often overlooked history this book offers a timely reassessment of idiocy and its distinctive place at the intersection of science and culture      **Spectacle of Deformity** Nadja Durbach,2009-10-13 In 1847 during the great age of the freak show the British periodical Punch bemoaned the public s prevailing taste for deformity This vividly detailed work argues that far from being purely exploitative displays of anomalous bodies served a deeper social purpose as they generated popular and scientific debates over the meanings attached to bodily difference Nadja Durbach examines freaks both well known and obscure including the Elephant Man Lalloo the Double Bodied Hindoo Boy a set of conjoined twins advertised as half male half female Krao a seven year old hairy Laotian girl who was marketed as Darwin s missing link the Last of the Mysterious Aztecs and African Cannibal Kings who were often merely Irishmen in blackface Upending our tendency to read late twentieth century conceptions of disability onto the bodies of freak show performers Durbach shows that these spectacles helped to articulate the cultural meanings invested in otherness and thus clarified what it meant to be British at a key moment in the making of modern and imperial ideologies and identities      **The Death and Life of Zebulon Finch, Volume One** Daniel Kraus,2016-10-25 The story follows Zebulon Finch a teenager murdered in 1896 Chicago who inexplicably returns from the dead and searches for redemption through the ages
