Science Fact and Science Fiction Brian Stableford, 2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed More Book Lust Nancy Pearl, 2009-09-29 Whether you re searching for the perfect read for yourself or for a friend More Book Lust offer eclectic recommendations unlike those in any other reading guide available In this followup to the bestselling Book Lust popular librarian Nancy Pearl offers a fresh collection of 1 000 reading recommendations in more than 120 thematic intelligent and wholly entertaining reading lists For the friend wanting to leave her job Living Your Dream offers good armchair dreaming books about people who have left stodgy jobs to do what they love Are you a budding chef Fiction For Foodies includes books that sneak in a recipe or two along with a tantalizing plot For the James Bond wannabe Crime is a Globetrotter features crime novels set in various locations around the world such as Tibet Sweden and Sicily In the book s introduction Pearl jokes If we were at a twelve step meeting together I would have to stand up and say Hi I m Nancy P and I m a readaholic Booklist magazine plays off this obsession while echoing a sentiment of Nancy Pearl s fans everywhere A self confessed readaholic Pearl lets us benefit from her addiction May she never seek recovery Indeed The Routledge Concise History of Science Fiction Mark Bould, Sherryl
