The Emergence of Arab Nationalism Zeine N. Zeine, 1966      *The Emergence of Arab Nationalism, with a Background Study of Arab-Turkish Relations in the Near East* N. Zeine Zeine, 1966      *The Emergence of Arab Nationalism* Zeine N. Zeine, 1966      Arab Nationalism in the Twentieth Century Adeed Dawisha, 2016-02-16 Like a great dynasty that falls to ruin and is eventually remembered more for its faults than its feats Arab nationalism is remembered mostly for its humiliating rout in the 1967 Six Day War for inter Arab divisions and for words and actions distinguished by their meagerness But people tend to forget the majesty that Arab nationalism once was In this elegantly narrated and richly documented book Adeed Dawisha brings this majesty to life through a sweeping historical account of its dramatic rise and fall Dawisha argues that Arab nationalism which he says was inspired by nineteenth century German Romantic nationalism really took root after World War I and not in the nineteenth century as many believe and that it blossomed only in the 1950s and 1960s under the charismatic leadership of Egypt's Gamal Abd al Nasir He traces the ideology's passage from the collapse of the Ottoman Empire through its triumphant ascendancy in the late 1950s with the unity of Egypt and Syria and with the nationalist revolution of Iraq to the mortal blow it received in the 1967 Arab defeat by Israel and its eventual eclipse Dawisha criticizes the common failure to distinguish between the broader cultural phenomenon of Arabism and the political secular desire for a united Arab state that defined Arab nationalism In recent decades competitive ideologies not least Islamic militancy have inexorably supplanted the latter he contends Dawisha who grew up in Iraq during the heyday of Arab nationalism infuses his work with rare personal insight and extraordinary historical breadth In addition to Western sources he draws on an unprecedented wealth of Arab political memoirs and studies to tell the fascinating story of one of the most colorful and significant periods of the contemporary Arab world In doing so he also gives us the means to more fully understand trends in the region today Complete with a hard hitting new and expanded section that surveys recent nationalism and events in the Middle East Arab Nationalism in the Twentieth Century tells the fascinating story of one of the most colorful and significant periods in twentieth century Middle Eastern history      *The Making of Arab Americans* Hani J. Bawardi, 2014-05-01 While conventional wisdom points to the Arab Israeli War of 1967 as the gateway for the founding of the first Arab American national political organization such advocacy in fact began with the Syrian nationalist movement which emerged from immigration trends at the turn of the last century Bringing this long neglected history to life *The Making of Arab Americans* overturns the notion of an Arab population that was too diverse to share common goals Tracing the forgotten histories of the Free Syria Society the New Syria Party the Arab National League and the Institute of Arab American Affairs the book restores a timely aspect of our understanding of an area then called Syria that comprises modern day Syria Lebanon Jordan Israel and Palestine Hani Bawardi examines the numerous Arab American political advocacy organizations that thrived before World War I showing how they influenced Syrian and Arab nationalism He further offers an in depth analysis

exploring how World War II helped introduce a new Arab American identity as priorities shifted and the quest for assimilation intensified In addition the book enriches our understanding of the years leading to the Cold War by tracing both the Arab National League s transition to the Institute of Arab American Affairs and new campaigns to enhance mutual understanding between the United States and the Middle East Illustrated with a wealth of previously unpublished photographs and manuscripts *The Making of Arab Americans* provides crucial insight for contemporary dialogues The  
^APoliticization of Islam Kemal H. Karpat,2001-05-03 Combining international and domestic perspectives this book analyzes the transformation of the Ottoman Empire over the nineteenth and twentieth centuries It views privatization of state lands and the increase of domestic and foreign trade as key factors in the rise of a Muslim middle class which increasingly aware of its economic interests and communal roots then attempted to reshape the government to reflect its ideals **Britain, the Hashemites and Arab Rule** Timothy J. Paris,2004-11-23 Timothy Paris examines Winston Churchill s involvement in the struggle for power in a number of Middle Eastern countries between 1920 and 1925 His study traces the development of the Sherifian policy a policy that was devised by the British The Historical Formation of the Arab Nation (RLE: The Arab Nation) A Duri,2012-08-21 This book is a comprehensive examination of the historical process of social formation that gave rise to the communal consciousness of the Arab nation and determined its sense of identity It aims to provide a historical context for the assessment of prevailing concepts and suggests hypotheses for the development of modern Arab consciousness The book firstly traces Arab origins and the formation of Arab societies after the emergence of Islam assessing the perspectives and factors that shaped the rise of the Arab nation in both practical and intellectual terms It then examines the beginning of the Arab awakening and the course of its development in the latter half of the nineteenth century and the first two decades of the twentieth focusing on the emergence of a nationalist perspective in the development of intellectual positions on patriotism and Arabism *Rethinking the Middle East* Efraim Karsh,2003 Karsh contends that the influence of the Great Powers has not been the primary force behind the Middle East s political development nor the main cause of its famous volatility **Territory, State and Nationalism** Adel Soheil,2018-10-18 The Sykes Picot Agreement map signed in May 1918 by the Imperial powers of Great Britain and France constituted the blueprint for redrawing the map of the Middle East after the dismemberment of the Ottoman Empire in 1918 by the victorious Allies thus dividing the Arab territories as well as Kurdistan into its current form In this book the author makes an ambitious attempt to provide a comprehensive new insight into the Kurdish national movement and its struggle against the mandatory power the British and the Iraqi government for achievement of national self determination from 1918 to 1932 The book explores both Kurdish and Arab nationalism within the context of power relations in international politics at the time on the one hand and in relation to domestic political development in Iraq on the other Thereby salient issues are explored inter alia the reasons for the British failure to create a modern national state in Iraq the reluctance of the Anglo Iraqi authorities to accommodate Kurdish rights

and their policy to incorporate Kurdistan into the nascent Iraqi state the U S interests and implication in the region and the impact of the principle of self determination advocated by President Wilson on Kurdish and Arab nationalism Revised with a new chapter     The Origins of Palestinian Nationalism Muhammad Y. Muslih,1988 This book is the only work of its kind devoted exclusively to the institutional framework of Palestinian politics from 1856 until December 1920 when the third Palestinian Arab Congress was held in Haifa to decide the future of Palestine Muslih s book is also the first to present in detail the ideologies of Ottomanism and Arab nationalism and the ways in which they relate to Palestine In the groundbreaking analysis that considers the entire context of Arab politics Muhammad Muslih articulates a new interpretation for the emergence of Palestinian nationalism and one which will foster a better understanding of centuries old attachment of the Arab Palestinians to their land and their struggle for its independence     The Middle East Remembered Jacob Lassner,2000 A meditation on the art of history writing in the medieval Near East     *Middle Eastern Politics and Historical Memory* Jacob Lassner,2020-07-09 How is the complex history of the ancient Near East and Islamic World brought to bear in contemporary political discourse In this book Medieval Near Eastern historian Jacob Lassner explores the resonance of ancient and medieval history in the political disputes that dominate the contemporary Middle East From identification with ancient forbears as a method of legitimization and nation building to tracing the deep history of the concept of revolution in the Arab world the author probes the historical foundations of modern conflicts in the region A medievalist the author takes the position that an appreciation of cultural history is essential to understanding the debate surrounding the Israel Palestine conflict In turn the book identifies the misappropriation and misunderstanding of the past deliberate or accidental as key weapon in the ongoing conflict     The Foreign Policies of Middle East States Raymond A. understanding of the Cold War as a binary rivalry between the two blocs is too simple an approach and obscures important characteristics of intelligence cooperation among allies Egemen Bezci shows that a pragmatic approach offers states new opportunities to protect national interests by conducting intelligence diplomacy to influence crucial areas such as nuclear weapons and to exploit cooperation in support of their own strategic imperatives This study not only reveals previously unexplored origins of secret intelligence cooperation between Turkey and West but also contributes to wider academic debates on the nature of the Cold War by highlighting the potential agency of weaker states in the Western Alliance

Turkey's Foreign Policy in the 21st Century Mustafa Aydin, 2019-06-04 Title first published in 2003 In this insightful book the authors explore Turkey's role within a globalizing world and as a new century unfolds examine a nation at the crossroads of both time and space within the international political order Chapters consider Turkey's policy history its prospects and policy issues and discuss them with positive alternatives outlined for Turkish policy makers and the academics who examine them

*The Making of a Syrian Identity* Fruma Zachs, 2005-05-01 Exploring the origins and development of the Syrian identity during the 18th and 19th centuries through the role of Christian Arab intellectuals and merchants Ottomans and American missionaries this volume examines its background stages of evolution and components It shows that the contribution of these Christian Arabs despite their relatively small number lies in the processes they set in motion being the first to promote territorial concepts along with a secular interpretation of Arab culture This Syrian identity constitutes an innovative case study in the broader discipline of proto national identity and the study of the development of local identities in Middle Eastern countries It is also a vital basis for research of 20th century Syrian nationalism

*New Faith in Ancient Lands* Heleen Murre-van den Berg, 2007-03-31 Over the centuries the Middle East has held an important place in the religious consciousness of many Christians in West and East In the nineteenth century these interests culminated in extensive missionary work of Protestant and Roman Catholic organisations among Eastern Christians Muslims and Jews The present volume in articles written by an international group of scholars discusses themes like the historical background of Christian geopiety among Roman Catholics and Protestants and the internal tensions and conflicting aims of missions and missionaries such as between nationalist and internationalist interests between various rival organisations and between conversionalist and civilizational aims of missions in the Ottoman Empire In a synthetic overview and a comprehensive bibliography an up to date introduction into this field is provided

*A History of the Arab-Israeli Conflict* Ian J. Bickerton, Carla L. Klausner, 2022-07-05 Comprehensive and analytical A History of the Arab Israeli Conflict presents a balanced and impartial overview of this centuries old struggle Taking a clear and chronological approach to this complex subject and placing events in the context of their longer term histories Ian J Bickerton and Carla L Klausner examine the issues and themes that have characterized and defined the conflict over the course of its history bringing the coverage up to date with a twenty first century perspective Starting in the nineteenth century the book moves through the British Mandate

World War II and the proclamation of the state of Israel the widening and deepening conflict and attempts at a peace process the impacts of 9 11 and the Arab Spring and finally it discusses events to the end of 2021 In a completely revised Conclusion the authors examine how we interpret many of the startling rapidly changing and somewhat unpredictable events of the last five years Illustrated throughout with numerous photographs updated maps tables and chronologies for each chapter together with extensive relevant and up to date documentary sources further reading and a glossary of key terms it is the ideal textbook for all students of the history of the modern Middle East

**Lawrence of Arabia on War** Robert Johnson, 2020-04-30 WINNER OF THE BRITISH ARMY BOOK OF THE YEAR 2021 A riveting account of T E Lawrence's battles on and off the battlefield Using scrupulous research and succinct prose Johnson provides a gold mine of stratagems a must read for military leaders to come Arnel P David Lt Col US Army Special Advisor to the Chief of the General Staff UK An innovative study of Lawrence that carefully and intelligently examines his campaigns and thinking on irregular warfare and in doing so produces an accessible and intellectually stimulating work of military history James Kitchen Royal Military Academy Sandhurst This is a major contribution to the literature on the Middle East in the Great War and the history of military ideas and it is highly relevant to contemporary armed force Professor Gary Sheffield University of Wolverhampton A new study of Captain T E Lawrence's ideas on warfare and the context of his military campaign as well as the peace settlement and the legacies that followed Lawrence of Arabia is one of the most iconic figures of the First World War seen by many as a heroic and romantic guerrilla leader in a period of savage and deeply impersonal industrial warfare While Lawrence himself has been the subject of many biographies and an award winning film the context of his war in the desert and his ideas on war itself are less well known Lawrence of Arabia on War is a study of those ideas and of his campaign of irregular warfare which has informed tactical theory and decision making down to the present day juxtaposed alongside the operations conducted by the Ottoman Empire and those of the Allied army in Palestine It explores the challenges he faced in a complex environment against a more numerous and better armed adversary and the manner in which he assessed what was changing what was distinctive and what was unique to guerrilla warfare in the desert Setting Lawrence in his historical context it examines the peace settlement process he participated in during 1919-20 analyses how other military writers made use of his ideas and describes the ways in which his legacy has informed and inspired those partnering and mentoring local forces today
