The Emergence Of Tolerance In The Dutch Republic:

The Emergence of Tolerance in the Dutch Republic Christiane Berkvens-Stevelinck, Jonathan Jonathan Irvine Israel, Guillaume Henri Marie Posthumus Meyjes, 1997 The fruit of a colloquium held in 1994 in the Netherlands this collection of papers charts the emergence and vicissitudes of the concept of tolerance and its practical implications in the Dutch Republic from the revolt against Spain in the sixteenth century to the early eighteenth century *The Emergence of Tolerance in the Dutch Republic*, 2021-12-06 This volume is the fruit of the colloquium Les Pays Bas carrefour de la tolérance aux Temps Modernes held in Wassenaar the Netherlands in 1994 Toleration in the strict sense of the word was very much against the grain of sixteenth century European history This volume charts the emergence and vicissitudes of the concept of tolerance and its practical implications in the Dutch Republic from the revolt against Spain in the sixteenth century to the early eighteenth century The various contributions all by distinguished scholars address such issues as Erasmus views on toleration the relation between tolerance and irenism and the contemporary intellectual debate about toleration in the Dutch Republic This important volume will prove indispensable to historians of the Low Countries students of humanism and all those interested in the intellectual history of the 16th 18th centuries Catholic Survival in the Dutch Republic Genji Yasuhira, 2025-10-01 Even in adversity Catholics exercised considerable agency in post Reformation Utrecht Through the political practices of repression and toleration Utrecht's magistrates under constant pressure from the Reformed Church attempted to exclude Catholics from the urban public sphere However by mobilizing their social status and networks Catholic Utrechters created room to live as pious Catholics and honourable citizens claiming more rights in the public sphere through their spatial practices and in discourses of self representation This book explores how Catholic priests and laypeople cooperated and managed to survive the Reformed regime by participating in a communal process of delimiting the public continuing to rely on the medieval legacy and adapting to early modern religious diversity Deploying their own understandings of publicness Catholic Utrechters not only enabled their survival in the city and the Catholic revival in the Dutch Republic but also contributed to shaping a multi religious society in the Northern Netherlands *A Concise History of the Netherlands* James C. Kennedy, 2017-07-13 This book offers a comprehensive yet compact history of this surprisingly little known but fascinating country from pre history to the present How the Idea of Religious Toleration Came to the West Perez Zagorin, 2013-12-03 Religious intolerance so terrible and deadly in its recent manifestations is nothing new In fact until after the eighteenth century Christianity was perhaps the most intolerant of all the great world religions How Christian Europe and the West went from this extreme to their present universal belief in religious toleration is the momentous story fully told for the first time in this timely and important book by a leading historian of early modern Europe Perez Zagorin takes readers to a time when both the Catholic Church and the main new Protestant denominations embraced a policy of endorsing religious persecution coercing unity and with the state's help mercilessly crushing dissent and heresy This position

had its roots in certain intellectual and religious traditions which Zagorin traces before showing how out of the same traditions came the beginnings of pluralism in the West Here we see how sixteenth and seventeenth century thinkers writing from religious theological and philosophical perspectives contributed far more than did political expediency or the growth of religious skepticism to advance the cause of toleration Reading these thinkers from Erasmus and Sir Thomas More to John Milton and John Locke among others Zagorin brings to light a common if unexpected thread concern for the spiritual welfare of religion itself weighed more in the defense of toleration than did any secular or pragmatic arguments His book which ranges from England through the Netherlands the post 1685 Huguenot Diaspora and the American Colonies also exposes a close connection between toleration and religious freedom A far reaching and incisive discussion of the major writers thinkers and controversies responsible for the emergence of religious tolerance in Western society from the Enlightenment through the United Nations Universal Declaration of Human Rights this original and richly nuanced work constitutes an essential chapter in the intellectual history of the modern world *Calvinism and Religious Toleration in the Dutch Golden Age* R. Po-Chia Hsia, Henk Van Nierop, 2002-08-01 Dutch society has enjoyed a reputation or notoriety for permissiveness from the sixteenth century to present times The Dutch Republic in the Golden Age was the only society that tolerated religious dissenters of all persuasions in early modern Europe despite being committed to a strictly Calvinist public Church Professors R Po chia Hsia and Henk van Nierop have brought together a group of leading historians from the US the UK and the Netherlands to probe the history and myth of this Dutch tradition of religious tolerance This 2002 collection of outstanding essays reconsiders and revises contemporary views of Dutch tolerance Taken as a whole the volume s innovative scholarship offers unexpected insights into this important topic in religious and cultural history *Dutch Jewry: Its History and Secular Culture (1500-2000)* Israel, Reinier Salverda, 2021-10-11 This volume consisting of seventeen studies by leading experts in the field takes stock of recent work on the history and literary culture of the Jews in the Netherlands and Antwerp from before the revolt until the present Important new discoveries are included here for the first time *The Dutch Intersection* Yosef Kaplan, 2008-06-19 This collection of historical studies deals with the multiple connections between the history and culture of the Jews of the Netherlands from the beginning of the seventeenth century until the period after the Holocaust and phenomena and processes that distinguish the history of the Jewish people in the modern period The Jews of the Netherlands were not only nourished by the cultural creativity of the great Sephardi and Ashkenazi centers East and West but also at various stages they served as a source of inspiration for Jews elsewhere in the Jewish Diaspora The articles of this volume examine the influence of general Jewish history on that of the Jews of the Netherlands and focus on events and processes that highlight the significance of Dutch Jewry for modern Jewish culture *Religious Choice in the Dutch Republic* Judith Pollmann, 1999 How did people learn their Bibles in the Middle Ages Did church murals biblical manuscripts sermons or liturgical processions transmit the Bible in the same way This book unveils the dynamics of biblical knowledge

and dissemination in thirteenth and fourteenth century England An extensive and interdisciplinary survey of biblical manuscripts and visual images sermons and chants reveals how the unique qualities of each medium became part of the way the Bible was known and recalled how oral textual performative and visual means of transmission joined to present a surprisingly complex biblical worldview This study of liturgy and preaching manuscript culture and talismanic use introduces the concept of biblical mediation a new way to explore Scriptures and society It challenges the lay clerical divide by demonstrating that biblical exegesis was presented to the laity in non textual means while the naked text of the Bible remained elusive even for the educated clergy

God, Locke, and Liberty Joseph Loconte, 2014-02-27 I no sooner perceived myself in the world wrote English philosopher John Locke than I found myself in a storm The storm of which Locke spoke was the maelstrom of religious fanaticism and intolerance that was tearing apart the social fabric of European society His response was A Letter Concerning Toleration 1689 arguably the most important defense of religious freedom in the Western tradition In God Locke and Liberty The Struggle for Religious Freedom in the West historian Joseph Loconte offers a groundbreaking study of Locke s Letter challenging the notion that decisive arguments for freedom of conscience appeared only after the onset of the secular Enlightenment Loconte argues that Locke s vision of a tolerant and pluralistic society was based on a radical reinterpretation of the life and teachings of Jesus In this Locke drew great strength from an earlier religious reform movement namely the Christian humanist tradition Like no thinker before him Locke forged an alliance between liberal political theory and a gospel of divine mercy God Locke and Liberty suggests how a better understanding of Locke s political theology could calm the storms of religious violence that once again threaten international peace and security To read an interview with the author about the book on Patheos com see here <http://www.patheos.com/blogs/jesuscreed/2015/01/10/under-locke-and-key>

Contesting Inter-Religious Conversion in the Medieval World Yosi Yisraeli, Yaniv Fox, 2016-12-08 The Mediterranean and its hinterlands were the scene of intensive and transformative contact between cultures in the Middle Ages From the seventh to the seventeenth century the three civilizations into which the region came to be divided geographically the Islamic Khalifate the Byzantine Empire and the Latin West were busily redefining themselves vis vis one another Interspersed throughout the region were communities of minorities such as Christians in Muslim lands Muslims in Christian lands heterodoxical sects pagans and of course Jews One of the most potent vectors of interaction and influence between these communities in the medieval world was inter religious conversion the process whereby groups or individuals formally embraced a new religion The chapters of this book explore this dynamic what did it mean to convert to Christianity in seventh century Ireland What did it mean to embrace Islam in tenth century Egypt Are the two phenomena comparable on a social cultural and legal level The chapters of the book also ask what we are able to learn from our sources which at times provide a very culturally charged and specific conversion rhetoric Taken as a whole the compositions in this volume set out to argue that inter religious conversion was a process that was recognizable and

comparable throughout its geographical and chronological purview **The Politics of Memory** Raingard Esser,2012-02-17
The Eighty Years War and the establishment of two states in the Low Countries inaugurated the publication of numerous texts to support a distinct Northern and Southern identity This study analyses urban and regional chorographies written both in the North and in the South in the seventeenth century It examines different strategies that chorographers developed to make sense of the recent and more remote past It also looks at the development of different historiographical traditions in the Protestant North and the Catholic South and thus contributes to the current research interest in the history of historiography cultures of memory and identity formation A Cultural History of Peace in the Renaissance Isabella

Lazzarini,2022-02-24 A Cultural History of Peace presents an authoritative survey from ancient times to the present The set of six volumes covers over 2500 years of history charting the evolving nature and role of peace throughout history This volume A Cultural History of Peace in the Renaissance explores peace in the period from 1450 to 1648 As with all the volumes in the illustrated Cultural History of Peace set this volume presents essays on the meaning of peace peace movements maintaining peace peace in relation to gender religion and war and representations of peace A Cultural History of Peace in the Renaissance is the most authoritative and comprehensive survey available on peace in the early modern era

War and Religion after Westphalia, 1648-1713 David Onnekink,2016-03-03 Many historians consider the Peace of Westphalia which ended the Thirty Years War in 1648 to mark a watershed in European international relations It is generally agreed that Westphalia brought to an end more than a century of religious conflicts and marked the beginning of a new era in which secular power politics was the prime motivating factor in international relations and warfare The purpose of this volume is to question this assumption and reconceptualise the relationship between war foreign policy and religion during the period 1648 to 1713 Some of the contributions to the volume directly challenge the idea that religion ceased to play a role in war and foreign policy Others confirm the traditional view that religion did not play a dominant role after 1648 but seek to re evaluate its significance and thereby redefine religious influences on policy in this period By exploring this issue from various perspectives the volume offers a unique opportunity to reassess the influence of religion in international politics It also yields deeper insights into concepts of secularisation and complements the research of many social and cultural historians who have begun to challenge the idea of a decline in the influence of religion in domestic politics and society By matching the relationship between conflict and religion with this scholarship a more nuanced appreciation of the European situation begins to emerge **Religion and the Early Modern State** James D. Tracy,Marguerite Ragnow,2004-10-25 How

did state power impinge on the religion of the ordinary person This perennial issue has been sharpened as historians uncover the process of confessionalization or acculturation by which officials of state and church collaborated in ambitious programs of Protestant or Catholic reform intended to change the religious consciousness and the behaviour of ordinary men and women In the belief that specialists in one area of the globe can learn from the questions posed by colleagues working in the

same period in other regions this volume sets the topic in a wider framework Thirteen essays grouped in themes affording parallel views of England and Europe Tsarist Russia and Ming China show a spectrum of possibilities for what early modern governments tried to achieve by regulating religious life and for how religious communities evolved in new directions either in keeping with or in spite of official injunctions **The Cambridge Companion to the Dutch Golden Age** Helmer J.

Helmers, Geert H. Janssen, 2018-08-23 An accessible introduction to the political economic literary and artistic heritage of the Dutch Republic in the seventeenth century **A Companion to Multiconfessionalism in the Early Modern World**

Thomas Max Safley, 2011-06-09 This volume brings together recent scholarship on early modern multiconfessionalism that challenges accepted notions of reformation confessionalization and state building and suggests a new vision of religions state and society in early modern Europe Reformation and the Practice of Toleration Benjamin J. Kaplan, 2019-09-16 The Dutch

Republic was the most religiously diverse land in early modern Europe gaining an international reputation for toleration In Reformation and the Practice of Toleration Benjamin Kaplan explains why the Protestant Reformation had this outcome in the Netherlands and how people of different faiths managed subsequently to live together peacefully Bringing together fourteen essays by the author the book examines the opposition of so called Libertines to the aspirations of Calvinist reformers for uniformity and discipline It analyzes the practical arrangements by which multiple religious groups were accommodated It traces the dynamics of religious life in Utrecht and other mixed communities And it explores the relationships that developed between people of different faiths especially in mixed marriages The Low Countries as a Crossroads of Religious Beliefs

, 2004-07-01 Situated at the crossroads of important trade routes the bustling seaports of the Low Countries not only traded cargoes of grain and timber silk and spices woollen cloth and splendidly executed altarpieces but also manuscripts and books news information ideas and gossip Thus the Netherlands were touched by the evangelical Reformation movement at an early stage and played an increasingly important role as a crossroads for religious and philosophical ideas serving as an intermediary between different parts of the world The third volume of Intersections is devoted to this aspect of the intertraffic of the mind Thirteen authors from various disciplines address issues such as How open were the various religious groups to new points of view and how did they react to each other's opinion How did they get familiar with new insights and different attitudes and what was the role of trade and traffic in spreading them How important was the part played by the various church and civil authorities on the different levels of local regional and national government Contributors include Paul Arblaster Pieta van Beek Ralph Dekoninck Jeanine De Landtsheer Agn's Guiderdoni Brusl Jason Harris Christine Kooi Fred van Lieburg Guido Marnef Mia M Mochizuki Henk van Nierop Charles H Parker P J Schuffel and J J V M de Vet

Living with Religious Diversity in Early-Modern Europe Dagmar Freist, 2016-12-05 Current scholarship continues to emphasise both the importance and the sheer diversity of religious beliefs within early modern societies Furthermore it continues to show that despite the wishes of secular and religious leaders confessional uniformity was in many cases

impossible to enforce As the essays in this collection make clear many people in Reformation Europe were forced to confront the reality of divided religious loyalties and this raised issues such as the means of accommodating religious minorities who refused to conform and the methods of living in communion with those of different faiths Drawing together a number of case studies from diverse parts of Europe *Living with Religious Diversity in Early Modern Europe* explores the processes involved when groups of differing confessions had to live in close proximity sometimes grudgingly but often with a benign pragmatism that stood in opposition to the will of their rulers By focussing on these themes the volume bridges the gap between our understanding of the confessional developments as they were conceived as normative visions and religious culture at the level of implementation The contributions thus measure the religious policies articulated by secular and ecclesiastical elites against the lived experience of people going about their daily business In doing this the collection shows how people perceived and experienced the religious upheavals of the confessional age and how they were able to assimilate these changes within the framework of their lives
