Irving's Dialogism in the Alhambra Mohamed Dellal,2024-12-06

Cross culture and or multiculturalism have become catchwords and phrases in certain studies within academia but they have mostly become battle grounds for contestation and convergence with contestation of identity cultural authenticity and or supremacy and hegemony Yet over and above all these skirmishes convergence tends to win the day as it struggles for a cosmopolitan culture and polity albeit very difficult to achieve The present work follows the same line of thought by trying to bring a new perspective into what it calls cultural dialogism inherent in the corpus of texts borrowed from *The Alhambra* by W Irving The texts selected display a dual characteristic the first is addressed as organic in the sense that the texts reflect some eight hundred years of natural copulation between Muslim culture brought up by Muslim conquerors to the Andalusian Christendom the second underlines a volition on the part of the author to merge the culture by intruding into the structures of the language and the texts The present works intends to show that these characteristic hybridities transgress the generic boundaries as well as the cultural one producing a brassage breaking the fixity of the boundaries cultural and other causing brisures and sutures This endows the texts with a certain liminality that makes it difficult to authenticate them as belonging to either culture

The Alhambra Or the New Sketch Book Washington Irving,1834 **Three Loves for Three Oranges** Dassia N. Posner, Kevin Bartig,2021-09-14

In 1921 Sergei Prokofiev s *Love for Three Oranges* one of the earliest most famous examples of modernist opera premiered in Chicago Prokofiev s source was a 1913 theatrical divertissement by Vsevolod Meyerhold who in turn took inspiration from Carlo Gozzi s 1761 *commedia dell arte* infused theatrical fairy tale

Only by examining these whimsical provocative works together can we understand the full significance of their intertwined lineage. With contributions from 17 distinguished scholars in theater art history, Italian Slavic studies, and musicology, *Three Loves for Three Oranges* by Gozzi, Meyerhold, Prokofiev illuminates the historical development of Modernism in the arts, the ways in which commedia dell'arte's self-referential and improvisatory elements have inspired theater and music innovations, and how polemical playfulness informs creation. A resource for scholars and theater lovers alike, this collection of essays paired with new translations of *Love for Three Oranges* charts the transformations and transpositions that this fantastical tale underwent to provoke theatrical revolutions that still reverberate today.
