**Kegan Paul - A Victorian Imprint** Leslie Howsam, 1999-12-15 The Kegan Paul imprint was created and its reputation for a distinguished list of titles established during a forty year period from 1871 to 1911. Several publishers and their firms were involved in the development of the imprint during this period beginning with Henry S King and Company and following in 1877 with Charles Kegan Paul and his partner Alfred Chenevix Trench. A financial crisis in 1889 forced an amalgamation with two other businesses and the new firm changed managers periodically until George Routledge and Son took over the business in 1911. Leslie Howsam combines biography and analytic bibliography in her study of the Kegan Paul imprint to demonstrate the value of publishing history as a contribution to the scholarly study of the book. Basing her research on intensive work in the company's surviving archives and supplemented by extensive library work with the actual books, Howsam looks at the wide range of significant titles published for the imprint. In addition she reconstructs a biographical and business history of the firm based on published and unpublished accounts of the individuals involved including the publishers and their families and looks at the effects of changing business practices. The focus of *Victorian Imprint: Kegan Paul* is the duality of imprint: the publisher's imprint upon a list of books and publisher's personalities; the imprint of their taste and judgment on the culture in which they lived.

*Literary Coterie and the Irish Women Writers' Club (1933-1958)* Deirdre F. Brady, 2021 This book is an original account of coterie culture in twentieth century Ireland and the networks and connections which fostered women's writing. It paints a vivid portrait of the inspirational women involved in the Women Writers Club showcasing their influence and achievements in literature and their political campaigning for intellectual and creative freedom.

*The House of Forgery in Eighteenth-Century Britain* Paul Baines, 2019-07-16 Published in 1999 this work offers a balanced interdisciplinary account of literary and criminal forgery as they were practised, constructed and theorized in the 18th century as a corollary of the new documents of the financial revolution: banknotes, bills of exchange and promissory notes. The book surveys the crime and its mythology, placing well known cases such as that of Dr William Dodd within the pattern of 400 prosecutions from the period 1715-1780. In parallel accounts of some major instances of literary forgery are rooted in a more pervasive culture in which forgery was discovered in many developing areas of literary practice: scholarly editing, historiography and antiquarianism. One surprising aspect of this study is the extent to which literary figures were involved in matters of criminal as well as literary forgery. It is suggested that the two kinds of forgery have unexpected connections with each other through the economy of literature which, following the development of copyright, regarded the signature of authorship as the legal site of literary authenticity and through the economic and legal culture of forgery prosecutions in which bogus writing came to signify a whole range of problems of personal and literary character. The study is based on a very large body of diverse material from major texts such as *The*

Dunciad and Lives of the English Poets to hundreds of minor poems controversial pamphlets criminal biographies newspapers legal records and manuscripts

**Measures of Possibility** Domhnall Mitchell, Professor of English Domhnall Mitchell, 2005-01-01 The author confronts the thorny question of whether any set of editing practices can adequately represent in print the distinctive characteristics of Emily Dickinson's writing

*The Practice and Representation of Reading in England* James Raven, Helen Small, Naomi Tadmor, 2007-09-27 Developments in cultural history and literary criticism have suggested alternative ways of addressing the interpretation of reading How did people read in the past Where and why did they read How were the manner and purpose of reading envisaged and recorded by contemporaries and why Drawing on fields as diverse as medieval pedagogy textual bibliography the history of science and social and literary history this collection of fourteen essays highlights both the singularity of personal reading experiences and the cultural conventions involved in reading and its perception An introductory essay offers an important critical assessment of the various contributions to the development of the subject in recent times This book constitutes a major addition to our understanding of the history of readers and reading

**The Enlightenment and the Book** Richard B. Sher, 2008-09-15 The late eighteenth century witnessed an explosion of intellectual activity in Scotland by such luminaries as David Hume Adam Smith Hugh Blair William Robertson Adam Ferguson James Boswell and Robert Burns And the books written by these seminal thinkers made a significant mark during their time in almost every field of polite literature and higher learning throughout Britain Europe and the Americas In this magisterial history Richard B. Sher breaks new ground for our understanding of the Enlightenment and the forgotten role of publishing during that period The Enlightenment and the Book seeks to remedy the common misperception that such classics as *The Wealth of Nations* and *The Life of Samuel Johnson* were written by authors

who eyed their publishers as minor functionaries in their profession To the contrary Sher shows how the process of bookmaking during the late eighteenth century involved a deeply complex partnership between authors and their publishers one in which writers saw the book industry not only as pivotal in the dissemination of their ideas but also as crucial to their dreams of fame and monetary gain Similarly Sher demonstrates that publishers were involved in the project of bookmaking in order to advance human knowledge as well as to accumulate profits The Enlightenment and the Book explores this tension between creativity and commerce that still exists in scholarly publishing today Lavishly illustrated and elegantly conceived it will be must reading for anyone interested in the history of the book or the production and diffusion of Enlightenment thought

A Bibliographic History of the Book Joseph Rosenblum, 1995 skillfully compiled should be useful to anyone interested in placing his or her studies in the context of printed and bound literature

**Printing History and Cultural Change** Richard Wendorf, 2022-03-24 This study provides one of the most detailed and comprehensive examinations ever devoted to a critical transformation in the material substance of the printed page it carries out this exploration in the history of the book moreover by embedding these typographical changes in the context of other cultural phenomena in eighteenth century Britain The gradual abandonment of pervasive capitalization italics and caps and small caps in books printed in London Dublin and the American colonies between 1740 and 1780 is mapped in five year increments which reveal that the appearance of the modern page in English began to emerge around 1765 This descriptive and analytical account focuses on poetry classical texts Shakespeare contemporary plays the novel the Bible the Book of Common Prayer sermons and religious writings newspapers magazines anthologies government publications and private correspondence it also examines the reading public canon formation editorial theory and practice and the role of typography in textual interpretation These changes in printing conventions are then compared to other aspects of cultural change the adoption of the Gregorian calendar in 1752 the publication of Johnson's Dictionary in 1755 the transformation of shop signs and the imposition of house numbers in London beginning in 1762 and the evolution of the English language and of English prose style This study concludes that this fundamental shift in printing conventions was closely tied to a pervasive interest in refinement regularity and standardization in the second half of the century and that it was therefore an important component in the self-conscious process of modernizing British culture
