**The End of Faith** Sam Harris, 2004 A startling analysis of the clash of faith and reason in today's world this historical tour of mankind's willingness to suspend reason in favor of religious beliefs even when those beliefs are used to justify atrocities asserts that in the shadow of weapons of mass destruction we cannot expect to survive our religious differences indefinitely Most controversially argues that moderate lip service to religion only blinds us to the real perils of fundamentalism Harris also draws on new evidence from neuroscience and insights from philosophy to explore spirituality as a biological brain based need and invokes that need in taking a secular humanistic approach to solving the problems of this world

Henderson,2007-06-01      *Saving Globalization* Mike Moore,2011-11-09 Globalization is not new nor is it a policy it s a process that has existed as long as man looked over the horizon travelled and traded It can t be stopped but it can be slowed It came to a grinding halt in August 1914 and the Marxist detour cost millions of lives and lost three generations their opportunity and hope in many countries More wealth has been created in the past 60 years than in all of history After the most successful decade of sustained economic growth in history this progress is threatened Extreme inequality corruption and environmental degradation threaten the stability and legitimacy of many developing countries regimes Anti globalization and anti capitalist campaigners confidence has been emboldened due to the present economic crisis Protectionist rhetoric is growing as are the arguments to control and regulate markets Leaders are meeting to discuss how to face these problems and create a new international architecture How did we get to this position What should we do What is it that determines why some contemporary states are successful while others have failed *Saving Globalization* departs from its analysis of the globalised economy in the twenty first century to answer these question by tracing the development of what Moore considers to be the big ideas of history democracy independent courts the separation of church and state property rights independent courts a professional civil service and civil society Democratic capitalism has worked for most people Why It is a remarkable story from the Greeks to the Geeks encompassing technological progress and the corrections and contradictions between liberty and equality technology growth and the environment In defence of the many virtues and opportunities that globalisation offers Mike Moore makes the case for a fresh and new approach to our international Institutions and for domestic policies that promote equity and fairness The book controversially attacks the new enemies of reason and evidence The threats now come from all sides especially workers in developed countries who fear for their jobs Mike Moore is a political practitioner turned theoretician      **Sam Harris and the End of Faith: A Critique** Anab Whitehouse,2018-11-06 This work is a critical exploration of a book by Sam Harris entitled *The End of Faith Religion Terror and the Future of Reason* While the book by Mr Harris puts forth arguments that attempt to paint all spirituality and religion with broad strokes of derision castigation and rejection Mr Harris also reserves a great deal of space within his book for casting aspersions on Islam and Muslims The present critical review examines the many errors misunderstandings and problems contained in the aforementioned work of Mr Harris This book minus corrections new formatting and name changes was previously published as *Sam Harris and the End of Faith A Muslim s Critical Response*      *The End of faith* Sam Harris,2006      Jihad, Radicalism, and the New Atheism Mohammad Hassan Khalil,2017-12-21 Is Islam fundamentally violent For influential New Atheists such as Sam Harris Ayaan Hirsi Ali and Richard Dawkins the answer is an emphatic yes largely because of the Islamic doctrine of jihad According to this view when al Qaeda plotted 9 11 or ISIS planned any one of its recent terrorist attacks they were acting in accord with Islamic scripture Jihad

Radicalism and the New Atheism scrutinizes this claim by comparing the conflicting interpretations of jihad offered by mainstream Muslim scholars violent Muslim radicals and New Atheists Mohammad Hassan Khalil considers contemporary Muslim terrorism to be a grave problem that we must now confront He shows however that the explanations offered for this phenomenon by the New Atheists are highly problematic and that their own interpretations of the role of violence in Islam exceed those of even radicals such as Osama bin Laden In showing all of this Khalil offers critical insights on a most pressing issue

*The Knowledge Drive* Edward J. Bardon, 2008-08 The Knowledge Drive is an optimistic book that demonstrates how new more accurate information conveys survival value and inevitably supplants our dysfunctional mythological beliefs Before there was time for the accumulation of knowledge early man created legends and religious myths to understand the world and ease the paralyzing awareness of his own mortality and the fear of natural forces beyond his control We are increasingly aware of how

these magical beliefs can lead to divisive religious practices violence and mans continuing inhumanity to fellow man Change is clearly needed Now rapid advances in many fields are giving us the techniques to modify our evolution and curtail our virulence We can establish a more universal equitable morality based on more accurate intelligence about our origins and place in the universe Nevertheless it is up to us as a species to choose our own future directions We are thus in charge of our own destiny a threatening thought to many No prayers or appeals to magical forces will help Dr Bardon analyzes how our quest for knowledge is a basic human drive similar to the sex and nourishment drives It arises from our survival instinct and is not based on moral or altruistic factors Along with establishing knowledge as a source of power the author discusses the Knowledge Drive from many other perspectives its various motivations the fact that it can be used for many purposes even destructive ones how it learns from adversity how it often exacerbates inequality and how it does not solve social problems unless given the necessary direction Dr Bardon looks at the multiple forces aligned against our efforts to obtain more reliable information He shows how the Knowledge Drive not only triumphs over but also learns from these negative elements Warnings about the fragility of our search for knowledge are misguided it is rather the people mired in mythology who are vulnerable and need our compassion

*John Henry Newman on Truth and its Counterfeits* Reinhard Hutter,2020-02-21 Reinhard Hutter s main thesis in this third volume of the Sacra Doctrina series is that John Henry Newman in his own context of the nineteenth century a century far from being a foreign one to our own faced the same challenges as we do today the problems then and now differ

in degree not in kind Hence Newman s engagement with these problems offers us a prescient and indeed prophetic diagnosis of what these problems or errors if not corrected will lead to consequences which have more or less come to pass and furthermore an alternative way which is at once thoroughly Catholic and holds contemporary relevance The introduction offers a survey of Newman s life and works and each of the subsequent four chapters addresses one significant aspect of Christianity that is not only contested or rejected by secular unbelief but also has a counterfeit for which not only Christians but even Catholics have fallen The counterfeit of conscience is the conscience of the sovereign subject Ch 1 the counterfeit of faith is the faith of one who does not submit to the living authority through which God communicates but rather adheres to the principle of private judgment in matters of revealed religion Ch 2 the counterfeit of doctrinal development is twofold i paying lip service to development while only selectively accepting its consequences on the grounds of a specious antiquarianism and ii invoking development theory to justify all sorts of contemporary changes according to the present Zeitgeist Ch 3 Finally the counterfeit of the university are all those universities whose end is not to educate and thereby to perfect the intellect but rather to feed more efficiently the empire of desire that is informed by the techno consumerism of today Ch 4 The book concludes with an epilogue on H tter s journey to Catholicism

**A Shot of Faith (to the Head)** Mitch Stokes, 2012-04-16

Secular skeptical disillusioned These are the traits that mark our age encouraged by outspoken atheists who insist that faith is na ve and belief is dangerous But what if the atheists are the irrational ones Can their beliefs withstand the rigorous examination that they demand from others In A Shot of Faith of Faith to the Head Mitch Stokes Senior Fellow of Philosophy at New Saint Andrews College dismantles the claims of skeptics and atheists while constructing a simple yet solid case for Christian belief This profound yet accessible book proves the rationality consistency and reliability of the Christian approach to science and life If you have ever doubted that your beliefs can stand up to scrutiny if you ve ever doubted your beliefs this book dissolves the questions For atheists it is a wake up call For Christians it s A Shot of Faith to the Head Endorsements A Shot of Faith to the Head is much more than a defense of Christianity it takes the offensive against the secularist thinking that enamors so many in the West With the thoroughness of a scholar and the confidence of experience Mitch Stokes demonstrates the intellectually dubious nature of the so called New Atheism and provides Christians with a much needed handbook for the questions they will surely face once they are outside of the safe confines of their Christian communities I highly recommend it Larry Taunton founder of the Fixed Point Foundation and author of The Grace Effect A fine book lively clear accessible but also deep and deeply competent Alvin Plantinga Emeritus Professor of Philosophy at the University of Notre Dame author of Where the Conflict Really Lies Science Religion and Naturalism Oxford University Press The Bible identifies Jesus as the Word and as the Light available therefore to the mind as well as the heart Of all religions Christianity most invites one to think as well as to believe and in this troubled time that invitation is still more urgent to take up Here is a book by a skilled thinker showing how better to think about faith It is a worthy task ably achieved

Larry P Arnn PhD president Hillsdale College This book is what snarky atheists have coming to them for their dismissive claims and unfounded arrogance Written not to convince atheists but to help Christians defend themselves and the Christian faith *A Shot of Faith to the Head* takes the best tools of top notch apologetics and philosophy and puts them in the hands of every believer Even better it s easy and fun to read winsome witty filled with sharp thinking and well researched As a professor and pastor I ll be assigning this book in my apologetics courses and would recommend it to every Christian It displays strategic answers to questions and objections every Christian has encountered Justin Holcomb pastor Mars Hill Church executive director of the Resurgence adjunct professor of theology Reformed Theological Seminary

*A Constructive Critique of Religion* Mia Lövhelm,Mikael Stenmark,2020-02-06 Why do some strategies for critique of religion seem to be more beneficial for constructive engagement whereas others increase intolerance polarization and conflict Through an analysis of the reasons underpinning a critique of religion in institutional contexts of secular democratic societies *A Constructive Critique of Religion* explores how constructive interaction and critique can be developed across diverse interests It shows how social and cultural conditions shaping these institutions enable and structure a critical and constructive engagement across diverging worldviews A key argument running through the book is that to develop constructive forms of critique a more thorough and systematic investigation of resources for criticism located within religious worldviews themselves is needed Chapters also address how critique of Islam and Christianity in particular is expressed in areas such as academia the law politics media education and parenting with a focus on Northern Europe and North America The interdisciplinary approach which combines theoretical perspectives with empirical case studies contributes to advancing studies of the complex and contentious character of religion in contemporary society
