The End Of Social Inequality Class Status And Power Under State Socialism:

The end of social inequality? : class, status and power under state socialism David Lane,1984 **Capitalism and Class Struggle in the USSR** Neil C. Fernandez,2018-12-14 First published in 1997 this was the first Autonomist Marxist book on the USSR The various theories of Soviet capitalism are considered more comprehensively than in any previous work and are shown to be inadequate insofar as they fail to demonstrate satisfactorily the predominance of the category of capital A powerful new theory is developed which does precisely this introducing the concepts of bureaucratic forms of both exchange value and money This constitutes an important contribution to the overall theoretical critique of capital Attention is then turned to the class struggle For the first time the various Marxist theories of the USSR are systematically considered in relation to what they say about the working class and its struggle **Max Weber on Power and Social Stratification** Catherine Brennan,2020-07-09 First published in 1997 this book revolves around a textual analysis of the Weberian thesis that classes status groups and parties are phenomena of the distribution of power within a community An internal reconstruction of Weber s own ideas on what is called social stratification in contemporary sociological discourse is undertaken The reason for this reconstruction inheres in the fact that Weber s thought especially in the field of social stratification has been modified and misappropriated to such an extent that Weber himself is usually lost in the commentaries Moreover this reconstruction is crucial because the secondary literature does not contain a single account teasing out the analytic structure underlying Weber s statements on the nature of social inequality in various societies It is the principal intention of the book then to retrieve the essential form and significance of Weber s ideas on social stratification

Jan Adam,2016-07-27 In the book the author discusses the reasons for the collapse of the socialist system in Poland Czechoslovakia and Hungary He analyses the roles of economic and political factors and of the USSR He concludes that the lack of legitimacy of the communist regime the disintegration of the Communist Party and its ideology were at least as important reasons as increasing lag behind the West in technology and the declining standard of living *Political Power and Social Theory* Julian Go,2010-12-07 Helps in advancing our interdisciplinary critical understanding of the linkages

Prybyla,2019-11-07 In this volume the author provides an analysis of the centrally planned socialist state economies and their common percentage in the Stalinist Plan introduced in the Soviet Union in the late 1920s Prybyla first explores the neoclassical plan in two variants conservative and liberal the radical plan Maoplan and the Yugoslav experiment neomarket Yugoplan He then examines specific countries as their governments search for alternative solutions to the economic problems that plague them His dynamic presentation of the economic models clearly shows the transformation of the original Stalinist model reveals the obstacles to reform created by the structural problems that exist within these economies and demonstrates that inherent deficiencies within the systems must in time affect growth and balance **No Asylum** Thomas A. Smith,2016-07-27 No Asylum is a quantitative assessment of the incidence of state repression via the peculiar institution of forced psychiatric hospitalization of evidently healthy Soviet dissidents The book explains who was targeted and why as the State used psychiatry to attempt to deflect defuse discredit or destroy the multifaceted dissident movement Although new detentions virtually ceased as the Union fragmented it is too early to write an epitaph for psychiatric abuse political use of psychiatry could be revived in Russia *Soviet Labour And The Ethic Of Communism* David Lane,2019-07-11 This book seeks to discover the extent to which the claim the provision of regular paid labour and a permanent occupation for all who are able to work is true and whether there are any features of society in distinction from capitalism which lead to the provision of full employment Routledge Encyclopedia of International Political Economy R. Boundaries and Categories Feng Wang, 2008 A systematic and in depth analysis and explanation of China's rapid increase in inequality in the last two decades *Class Structure in Europe* Max Haller, 2019-07-25 Is there a typical European class structure Have power patterns left any imprint in the European societies of today Has the experience of socialist revolution in Eastern Europe created a distinctive social structural pattern in that part of the continent These are only a few of the questions taken up by the contributors to this collection of case studies and comparative research Bourdieu's Secret Admirer in the Caucasus Georgi M. Derluguian, 2005-07-15 Bourdieu's Secret Admirer in the Caucasus is a gripping account of the developmental dynamics involved in the collapse of Soviet socialism Fusing a narrative of human agency to his critical discussion of structural forces Georgi M Derluguian reconstructs from firsthand accounts the life story of Musa Shanib who from a small town in the Caucasus grew to be a prominent leader in the Chechen revolution In his examination of Shanib and his keen interest in the sociology of Pierre Bourdieu Derluguian discerns how and why this dissident intellectual became a nationalist warlord Exploring globalization democratization ethnic identity and international terrorism Derluguian contextualizes Shanib's personal trajectory from de Stalinization through the nationalist rebellions of the 1990s to the recent rise in Islamic militancy He masterfully reveals not only how external economic and political forces affect the former Soviet republics but how those forces are in turn shaped by the individuals institutions ethnicities and social networks that make up those societies Drawing on the work of Charles Tilly Immanuel Wallerstein and of course Bourdieu Derluguian's explanation of the recent ethnic wars and terrorist acts in Russia succeeds in illuminating the role of human agency in shaping history

Our Daily Bread Kate Transchel, Elena Osokina, 2015-03-04 Drawing on newly available archival materials including official documents reports and personal accounts this remarkable study presents a detailed picture of the living standards of various social groups in prewar Soviet Russia and the role of state controlled distribution of food and goods as a tool of the Stalinist dictatorship The study offers a new perspective not only on the period of collectivization industrialization and terror

but also on the regime's most rudimentary method of controlling human behavior and reshaping the social order. In her conclusion, the author analyzes the long-term impacts of the Stalinist dictatorship of distribution from bureaucratization to rural depopulation to the emergence of a distinctive type of black market economy. **Russia, the Roots of Confrontation** Robert Vincent Daniels, 1985. This book examines the historical contrasts between East and West and elucidates the Russian enigma. It springs from the thesis that Russia's national character and its international relations can be understood only in light of the traumas and triumphs, privation and privileges that the country weathered under the tsars and the Soviets.

Industrial Societies (Routledge Revivals) Richard Scase, 2015-06-03. This book, first published in 1989, addresses an issue that stood at the centre of sociological concern: the changing character of industrial societies. The authors examine the nature of the industrialization process in terms of its impact upon and development within both state socialist and capitalist societies. Is industrialism a constant phenomenon within both kinds of society, or are distinctive differences apparent? In the 1960s, it did seem that economic growth and technological change were producing similarities in social structure between the different socio-political systems; it now appears, however, that the crisis that have developed during the 1980s have illustrated their contrasts. Through the analysis of this trend in the West, in Eastern Europe, and in China, the authors clarify central issues for the student of sociology: The changing character of national states, organized labour, stratification systems, and class relationships; Processes of social integration, cohesion, and control; The extent to which dominant groups are able to sustain social and economic privileges in different socio-economic systems; The changing pattern of work and employment relationships; The nature of class, gender, and ethnicity as sources of socio-economic division.
