The Enemy's Country Words Contexture And Other Circumstances Of Language:

The Enemy's Country Geoffrey Hill, 1991 Poetry has sometimes been credited with a special place as a form of conduct in language as if it were a world of words of its own from which the poet masterfully dispenses a distinctly free speech These essays enquire whether such high praises even when sincere are apt to the real conditions of poets work to their share of drudgery their fears of misapprehension or their need to please to the entanglements of meaning in historical communities

Why Write Poetry? Jeannine Johnson, 2007 Poets have long been defending poetry in prose and essays by Sidney Shelley and others are a familiar and important part of the Anglo American literary tradition This book identifies and examines a related genre the verse defense of poetry which shares the same impulse that has led to the composition of prose essays namely the desire to protect poetry from its detractors and to promote its value as a vital human endeavor In the last century or so this impulse to engage questions of poetry's value in poems has become increasingly widespread and it has dominated the careers of at least five poets H D Wallace Stevens W H Auden Adrienne Rich and Geoffrey Hill Though these poets espouse very different aesthetic principles they like many of their contemporaries have repeatedly turned to apology in their verse At first glance this seems an odd gesture given that the readers and writers of poetry are those who least need convincing of poetry's worthiness But questioning poetry in verse is a form of lyric introspection that is productive and well suited for a modern poet characterized as one of indifference defense helps these authors make a claim for poetry's cultural relevance as well as for its private profit Jeannine Johnson is a Preceptor in Expository Writing at Harvard University

Translation and the Poet's Life Paul Davis, 2008-09-04 Paul Davis explores the personal and cultural significances of translating as a distinctive mode of imaginative conduct for the five principal poet translators of what was the golden age of the art in England John Denham Henry Vaughan Abraham Cowley John Dryden and Alexander Pope Contemporary British Poetry James Acheson, Romana Huk, 1996-09-12 Devoted to close readings of poets and their contexts from various postmodern perspectives this book offers a wide ranging look at the work of feminists and post feminist poets working class poets and poets of diverse cultural backgrounds as well as provocative re readings of such well established and influential figures as Donald Davie Ted Hughes Geoffrey Hill and Craig Raine Contributors include many respected theorists and critics such as Antony Easthope C L Innes John Matthias Edward Larrissy Linda Anderson Eric Homberger Alastair Niven R K Meiners and Cairns Craig in addition to new writers working from new theoretical perspectives Their approaches range from cultural theory to poststructuralism each essayist addresses a general audience while engaging in debates of interest to postgraduates and specialists in the fields of twentieth century poetry and cultural studies The book's strength lies in its diversity at every level Serious Poetry Peter McDonald, 2002-06-13 Do we want to read poetry or just like having a few poets to talk about The history of poetry in twentieth century Britain and Ireland is one which ends with the assimilation of successful poets into a media culture it is also however another history one of form and authority in which certain poets

found modes and pitches of resistance to the seeming inevitabilities of their times In this history it is the authority of poetry and not the media processed poet which is at stake in the integrity of poetic form Serious Poetry Form and Authority from Yeats to Hill offers a controversial reading of twentieth century British and Irish poetry centred on six figures all of whom are critics as well as poets W B Yeats T S Eliot W H Auden Louis MacNeice Seamus Heaney and Geoffrey Hill Yeats s centrality to twentieth century poetry and the problem many poets and critics had or still have with that centrality is a major focus of the book Serious Poetry argues that it is in the strengths possibilities perplexities and certainties of the poetic form that poetry s authority in a distrustful cultural climate remains most seriously alive **Johnson, Writing, and Memory** Greg

Clingham,2002-09-05 This study demonstrates the importance of memory in Samuel Johnson s work Greg Clingham argues that this concept of memory is derived from the process of historical and creative writing it is embodied in works of literature and other cultural forms He examines Johnson s writing including his biographical writing as it intersects with eighteenth century thought on literature history fiction and law and its subsequent compatibility with and resistance to modern theory

Digressive Voices in Early Modern English Literature Anne Cotterill,2004-02-19 Digressive Voices in Early Modern English Literature looks afresh at major nondramatic texts by Donne Marvell Browne Milton and Dryden whose digressive speakers are haunted by personal and public uncertainty To digress in seventeenth century England carried a range of meaning associated with deviation or departure from a course subject or standard This book demonstrates that early modern writers trained in verbal contest developed richly labyrinthine voices that captured the ambiguities of political occasion and aristocratic patronage while anatomizing enemies and mourning personal loss Anne Cotterill turns current sensitivity toward the silenced voice to argue that rhetorical amplitude might suggest anxieties about speech and attack for men forced to be competitive yet circumspect as they made their voices heard Moral Authority in Seamus Heaney and Geoffrey Hill Bridget

Vincent,2022 Studies the work of Seamus Heaney and Geoffrey Hill to present new perspectives on the way literature communicates moral knowledge *The Variorum Edition of the Poetry of John Donne, Volume 4.2* John Donne,2021-11-02 This volume the ninth in the series of The Variorum Edition of the Poetry of John Donne presents newly edited critical texts of 25 love lyrics Based on an exhaustive study of the manuscripts and printed editions in which these poems have appeared Volume 4 2 details the genealogical history of each poem accompanied by a thorough prose discussion as well as a General Textual Introduction of the Songs and Sonets collectively The volume also presents a comprehensive digest of the commentary on these Songs and Sonets from Donne s time through 1999 Arranged chronologically within sections the material for each poem is organized under various headings that complement the volume s companions Volume 4 1 and Volume 4 3 *Walton's Lives* Jessica Martin,2001 This book argues that Walton s practice in his Lives was crucial in shaping modern expectations of biography including issues such as how it should be organized how it should treat evidence how seriously it should regard narrative coherence and most particularly in the modern expectation of an intimate

relationship between author reader and subject Martin considers Walton s biographical ethics in relation to the tributary genres influencing him as they emerged from post Reformation commendatory practice after 1546 most particularly classical funeral oratory and the emergent Protestant funeral sermon the Plutarchan parallel the didactic Character martyrological narrative and finally Walton s direct model the exemplary biographical commemoration of the conformist minister The Triumph of Love Geoffrey Hill,2000 In Geoffrey Hill s words The poet s job is to define and yet again define If the poet doesn t make certain horrors appear horrible who will This astonishing book is a protest against evil and a tribute to those who have had the courage to resist it **Narrative and Voice in Postwar Poetry** Neil Roberts,2014-05-12 Poetry in English since the Second World War has produced a number of highly original narrative works as diverse as Derek Walcott s Omeros Ted Hughes Gaudete and Anne Stevenson s Correspondences At the same time poetry in general has been permeated by narrative features particularly those linguistic characteristics that Mikhail Bakhtin considered peculiar to the novel and which he termed dialogic This book examines the narrative and dialogic elements in the work of a range of poets from Britain America Ireland Australia and the Caribbean including poetry from the immediate postwar years to the contemporary and novel like narratives to personal lyrics Its unifying theme is the way in which these poets with such contrasting styles and from such varied backgrounds respond to and creatively adapt the language worlds and hence the social worlds in which they live The volume includes a detailed bibliography to assist students in further study and will be a valuable resource to undergraduate and postgraduate students of contemporary poetry **The Metaphysical Poets** David Reid,2014-06-11 The Metaphysical Poets provides an introduction to the work of six strikingly various and original poets Donne Herbert Crashaw Vaughan Marvell and Traherne By closely examining how the poems work the book aims to help readers at all stages of proficiency and knowledge to enjoy and critically appreciate the ways in which fantastic and elaborate styles may express private intensities The emphasis is on the differences covered by the term Metaphysical and on the rich and strange diversity of the poets inner lives The book examines the expressive forms of interiority the characteristic inward turn of Metaphysical wit and compares the wit of its six poets with the non introspective wit of poets such as Cowley the Cavaliers and the Augustans The discussion of each poet is preceded by a Life in which the biographical facts personal cultural and political are treated with a view to illuminating the concerns of the poems Robert Browning Stefan Hawlin,2012-09-10 Accessibly written throughout this guidebook covers biographical details information on the historical and social contexts of Browning s work an overview of the full range of his work and a survey of the major critical debates surrounding him and his work

Achieving Autobiographical Form Nicholas Meihuizen,2016-01-27 In Achieving Autobiographical Form Nicholas Meihuizen argues that significant autobiographies achieve significant forms peculiar to themselves alone Form he argues is not accidental or merely functional The author arrives at a form through a careful negotiation between the self s immersion in its world and its ability to distance itself from this world The quality of the resultant self scrutiny enables the author to

transform everyday reflex into the act of attention that results in formal achievement a uniquely crafted structure Meihuizen s book helps demonstrate how each piece of autobiographical writing under consideration in it works by Yeats Conrad Martin Amis Frank Kermode Andrew Motion Roy Campbell Richard Murphy and J M Coetzee discovers a unique form The Just and the Lively Michael Werth Gelber,2002 Recognition is often considered a means to de escalate conflicts and promote peaceful social interactions This volume explores the forms that social recognition and its withholding may take in asymmetric armed conflicts examining the risks and opportunities that arise when local state and transnational actors recognise misrecognise or deny recognition of armed non state actors By studying key asymmetric conflicts through the prism of recognition it offers an innovative perspective on the interactions between armed non state actors and state actors In what contexts does granting recognition to armed non state actors foster conflict transformation What happens when governments withhold recognition or label armed non state actors in ways they perceive as misrecognition The authors examine the ambivalence of recognition processes in violent conflicts and their sometimes unintended consequences The volume shows that while non recognition prevents conflict transformation the recognition of armed non state actors may produce counterproductive precedents and new modes of exclusion in intra state and transnational politics **New & Collected Poems, 1952-1992** Geoffrey Hill,2000 Geoffrey Hill s poems are like those of no other living poet Grand in their music powerful in their impact they are public poetry poetry dealing with religion with the state of England poetry as a lamentation for the human condition As A Ezra Pound and Referentiality Hélène Aji,2003 **Canaan** Geoffrey Hill,1998 Here is public poetry of uncommon moral urgency it bears witness to the sufferings of the innocent at the hands of history and to the martyrdom of those who have dared look history in the eye Rich quarrelsome handsome and brutish Hill s poetry is the major achievement of late twentieth century verse says The New Criterion Canaan is one of the few serious books we will have to mark the millennium *Metamodernism and Contemporary British Poetry* Antony Rowland,2021-10-07 This book discusses contemporary British poetry in the context of metamodernism The author argues that the concept of metamodernist poetry helps to recalibrate the opposition between mainstream and innovative poetry and he investigates whether a new generation of British poets can be accurately defined as metamodernist Antony Rowland analyses the ways in which contemporary British poets such as Geoffrey Hill J H Prynne Geraldine Monk and Sandeep Parmar have responded to the work of modernist writers as diverse as T S Eliot H D and Antonin Artaud and what Theodor Adorno describes as the overall enigma of modern art
