Prehistoric Humans in Film and Television Michael Klossner, 2015-01-09 From the early days of the movies cavemen have been a popular subject for filmmakers not surprisingly since the birth of cinema occurred only a few decades after the earliest scientific studies of prehistoric man Filmmakers however were not constrained by the emerging science instead they most often took a comedic look at prehistory a trend that continued throughout the 20th century Prehistoric humans also populated adventure fantasy films with the original One Million B.C. 1940 leading the charge Documentaries were also made but it was not until the 1970s that accurate film accounts of prehistoric humans finally emerged This exhaustive work provides detailed accounts of 581 film and television productions that feature depictions of human prehistory Included are dramas and comedies set in human prehistory documentaries and films and television shows in which prehistoric people somehow exist in historical periods from the advent of civilization up to the present or in extraterrestrial settings Each entry includes full filmographic data including year of release running time production personnel cast information and format A description of each film provides background on the prehistoric elements Contemporary critical commentary is included for many of the works

Ancient Elder Gods and Irish Myths A.J. Carmichael, 2024-05-13 Celtic mythology is a rich and intricate diverse world a captivating realm where deities and humans interact amidst mystical environments and celestial conflicts Rooted predominantly in the ancient cultures of Ireland and

Wales this mythology serves as a compendium of stories a cultural and spiritual mirror reflecting the Celtic people's values traditions and laws By delving into the extensive range of Celtic myths particularly the mythological Ulster and Fenian cycles in Ireland and the Mabinogion in Wales we can uncover the profound influence these myths have had on European literary and cultural development The primary method of transmitting these stories was oral posing a significant challenge to studying Celtic myths The religious perspectives of the scribes particularly Christian monks have left a significant imprint on these texts but they remain crucial for our understanding Irish literature draws from significant sources such as The Book of Invasions and The Book of Leinster while Welsh literature relies on an important source known as Mabinogion Roman historians provide additional external narratives that contribute to understanding the Celts in a wider context of ancient European history Unravelling these sources requires a nuanced approach to differentiate the authentic pagan elements from the Christian additions The Celtic pantheon features diverse deities who govern various aspects of existence and the natural realm In Irish mythology the Dagda embodies paternal dominion and jurisdiction over the cycles of life and death whereas Morrigan signifies the supremacy and inevitability of warfare According to Welsh mythology Arawn is the sovereign of the Otherworld and Bran the Blessed is a colossal king with deep ties to the land and its well being The Celts gods frequently engage with humans often directly intervening in their destinies highlighting the Celts perception of the cosmos as a profoundly interconnected domain The Mythological Cycle in Ireland narrates the tales of ancient deities and their conflicts including the Tuatha D Danann celestial beings who eventually assimilate into Irish civilisation as the forefathers of the contemporary Irish people after being conquered by the Milesians The purpose of this cycle is twofold to document Ireland's legendary history and to assert a divine entitlement to the land and its governance
