## **The Economics Of Development:**

The Economics of Development Everett E. Hagen, 1969      The Economics of Development and Distribution William Loehr, John P. Powelson, 1981      **Development Economics in the Twenty-First Century** Claudia Sunna, Davide Gualerzi, 2015-12-14 Development Economics has been identified as a homogeneous body of theory since the 1950s concerned both with the study of development issues and with the shaping of more effective policies for less advanced economies Development Economics in the Twenty First Century brings together an international contributor team in order to explore the origins and evolution of development economics This book highlights the different elements of high development theory through a precise reconstruction of the different theoretical approaches that developed between the 1950s and the 1970s These include the theory of balanced and unbalanced growth theory the debate on international trade the concept of dualism dependency theory structuralism and the analysis of poverty and institutions The chapters highlight the relevance and usefulness of these analyses for the contemporary theoretical debate on development issues Comparative perspectives are explored and analysed including those of Keynes Hirschman Krugman and Stiglitz The chapters situate development economics within current debates among economists and historians of economic thought providing a platform for future research This book is suitable for researchers and students with an interest in Development Economics the History of Economic development and the Economics of Developing Countries      Economics of Development A. P. Thirlwall, 2011 For nearly forty years Thirlwall's texts have offered students a clear comprehensive and rigorous overview of the economic aspects of growth and development Now this ninth edition of Thirlwall's popular textbook represents the most thorough revision to date of the author's classic textbook Growth and Development The new edition will continue to educate countless students interested in the topic New to this edition All material including data has been brought up to date New two color text design makes it more accessible New cases have been added throughout the text including cases discussing the World Bank Commission on Growth and Development and the technological divide New sections on climate change and trade liberalization Pedagogical tools such as case examples and discussion questions which support students in understanding and reflecting on theory      **The Economics of Development** Everett Einar Hagen, 1986 Economic development is not a static field where accepted doctrines can be taught from year to year Recent research has thrown up a number of facts which open up avenues for new deductions based on scientifically observed facts This fourth edition is in essence a new book Part I presents the basic introductory material and discusses growth national income and poverty in general terms Part II deals comprehensively with growth and reform in agriculture and with the industrialization process Part III discusses the theory and the operation in Least Developed Countries of inputs into growth Part IV deals with distribution of income and Part V discusses international aspects of economic development ISBN 0 256 00217 3 29 95      *Economics of Development* Malcolm Gillis, 1996-01-01      *Development Economics* H.L. Ahuja, A result of more than four decades of teaching experience this book

deals with the problems of economic growth development and eradication of poverty and unemployment The book also includes an analytical study of important issues of environment and sustainable development The book not only explains the models and theories of economic growth but also critically evaluates their relevance to developing countries A major highlight of discussion in the context is the exploration of the widely accepted Amartya Sen s Capability Approach to development

**Biography of a Subject** Gerald M. Meier,2004-10-14 The study of economic development is one of the newest most exciting and most challenging branches of the broader discipline of economics and political economy Although one could claim that Adam Smith was the first development economist the systematic study of the problems and processes of economic development in Africa Asia and Latin America has emerged only over the past five decades This biography of the subject of economic development will focus on the essential ideas in the evolution of development thought and policy over the subject s half century of life In concise form and avoiding undue technicality it highlights the influence of development theory on policymaking and on the mixed record of successes and failures in promoting development efforts The interpretation of theory policy and the lessons of experience are covered in three periods early development economics of the 1950s 60s orthodox reaction of the 1970s 80s and the new development economics of the 1980s 90s Gerald Meier one of the world s most prominent leading thinkers in the economics of development interprets the past treatment of development problems with the present and future in mind He re interprets the past two generations of development economists in a contemporary voice And in a forward looking fashion the book s perspectives should make the next generation of development problems and development economists more intelligible The reader is invited to consider whether development economists really know how to put matters right

**The economics of development** ,1968 *Economics of Development and Growth* Randy Hernandez,2014-05

Economics and Development Studies Michael Tribe,Frederick Nixon,Andy Sumner,2010-09-13 Development studies textbooks and courses have sometimes tended to avoid significant economic content However without an understanding of the economic aspects of international development many of the more complex issues cannot be fully comprehended Economics and Development Studies makes the economic dimension of discourse around controversial issues in international development accessible to second and third year undergraduate students working towards degrees in development studies Following an introductory chapter outlining the connections between development economics and development studies this book consists of eight substantive chapters dealing with the nature of development economics economic growth and structural change economic growth and developing countries economic growth and economic development since 1960 the global economy and the Third World developing countries and international trade economics and development policy and poverty equality and development economists with a tenth concluding chapter This book synthesizes existing development economics literature in order to identify the salient issues and controversies and make them accessible and understandable The concern is to distinguish differences within the economics profession and between economists and

non economists so that the reader can make informed judgments about the sources of these differences and about their impact on policy analysis and policy advice The book features explanatory text boxes tables and diagrams suggestions for further reading and a listing of the economic concepts used in the chapters

*Contemporary Issues in Development Economics* B. N. Ghosh,2001 This brand new collection of articles looks at both traditional concerns in economic development such as aid debt and the role of the IMF but also at gender brain drain military expenditure and postcolonial theory

**Economics of Development and Planning** Jhingan M L,1992

**Economics and Development** Barbara Ingham,1995 Economics and Development provides a clear and comprehensive introduction to development economics The text presents an account anchored in the complex reality of the global economy and the economic political and cultural diversity of developing countries

**Development Economics** Julie Schaffner,2013-10-07 Development Economics Theory Empirical Research and Policy Analysis by Julie Schaffner teaches students to think about development in a way that is disciplined by economic theory informed by cutting edge empirical research and connected in a practical way to contemporary development efforts It lays out a framework for the study of developing economies that is built on microeconomic foundations and that highlights the importance in development studies of transaction and transportation costs risk information problems institutional rules and norms and insights from behavioral economics It then presents a systematic approach to policy analysis and applies the approach to policies from around the world in the areas of targeted transfers workfare agricultural markets infrastructure education agricultural technology microfinance and health

*Essentials of Development Economics* J. Edward Taylor,Travis J. Lybbert,2015-03-19 Written to provide students with the critical tools used in today s development economics research and practice Essentials of Development Economics represents an alternative approach to traditional textbooks on the subject Compact and less expensive than other textbooks for undergraduate development economics courses Essentials of Development Economics offers a broad overview of key topics and methods in the field Its fourteen easy to read chapters introduce cutting edge research and present best practices and state of the art methods Each chapter concludes with an embedded QR code that connects readers to ancillary audiovisual materials and supplemental readings on a website curated by the authors By mastering the material in this book students will have the conceptual grounding needed to move on to higher level development economics courses

**The Economics Of Development and Planning** M. L. Jhingan,2003

**Economic Growth and Development** Hendrik Van den Berg,2012 This textbook covers the full range of topics and issues normally included in a course on economic growth and development Both mainstream economic perspectives as well as the multi paradigmatic inter disciplinary and dynamic evolutionary perspectives from heterodox economics are detailed Economic development is viewed in terms of the long run well being of humanity social stability environmental sustainability and just distribution of economic gains not simply as the growth of GDP Furthermore this textbook explicitly recognizes the complexity of economic development by linking economic activity to our

broader social and natural environments The textbook's unique feature is its focus on the natural environment Both the historical effects of economic development on the environment and the environmental constraints on future economic development are thoroughly discussed in two chapters on environmental issues and policies In fact because economic development is defined in terms of economic social and environmental sustainability the natural environment is included in discussions throughout the book The textbook is interdisciplinary knowledge from fields such as sociology psychology political science economic history and ecology is called on to enhance the economic analysis A thorough historical account of the development of the principal paradigms of economic development is also included and the important issues of institutional development and cultural change merit their own chapters Two chapters on technological change holistically focus on production technologies as well as the dynamic performance of entire economic social and ecological systems Also the important relationship between economic development and globalization is presented in three chapters on international trade international finance and investment and immigration from both orthodox and heterodox perspectives

*Reality and Rhetoric* Péter Tamás Bauer, 1984 Research papers evaluation of development economics and development policy makes a literature survey and an assessment of economic theory and practice discusses state intervention in development planning and the market led economic development studies economic implications and efficiency of economic relations multilateral development aid examines the legacy of colonialism industrialization experience of Nigeria and migration policy in West Africa
