Industrial Relations in Japan Norma Chalmers,2006-04-14 The conventional picture of industry and industrial

relations in Japan is of a number of very large firms providing extremely attractive working conditions for their happy and contented workforce Norma Chalmers shows that there is in fact another very different side to the picture which occurs in the peripheral sector Here conditions are often poor wages very low and continuity of employment virtually non existent There are many small firms where the effectiveness of worker organisation and bargaining declines as the firm s size and proximity to the industrial centre decrease Moreover as Chalmers shows the peripheral sector is very large and the conventional picture of the model workforce should probably be confined to a few flagship companies The book argues that the model nature of the large firms may stem in part from the fact that they are able to off load problems onto smaller firms who produce the components necessary for the large firm sector at disadvantageous subcontract terms **The New**

Unionism in the New Society Leo Troy,1994-05-31 Leo Troy describes and analyzes the changes in the economy and labor markets and the subsequent and continuing changes in unions He contrasts new and old unionism detailing the characteristics of the new union movement and patterns of organization He sets this discussion in the context of the new industrial relations system and compares and contrasts the old and new philosophies of unionism The book concludes with an examination of the philosophy of the new unionism and its consequences
