**Sufism as Lorna Goodison's Alternative Poetic Path to Hope and Healing** Brenda Domínguez-Rosado, 2018-10-15 Jamaican Poet Laureate Lorna Goodison searches for answers for herself and other Caribbean based descendants of enslaved Africans by examining and presenting different spiritualities in her poetry in the hope of providing alternatives to the psyche in need of healing after the traumatic events of the infamous transatlantic Middle Passage The inclusion of Sufism in her poetry seems to have a dual purpose in that it offers a new creative angle and a sincere belief in its power to provide relief from personal anguish The fact that Sufism is similar to Jamaican based religions works in its favor Can Jamaicans who are Goodison's primary subject really relate to its message She does not underestimate her audience's capacity for change or their willingness to accept the ideas of Sufism Her role as facilitator is not a secret she is openly promoting her ideas and her belief that healing is possible This book is divided into three chapters In Chapter One a brief history of slavery in the Caribbean region with a focus on Jamaica is presented The second chapter explicitly focuses on Lorna Goodison and her use of the written word to reveal her feelings about her ancestors and her own traumatic past It also defines Sufism includes some examples of Sufi poems and shows what aspects of Sufism resonate with Jamaican Revivalism and Rastafarianism The final chapter first makes reference to how Sufi elements have been used by other writers such as Alfred Lord Tennyson Walt Whitman Thomas Merton and Doris Lessing and then illustrates how contrary to these others Goodison is the only one to apply Sufi ideals to a Caribbean context thus falling into her own creative category that of a new Caribbean literary canon

Global Sufism Francesco Piraino, Mark Sedgwick, 2019-11-01 Sufism is a growing and global phenomenon far from the declining relic it was once thought to be This book brings together the work of fourteen leading experts to explore systematically the key themes of Sufism's new global presence from Yemen to Senegal via Chicago and Sweden The contributors look at the global spread and stance of such major actors as the Ba Alawiyya the Afropolitan Tijaniyya and the G len Movement They map global Sufi culture from Rumi to rap and ask how global Sufism accommodates different and contradictory gender practices They examine the contested and shifting relationship between the Islamic and the universal is Sufism the timeless and universal essence of all religions the key to tolerance and co existence between Muslims and non Muslims Or is it the purely Islamic heart of traditional and authentic practice and belief Finally the book turns to politics States and political actors in the West and in the Muslim world are using the mantle and language of Sufism to promote their objectives while Sufis are building alliances with them against common enemies This raises the difficult question of whether Sufis are defending Islam against extremism supporting despotism against democracy or perhaps doing both

Visualizing Sufism , 2023-01-16 Visualizing Sufism approaches the question of the presence of graphic materials in Islamic mystical literature from a broad and comprehensive perspective To this goal an international group of specialists in the field worked on largely manuscript and unpublished sources with the aim of analyzing the use of visual elements in the works of some key figures of Islamic mysticism Ibn al Arab A mad al B n Sa d al

D n am yeh al Sha r n and in intellectual networks ur fiyya and Bektashiyya Sh r n Maghrib and his connections The result is the most extensive collection of specimens of Sufi graphic materials ever brought together and discussed in a single volume By virtue of the object of study investigated in the chapters of this book in addition to the history of Sufism questions are raised that touch upon numerous areas in the field of Islamic Studies including intellectual history codicology and art history Contributors Elizabeth R Alexandrin Noah Gardiner Ali Karjoo Ravary Evyn Kropf Giovanni Maria Martini Orkhan Mir Kasimov and Sophie Tyser Science of the Soul in Ibn Sīnā's Pointers and Reminders Michael A. Rapoport,2023-02-13 In Science of the Soul in Ibn S n s Pointers and Reminders Michael A Rapoport provides a philological and interpretive guide for critically reading and interpreting Ibn S n s Avicenna d 1037 most challenging and influential text Rapoport argues that chapters VII X of the Pointers present scientific explanations for phenomena related to the human soul from intellection to divination magic and marvels within the framework of Ibn S n s Metaphysics of the Rational Soul This book dispels widespread notions that the Pointers represents Ibn S n s mystical or Sufi philosophy and therefore stands apart from the rest of his corpus *The Sufi Path of Love* William C. Chittick,1984-06-30 This is the most accessible work in English on the greatest mystical poet of Islam providing a survey of the basic Sufi and Islamic doctrines concerning God and the world the role of man in the cosmos the need for religion man s ultimate becoming the states and stations of the mystical ascent to God and the means whereby literature employs symbols to express unseen realities William Chittick translates into English for the first time certain aspects of Rumi s work He selects and rearranges Rumi s poetry and prose in order to leave aside unnecessary complications characteristic of other English translations and to present Rumi s ideas in an orderly fashion yet in his own words Thorough nontechnical introductions to each chapter and selections that gradually present a greater variety of terms and images make this work easily accessible to those interested in the spirituality of any tradition Sufi Ritual Ian Richard Netton,2014-03-18 This study reveals the world of Sufi ritual with particular reference to two major Sufi orders It examines the ritual and practices of these orders and surveys their organisation and hierarchy initiation ceremonies and aspects of their liturgy such as dhikr litany and sama mystical concert Comparisons are made with the five pillars of Islam arkan and the Sufi rituals together with the arkan are examined from the perspective of theology phenomenology anthropology and semiotics The work concludes with an examination of the Sufi in the context of alienation This is a major work which highlights the importance of Sufi ritual and locates it within the broader domain of the Islamic world

*PHYSICS AND SUFI COSMOLOGY* Sardar Irshad Shaheen,2023-11-27 The perennial enigma the human mind has been encountering is the meaning of life and its place in the universe On this subject science and spirituality remained in discord with each other particularly for the last couple of centuries The Theory of Relativity followed by quantum mechanics changed the worldview of traditional mindset altogether The postulates of quantum physics paved the way for growing interest in philosophical spirituality Theoretical physicist Fritjof Capra s book *The Tao of Physics* explored parallels between Eastern

mysticism and modern science Toshihiko Izutsu in his book Sufism and Taoism found similarities between Taoism and Muslim mysticism or Sufism The book under review attempts to discover compatibility between Sufism and modern cosmology It is basically a research book with more than seven hundred 700 citations of authorities of various disciplines drawing from a vast array of diverse fields such as physics philosophy biology psychology and spirituality The book probes into the nature and value of existence which ultimately leads to the direction of interconnection of the universe and human psyche unity and integration of all things and ultimately the unity of the whole universe and the whole person These views are not placed on the shaky foundations of faith but they are based on philosophical logic and scientific facts regarding importance of man as an observer in the universe despite appearing insignificant on a point like planet in the stunning vastness of empty space and magnificent integration and harmony of the human psyche with the cosmos These aspects of the book are unique in the sense that they amazingly reveal commonalities between physical and spiritual concepts and explain the phenomenon of existence as a compact whole in a coherent and logical sequence with a glimpse of futuristic existence This book may be of particular interest to the academia research scholars and students who may find the contents of the book unique and even startling The author of the book is a research scholar from Pakistan who has been dedicated to exploring the reality of the physical world and human life He has accentuated quite subtle and intricate issues in his book His contribution to the relevant subject appears to have originality and at times remarkable distinction The author believes that the contents of this book may not be found in any other single book published so far
