 Lewis, 2017-04-15 A study of the transformative economic and social processes that changed a backcountry Southern outpost
 into a vital crossroads The Carolina Backcountry Venture is a historical geographical and archaeological investigation of the
 development of Camden South Carolina and the Wateree River Valley during the second half of the eighteenth century The
 result of extensive field and archival work by author Kenneth E Lewis this publication examines the economic and social
 processes responsible for change and documents the importance of those individuals who played significant roles in
 determining the success of colonization and the form it took Established to serve the frontier settlements the store at Pine
 Tree Hill soon became an important crossroads in the economy of South Carolina s central backcountry and a focus of trade
 that linked colonists with one another and the region s native inhabitants Renamed Camden in 1768 the town grew as the
 backcountry became enmeshed in the larger commercial economy As pioneer merchants took advantage of improvements in
 agriculture and transportation and responded to larger global events such as the American Revolution Camden evolved with
 the introduction of short staple cotton which came to dominate its economy as slavery did its society Camden s development
 as a small inland city made it an icon for progress and entrepreneurship Camden was the focus of expansion in the Wateree
 Valley and its early residents were instrumental in creating the backcountry economy In the absence of effective larger
 economic and political institutions Joseph Kershaw and his associates created a regional economy by forging networks that
 linked the immigrant population and incorporated the native Catawba people Their efforts formed the structure of a colonial
 society and economy in the interior and facilitated the backcountry s incorporation into the commercial Atlantic world This
 transition laid the groundwork for the antebellum plantation economy Lewis references an array of primary and secondary
 sources as well as archaeological evidence from four decades of research in Camden and surrounding locations The Carolina
 Backcountry Venture examines the broad processes involved in settling the area and explores the relationship between the
 region s historical development and the landscape it created **David Kelly, 1763-1838 and William Warren Kelly,
