The writer scientist philosopher and radical democrat Georg Buchner 1813 1837 occupies a unique place in the cultural legacy of the German speaking countries Born into an epoch of inevitable yet arrested historical transition Buchner produced a small but exceptionally rich body of work This collection of essays in English and in German considers the full spectrum of his writings the political pamphlet *Der Hessische Landbote* the dramas *Danton's Tod* *Leonce und Lena* *Woyzeck* and the fragmentary narrative *Lenz* as well as the letters the philosophical lectures on Descartes and Spinoza and the scientific texts The essays examine connections between these works study texts in detail debate ways of editing them and trace their reception in contemporary literature and film The novel readings presented here not only celebrate Buchner on the eve of his bicentenary birthday but also insert this untimely figure into discussions of the revolution restoration dynamic and realism in poetics and politics *Der moderne Staat* Arthur Benz, 2011-12-02 Verliert der Staat an Bedeutung Sind die Globalisierung der Konomie die Internationalisierung bzw Europäisierung der Politik die Belastung wohlfahrtsstaatlicher Verteilungspolitik die Grenzen hoheitlich hierarchischer Steuerung in der funktional differenzierten Gesellschaft sowie die Diskrepanz zwischen dem Legitimationsbedarf und den Leistungen des demokratischen Staates dafür verantwortlich Hat der Staat an innerer Souveränität gegenüber der eigenen Wirtschaft wie auch gegenüber der Souveränität durch Einbindung in internationale Organisationen verloren Kann man gar von einem Niedergang des Staates sprechen Das Buch stellt aus dem Blickwinkel des akteurszentrierten Institutionalismus ein analytisches Instrumentarium für Politikwissenschaftler bereit die sich mit dem Staat befassen wollen Eine solche Herangehensweise hat den Vorteil dass sie der empirischen Forschung nur wenige theoretische Prämissen voranstellt Aber auch andere Staatstheorien werden berücksichtigt Das Buch stellt aus dem Blickwinkel des akteurszentrierten Institutionalismus ein analytisches Instrumentarium für Politikwissenschaftler bereit die sich mit dem Staat befassen wollen Eine solche Herangehensweise hat den Vorteil dass sie der empirischen Forschung nur wenige theoretische Prämissen voranstellt Aber auch andere Staatstheorien werden berücksichtigt Einer Etymologie und Geschichte des Staates schließt sich die Definition seiner Akteursqualitäten an In diesem Teil werden auch Begriffe wie Nation Gesellschaft oder Verfassung zum Staat in Bezug gesetzt In einem dritten Schritt stellt der Autor die Akteure im Staat vor um im Schlusskapitel den auch vom Handeln sub und suprastaatlicher Akteure bedingten Wandel der Staatlichkeit zu beschreiben Somit stellt der Band alle für die politikwissenschaftliche Analyse des Staates relevanten Kategorien und

Österreichisches Staatswörterbuch Ernst Mischler,1905 **A List of Books on the History of Industry and Industrial Arts, January, 1915** John Crerar Library,Aksel Gustav Salomon Josephson,1915 *The John Crerar Library* John Crerar library,1915 **German Catholics and Hitler's Wars** Gordon C. Zahn,1988-09-30 Prior to the outbreak of World War II nearly forty thousand German Catholics were involved in the German Catholic Peace League a movement that caused many people in various countries to seriously reconsider the dimension of pacifism in their faith During the course of the War however many of these same German Catholics raised no serious objection to serving in Germany s armies or swearing allegiance to Adolph Hitler First published in 1962 German Catholics and Hitler s Wars created a furor ultimately causing a serious reevaluation of church state relationships and in particular of the morality of war This work began as an attempt to understand the demise of the German Catholic Peace League But because of various factors including the destruction of vital records Gordon C Zahn began to consider the behavior of German Catholics in general and the evidence of their almost total conformity to the war demands of the Nazi regime Using sociological analysis he argues convincingly for the existence of a super effective system of social controls and of a selection between the competing values of Catholicism and nationalism Although Zahn never speculates conclusions are inescapable chief among them that the traditional Catholic doctrine of the just war has ceased to be operative for Catholics in the modern world **Archiv Für Eisenbahnwesen** ,1928 **Contingency in a Sacred Law** Baber Johansen,2023-09-29 This book focuses on the Hanafite school of fiqh which originated in the eight century and is geographically the most widespread and numerically the most important representative of Muslim normativeness The fiqh consists of liturgical ethical and legal norms derived from the Islamic revelation The introduction outlines the main boundaries between fiqh and theology and follows the modern debate on the comparison between the fiqh and the secularized law of the modern Occident The core of the book is dedicated to the way in which the fiqh in the period between the 10th and the 12th centuries adapted to changing circumstances of urban and agricultural life chapters I and II to the way in which it marked off legal from ethical norms chapter III religious from legal status chapters IV to VI and legal propositions from religious judgment chapter VII The forms in which change of norms was made acceptable is discussed in chapter VIII The last chapter deals with an attempt of Shi i scholars in the Islamic Republic of Iran to answer new problems in old forms **From Empire to Union** Jo Eric Khushal Murkens,2013-01-17 Germany has long been at the

centre of European debates surrounding the modern role of national constitutional law and its relationship with EU law In 2009 the German constitutional court voted to uphold the constitutionality of the Lisbon Treaty but its critical restrictive decision sent shockwaves through the European legal community who saw potential threats to further European integration What explains Germany's uneasy relationship with the project of European legal integration How have the concepts of sovereignty state people and democracy come to dominate the Constitutional Court's thinking despite not being defined in the Constitution itself Despite its importance to the whole enterprise of the European Union German constitutional thought has been poorly understood in the wider European literature This book presents a historical account of German conceptions of constitutional law providing the understanding necessary to see what is at stake in contemporary debates surrounding the constitution and the European Union Examining the modern development of German constitutional thought this volume traces the key public law concepts of state constitution sovereignty and democracy from their modern emergence in the 19th century through to the present day It analyses the constitutional relationship between Germany and the EU from a sociological and historical perspective looking at how German constitutional law has conflicted and compromised with EU law and the difficulties this has raised Filling a significant gap in comparative constitutional law literature this book provides an account of the major schools of German constitutional thought and their development Against this backdrop it offers a fascinating insight into Germany's relationship with the European Union
