Better Principals, Better Schools Delia Stafford, Valerie Hill-Jackson, 2015-12-01 A school is only as good as its principal This quip forms the thesis of *Better Principals* as it provides a bird's eye view on the enactment of Haberman's eleven core functions of a star principal *Better Principals* is imperative for two main reasons First the achievement gap between 20 million children in poverty and their mainstream counterparts is continuing to become even wider Many students are constantly subjected to inequality of educational opportunity which limits their future opportunities Second Haberman is one of the most prolific producers of administrators of the twentieth century and into the twenty first century He reminds us that quality school systems with quality leaders benefit our society Haberman explained that there is often selection blindness when it comes to identifying school leaders and this deficiency has many negative consequences for education in general and learners in particular Haberman has generated theories training programs and tools to engender substantive changes needed to produce better schools Each chapter in this volume contains reflection questions for discussion to remind us all why selecting quality principals must be paramount when hiring school leaders These illustrative book chapters emphasize the execution of Haberman's star principal ideology Praise for *Better Principals* *Better Schools* Not every educator is suited to leading or teaching in the most challenging urban schools Yet nowhere else is excellence in leading and teaching more critical to the success of students This volume based on the pioneering work of Martin Haberman offers a practical response to those who say the task of instructional leadership is beyond the capability of principals The authors offer concrete examples of how successful urban school leaders find the time and capacity to inspire and manage learning under difficult conditions Just as important the authors ground their examples in a set of clear justifiable principles that can be used by others to guide their own practice Dr Philip Hallinger Professor Chulalongkorn University Thailand If great teaching and more of it are the key

ingredients for any successful school then great leadership is the critical path Better Principals Better Schools turns this theory into model lessons for all current and aspiring school leaders Mike Feinberg Co founder KIPP Schools **Renewal** Harold Kwalwasser,2012-03-16 Harold Kwalwasser has put together a call to action for education reform that makes a clear case for what has to be done in order to educate all children to their full potential He visited forty high performing and transforming school districts charters parochial and private schools to understand why they have succeeded where others have failed The analysis in *Renewal Remaking America's Schools for the Twenty First Century* brings together all of the necessary changes in one dynamic strategy Many schools even though facing seemingly impossible odds have succeeded brilliantly But their histories also reflect that there are neither silver bullets or demons The heart of successful reform is systemic change which requires the patience understanding and commitment of every adult who has a role in the process from parents and taxpayers to the school board members superintendents and teachers and on to state legislators and members of Congress *Renewal* offers a clear picture of how to move away from the mass production style of education that most schools offered throughout the twentieth century to a new more innovative and flexible model that can meet this country's promise of truly educating every child and preparing each of them for the challenges ahead Hear from the author in this 5 minute video on YouTube **Principals who Learn** Barbara Kohm,Beverly Nance,2007 Provides school principals with information on how to keep on top of the human relationships and dynamics at work in their schools *The New Principal's Fieldbook* Pamela Robbins,Harvey B. The Elusive What and the Problematic How ,2008-01-01 For the authors in this book there can be no valid excuses for ignorance in any aspect of education as theory practice That is If we come to learn that all educational problems involve knowledge of complex systems and processes then quick simple solutions should not be an educator s first or only expedient option If all education requires a measure of cultural and contextual understandings then uniform standardized programs and lessons will not meet the needs of all children or communities If educational change takes time and strenuous efforts to take hold then why do we abandon and restart reforms efforts year after year If educational practices are best performed by those closest to the problems then why do we not prepare and continuously develop teachers and administrators to grow intellectually and politically to make wise decisions If who a person is culturally and intellectually shapes who they are as educators then why are our recruitment selection induction and retention policies not influenced by this assumption If today s best practices have not taken careful note of successes in the past then how do we validly measure best practices in use today If one time standardized test scores are not adequate measures of a person s worth a teacher s competency or a school s value to its community then why do our policies and practices say otherwise Unfortunately our ignorance of the what and the how of education and educational leadership has persisted across contexts and history Why This book provides both theoretical and practical answers to these elusive and problematic issues "The Boss of the Whole School" Elizabeth Ann Hebert,2006-04-24 Elizabeth Hebert uses her 21 years of experience as an elementary school principal to offer inspiration and guidance to aspiring and practicing administrators Using real life stories from an outstanding career this book examines the responsibilities demands and challenges principals manage on a daily basis demonstrates how qualities of leadership mature over time and the conditions that both nurture and suppress it provides a heartfelt and compelling rationale for becoming and staying a principal New and veteran administrators will recognize the school scenarios and appreciate the sincere voice of the author as she passes on valuable lessons learned

Balanced Leadership Sheryl Boris-Schacter,Sondra Langer,2006 Alarmed by mounting evidence of a national shortage of qualified and willing principals the authors surveyed or interviewed over 200 school principals from across the country to

find out why so many are leaving the profession and how those who stay manage their work They discovered that regardless of a principal's race gender school level geographic region or tenure there was a remarkable consistency in the challenges identified and suggestions given for revamping the role of the American principal Featuring stories shared by practicing principals this timely volume offers fresh insights on ways to both attract and retain good principals shows how successful principals reconcile their expectations and hopes with the realities and disappointments encountered in their work examines issues common to all principals such as time management staff evaluations keeping the focus on instruction community expectations and pursuing a balanced life presents strategies that principals have used to make their role more effective and more attractive and provides practical ideas for coping with the present and envisioning the future including alternative principal models
