Stage And Screen:

The Stage/screen Debate Gregory Albert Waller, 1978 The Field of Drama Martin Esslin, 1987 This book of criticism brings both theatre and film studies within a single theoretical framework *The Disney Musical on Stage and Screen*, 2018 A critical treatment of the corporation's hugely successful musicals both on screen and on the stage The 13 articles open up a new territory in the critical discussion of the Disney mega musical its gender sexual and racial politics outreach work and impact of stage film and television adaptations **From Stage to Screen** Bill Britten, 2014-11-20 The camera enables us to see right into a character's soul revealing his or her innermost thoughts and emotions Screen acting requires a more rigorously truthful and spontaneous performance than the stage as well as very different technical expertise From Stage to Screen is a handbook for the professional actor packed with advice on how to make the transition and fully prepare for a TV or film role The book is divided into three sections the first examines the relationship between the actor and the camera and how it differs from that of a performer with a stage audience the second addresses the technical skills the screen actor needs in order to work as part of a large collaborative team and make the shot work and the third explores the very different experience of an actor working on a screen project including getting the job how to prepare properly what to expect and how to manage the whole process from casting through to ADR in order to deliver the very best work **Directing for Stage and Screen** Marian F. Monta, Jack R. Stanley, 2008 If directing dramatic productions interests you this book is a basic guide to show you know to apply the principles of directing to any dramatic medium stage television or film The authors who have worked in all three media illustrated how the principles of one medium relate to the other two **Movie Acting, the Film Reader** Pamela Robertson Wojcik, 2004 Combining classic and recent essays and examining key issues such as Movie Acting the Film Reader explores one of the most central but often overlooked aspects of cinema film acting **Shakespeare, from Stage to Screen** Sarah Hatchuel, 2004-08-12 How is a Shakespearean play transformed when it is directed for the screen In this 2004 book Sarah Hatchuel uses literary criticism narratology performance history psychoanalysis and semiotics to analyse how the plays are fundamentally altered in their screen versions She identifies distinct strategies chosen by film directors to appropriate the plays Instead of providing just play by play or film by film analyses the book addresses the main issues of theatre film aesthetics making such theories and concepts accessible before applying them to practical cases Her book also offers guidelines for the study of sequences in Shakespearean adaptations and includes examples from all the major films from the 1899 King John through the adaptations by Olivier Welles and Branagh to Taymor's 2000 Titus and beyond This book is aimed at scholars teachers and students of Shakespeare and film studies providing a clear and logical apparatus with which to examine Shakespearean screen adaptations **Theater and Film** Robert Knopf, 2008-10-01 This is the first book in more than twenty five years to examine the complex historical cultural and aesthetic relationship between theater and film and the effect that each has had on the other's development Robert Knopf here assembles essays from

performers directors writers and critics that illuminate this ongoing inquiry The book is divided into five parts historical influence comparisons and contrasts writing directing and acting with interludes by major artists whose work and words have shaped the development of theater and film A comprehensive bibliography and filmography support further work in this area The book contains contributions from Susan Sontag Stanley Kauffmann Sarah Bey Cheng Bertolt Brecht Ingmar Bergman Harold Pinter David Mamet Julia Taymor Judi Dench Sam Waterston Orson Welles Antonin Artaud and Milos Forman among others

The Image in Early Cinema Scott Curtis, Philippe Gauthier, Tom Gunning, Joshua Yumibe, 2018-03-22 In *The Image in Early Cinema* the contributors examine intersections between early cinematic form technology theory practice and broader modes of visual culture They argue that early cinema emerged within a visual culture composed of a variety of traditions in art science education and image making Even as methods of motion picture production and distribution materialized they drew from and challenged practices and conventions in other mediums This rich visual culture produced a complicated overlapping network of image making traditions innovations and borrowing among painting tableaux vivants photography and other pictorial and projection practices Using a variety of concepts and theories the contributors explore these crisscrossing traditions and work against an essentialist notion of media to conceptualize the dynamic interrelationship between images and their context

Adapting Performance Between Stage and Screen Victoria Lowe, 2023-02-24 Provides a new foundation for discussions about theater film and translations between the two mediums *Adapting Performance Between Stage and Screen* provides an introduction to adaptations between theater and film establishing a framework for considering these as distinct from literary adaptation The book places emphasis on performance and event opening new avenues of exploration to include non literary issues such as the treatment of space and place mise en scene acting styles and star personas The recent growth of digital theater is examined to foreground the events of theater and cinema largely ignored in adaptation studies with phenomena such as National Theatre Live analyzed for the different ways that liveness is adapted Drawing from case studies that explore distinct periods in British film and theater history the volume looks at issues surrounding theatrical naturalism and cinematic realism and illustrates the principle that adaptations can't be divorced from the historical and cultural moment in which they are produced *Adapting Performance Between Stage and Screen* explores how cultural values can be articulated in the act of translating between media providing a new framework for the discussion of theater and film as dramatic works

Inside the Film Factory Ian Christie, Professor Richard Taylor, Richard Taylor, 2005-08-19 This is the first collection to be inspired and informed by the new films and archival material that glasnost and perestroika have revealed and the new methodological approaches that are developing in tandem Film critics and historians from Britain America France and the USSR attempt the vital task of scrutinising Soviet film and re examining the Cold War assumptions of traditional historiography Whereas most books on Soviet giants have glorified the directorial giants of the golden age of the 1920s *Inside the Film Factory* also recognises the achievements of popular cinema

from the pre Revolutionary period through to the 1930s and beyond It also evaluates the impact of Western cinema on the early experimenters of montage Russian science fiction s influence on film making and the long suppressed history of Soviet Yiddish productions Alongside the new perspectives and source material on the much mythologised figures of Kuleshov and Medvedkin the book provides the first extended accounts in English of the important but neglected careers of directors Yakov Protazanov and Boris Barnet

Screen Culture John Fullerton, 2004 Screen Culture History and Textuality explores the impact of digital culture on the discipline of film and television studies Whether the notion of screen culture is used to designate the technological platforms common to present day digital media or whether it refers to the support material on which moving images have historically been projected scanned or displayed the 15 previously unpublished essays included here are primarily concerned with the intermedial appraisal of film television and digital culture Contributors are Richard Abel William Boddy Ben Brewster John Fullerton Douglas Gomery Alison Griffiths Vreni Hockenjos Jan Holmberg Arne Lunde Peter Lunenfeld Charles Musser Jan Olsson Barry Salt Michele L Torre William Uricchio and Malin Wahlberg Stockholm Studies in Cinema series Distributed for John Libbey Publishing

Film and Television Acting Ian Bernard, 1997-12-11 Film and Television Acting offers solid techniques for creating a natural believable performance for film and television The reader will discover techniques for listening and reacting blocking and business character focus the closeup and comedy as they pertain to acting in front of a camera The book analyzes the differences between theatre film and television acting providing the theatre trained actor with specific approaches for making the transition to on camera work This second edition is thoroughly revised and updated The book contains numerous scenes and exercises including sample scenes from Cheers and Seinfeld which provide the reader with ways to practice the specific techniques outlined by the author Included are interviews with well know actors and directors Don Murray Norman Jewison and Emmy award winner Glenn Jordan to name a few These interviews illustrate how the professionals apply their training and technique to filmed performances There is also a chapter length interview with John Lithgow in which the actor provides a first hand account of the differences of acting for the theatre and for the camera

Greek Tragedy into Film Kenneth MacKinnon, 2013-10-08 If Greek tragedy is sometimes regarded as a form long dead and buried both theatre producers and film directors seem slow to accept its interment Originally published in 1986 this book reflects the renewed interest in questions of staging the Greek plays to give a comprehensive account and critical analysis of all the important versions of Greek tragedy made on film From the 1927 footage of the re enactment of Aeschylus Prometheus in Chains at the Delphi Festival organised by Angelos Sikelianos to Pasolini s Notes for an African Oresteia the study encompasses the version of Oedipus by Tyrone Guthrie Tzavellas s Antigone with Irene Papas Michael Cacoyannis s series which included Electra The Trojan Women and Iphigeneia Pasolini s Oedipus and Medea with Maria Callas Miklos Jancso s Elektra Dassim s Phaedra and others Many interesting questions are raised by the transference of a highly stylised form such as Greek tragedy to what is often claimed to be the realistic medium

of film What becomes clear is that the heroic myths retain with ease the power to move the audiences in very different milieux through often strikingly different means The book may be read as an adjunct to viewing of the films but enough synopsis is given to make its arguments accessible to those familiar only with the classical texts or with neither version
