Asbestos and Fire Rachel Maines, 2013-08-30 For much of the industrial era asbestos was a widely acclaimed benchmark material During its heyday it was manufactured into nearly three thousand different products most of which protected life and property from heat flame and electricity It was used in virtually every industry from hotel keeping to military technology to chemical manufacturing and was integral to building construction from shacks to skyscrapers in every community across the United States Beginning in the mid 1960s however this once popular mineral began a rapid fall from grace as growing attention to the serious health risks associated with it began to overshadow the protections and benefits it provided In this thought provoking and controversial book Rachel Maines challenges the recent vilification of asbestos by providing a historical perspective on Americans changing perceptions about risk She suggests that the very success of asbestos and other fire prevention technologies in containing deadly blazes has led to a sort of historical amnesia about the very risks they were supposed to reduce *Asbestos and Fire* is not only the most thoroughly researched and balanced look at the history of asbestos it is also an important contribution to a larger debate that considers how the risks of technological solutions should be evaluated As technology offers us ever increasing opportunities to protect and prevent Maines urges that learning to accept and effectively address the unintended consequences of technological innovations is a growing part of our collective responsibility

Julius Caesar on Stage in England and America, 1599-1973 John Ripley, 1980-02-21 Professor Ripley in this 1980 study of Julius Caesar offers one of the most detailed stage histories ever attempted focusing upon aspects both of English and American staging from 1599 to 1973 His primary sources include promptbooks and groundplans letters diaries and reviews He approaches the play from four different angles he examines the texts used in all major productions and makes valuable deductions about the taste and sensibility of an age from cuts alterations additions and redistribution of parts He explains in detail the staging of the play at various points in time and demonstrates how sets and costumes bits of business handling of crowd scenes and lighting affected its business He reconstructs performances of the four main roles by the greater and lesser lights of each period Finally he comments on the way in which the theories of critics and in modern times directors ideas have influenced understanding of the play **The Camping Magazine** ,1961 Includes Annual buying guide issue
