**The Stained Glass Classroom** Vicki Payne, 2006      **Classroom 15** Peter Laufer, 2020-12-15 A result of an investigative report by tenacious University of Oregon journalism students Classroom 15 tells the story of how the dreams of fourth grade students at the Riverside School Roseburg in rural Oregon timber country were crushed by the prevailing Red Scare McCarthyism state and societal censorship and J Edgar Hoover s FBI The teacher of Classroom 15 known fondly as Mr McFetridge assigned a pen pal project in an effort to take geography lessons outside of the classroom Imagining a place as far from Oregon as they possibly could the students wrote letters to nine and ten year old counterparts in the Soviet Union Janice Boyle the class secretary reached out to Oregon s Congressional representative Charles O Porter seeking assistance connecting with peers in Russia Representative Porter forwarded the letter to the Secretary of State Christian Herter and a week later the students received the shocking and disheartening news that their benign request had been needlessly denied In the wake of McCarthyism the Eisenhower administration subverted the assignment fearing Communist propaganda would infect the innocent minds of eager Oregon schoolchildren The students plight quickly gained national attention with stories running from the Roseburg News Review to the New York Times The publicity didn t miss the attention of J Edgar Hoover s FBI His agents investigated They traveled to Roseburg collected evidence and took it back to the Bureau s regional headquarters in Portland The public reaction was swift and unrelenting The teacher and the Congressman were attacked by outraged Roseburg citizens the school board and enraged Americans across the country Classroom 15 is all the above and a page turning adventure story told with the voices of the empowered tenacious University of Oregon journalism students who took the nascent story and demonstrated their unwavering devotion to the journalistic process by telling the tale

**Year-Round Classroom Tips** Diane M. Hyde, Teacher Created Resources, 2004 Projects learning centers classroom management organizing tips and more Cover      **Learning Outside the Primary Classroom** Fred Sedgwick, 2012-05-31 We believe that every young person should experience the world beyond the classroom as an essential part of learning and personal development whatever their age ability or circumstances Learning outside the classroom is about raising achievement through an organised powerful approach to learning in which direct experience is of prime importance LOTC Initiative manifesto In Learning Outside the Primary Classroom the educationalist and writer Fred Sedgwick explores in a practical way the many opportunities for intense learning that children and teachers can find outside the confines of the usual learning environment the classroom This original work is based on tried and tested methods from UK primary schools The author draws on current concerns in the educational world regarding outdoor learning as exemplified by the eight sector Learning Outside the Classroom LOTC initiative supported by Ofsted but remains refreshingly independent in approach Using

a metaphor of concentric circles Learning Outside the Primary Classroom starts with a brief opening chapter based in the classroom itself before moving outwards to explore the learning possibilities presented by the immediate environs of the school playgrounds gym halls sports fields etc Later chapters move beyond the school gates to explore the local shops parks religious centres libraries and town halls and the myriad learning opportunities they represent The final chapters explore the possibilities of larger scale day trips to major galleries and museums and more ambitious field trips

**Engaging Classrooms and Communities Through Art** Beth Krensky, Seana Lowe Steffen, 2009 The book combines case studies with diverse groups across the country that are using different media including mural arts dance and video with an informed introduction to the theory and history of community based art It is a perfect handbook for those looking to transform their communities through art *Glen Echo Park*, 1990 *Exciting Classrooms* Frank Thoms, 2015-12-08 Frank Thoms writes with passion to invite principals and teachers to make changes that will allow all students to succeed In this book he urges them to reconsider traditional practices in light of today's media driven culture and digitally wired students *Exciting Classrooms* is sensitive to the challenges schools face and is relentless in offering strategies to meet these challenges Schools must do better Rather than focus on improving test scores this book advocates that teachers teach to a child's whole symphony not only to one note If students only learn to succeed on bubble tests they will not have opportunities to discover their true potential Thoms sees the teaching process as a joint venture between teacher and student where the teacher brings learning to the student and at the same time brings the student to the learning This process demands at least as much listening as talking a new habit that teachers and principals need to learn
