Stairway Of Surprise Six Steps To A Creative Life:

Stairway of Surprise Michael Lipson,2002-11 A gift was given you at your first breath have you opened it It came from the stars and impressed itself into you at your most vulnerable moment In this introduction to astrosophy or star wisdom a science with ancient roots and modern relevance David Tresemer shows how the patterns written in the heavens influence a person s life Taking as an example the remarkable life of Rudolf Steiner Tresemer demonstrates the Oracle of the Solar Cross whose four points interact throughout each of our lives to shape opportunities and challenges that our souls must face Steiner spoke often of the starry script and hinted that whereas its patterns impress themselves upon the human psyche we can also influence this heavenly text altering it in service of the continued development of humanity Through stories from the life and examples from the work of Steiner as well as the Star Brothers and Sisters who share aspects of his Solar Cross Tresemer illuminates this truth Rich in art and anecdote this groundbreaking book gives insight into the foundations of Anthroposophy and shows how great acts feelings and thoughts by human beings on Earth shine out and impress their patterns into the cosmos

Stairway of Surprise Michael Lipson,2002 This book will open your life to the surprising depth of the simple and ordinary For most of us life is often a humdrum course of the same old and the nothing new We may dream about running away to exotic lands or retreating to distant monasteries but the whirligig of life won t let us out of its clutches Stairway of Surprise has become a new classic of anthroposophic spiritual practice Dr Michael Lipson re visions Rudolf Steiner s six basic exercises to make them relevant to our lives today With examples drawn from world literature and from his psychotherapy practice Lipson shows how these exercises stretch from common events in daily life to the depths of spiritual experience The path of meditation offered here is experiential from start to finish not something to think only but something to live By practicing these exercises for a few minutes each day we can discover the surprise in the universe which is usually hidden from us by our stale habitual attitudes

Why on Earth? Signe Ecklund Schaefer,2013-12-01 Life today poses many questions both in our personal lives and in our participation in nature and the broader culture We often focus on the outer needs for social political technological or environmental change However can we really meet the challenges around us without also attending to our inner life and to our own evolving biography as it reflects and informs the outer world This book starts from the premise that each of our lives expresses uniqueness of spiritual intention within the unfolding of universal rhythms and possibilities Can we wake up to the developmental opportunities offered to us through different life phases Are we able to step out of the narrowness of the dualistic nature nurture argument and experience that we are both more than our genetic composition and more than a product of the social and educational influences that have shaped us Can we come to appreciate the learning that our I has received through heredity ethnicity schooling and gender without losing a sense of our true individuality Waking up to our

unique self as it grows through interaction with the world and other human beings helps us recognize the significance we all play in one another's biographies and in the unfolding of our larger human story Why on Earth invites us to explore our own meaning-laden life journey to bring conscious attention to how we go our path so that we may more freely perceive our possibilities and our responsibilities along the way of our personal and shared becoming The Stages of Higher Knowledge Rudolf Steiner, 2009-08 What does it mean to be human Human development unfolds in a twofold way On the one hand there is an ever more profound incarnation or inhabitation of the physical body On the other hand there is the increasing discrimination of the individual objects of the world Difficulties and obstacles along this path can lead to so-called disabilities K nig's approach to curative education allows us to see these disabilities as meaningful ways of coping with or resolving the various problems that arise in living in a physical body From this point of view disabilities are exaggerated forms of ways we all use to cope with life The point is not only to see the deviations but to see them against the mighty backdrop of a comprehensive child anthropology Being Human presents the outline of just such a comprehensive anthropology Being Human is of value not only to those working in special education but to anyone interested in the dynamics of incarnation and normal development Into the Heart's Land Henry Barnes, 2005-08 Henry Barnes the author of A Life for the Spirit brings us a comprehensive view of the roots and development of anthroposophy throughout North America From its seminal beginnings with a few hearty souls in New York City it moved across the prairies to the west coast and beyond to Canada Mexico and Hawaii and took root in the hearts and minds of the new world Here is the story of those adventurous spirits who took responsibility for bringing the work of Rudolf Steiner to North America in the form of study groups agricultural initiatives Waldorf and special education the arts and so much more Autobiography Rudolf Steiner, 2006-05 4 lectures Dornach June 28 July 18 1923 CW 350 Truth and striving for truth must taste good to you and lies once you are conscious of them must taste bitter and poisonous You must not only know that human judgments have color but also that printer's ink nowadays is mostly deadly nightshade juice You must be able to experience this in all honesty and rectitude and once you can do so you will be in a state of spiritual transformation Rudolf Steiner What is the relationship between coming to see the secrets of the universe and one's own view of the world How far must one go before finding the higher worlds on the path of natural science Do cosmic forces influence all of humanity What connection do plants have with the human being and the human body In answering these questions Steiner covers a wide range of topics from the development of independent thinking and the ability to think backward to the uses of what seems boring and the reversal of thinking between the physical and spiritual worlds and from the physiology of dreams to living into nature and the spiritual dimension of various foods we eat As always in his lectures to the workers Steiner's style is clear direct and accessible This volume is a translation from German of four lectures from Rhythmen im Kosmos und im Menschenwesen Wie kommt man zum Schauen der geistigen Welt GA 350 **Quiet Heart** Peter Gruenewald, 2015-04-13 This book describes a highly effective approach to stress

management and personal development Using heart based exercises that help manage and transform extreme emotions it is possible to deal with many forms of stress anxiety and depression without resorting to drugs or psychotherapy The benefits of these unique easily practised exercises can be felt within days This edition contains relaxation and self motivation exercises and a wider variety of case studies demonstrating real results There is also a useful Question and Answer section This book is an essential read for anyone who wants to take their physical and emotional health into their own hands *The New Essential Steiner* Rudolf Steiner, Robert A. McDermott, 2009-10 12 lectures Hamburg May 5 31 1908 CW 103 During Pentecost 1908 seven years after he had given the world his book *Christianity As Mystical Fact* and the first intimation of the consequences of his Christ experience Rudolf Steiner began his great work of renewing humanity's understanding of the Mystery of Golgotha and its meaning for human and earthly evolution Accordingly he turned to the deepest most spiritual of the Gospels that of the initiate St John In this lecture course readers will find that the incarnation death and resurrection of the Divine Word or Logos reveals the mission of the Earth Love We learn of the mysteries behind Lazarus resurrection the I AM sayings and the seven degrees of initiation We come to understand that the Gospel of St John is a continuing spiritual presence to be recalled meditated and permeated with one's own life In doing so we realized that our purpose and that of all humankind is to become the Virgin Sophia a receptacle for the Holy Spirit All of Steiner's work as Marie Steiner writes in her introduction was to pave the way to Christ Indeed at the conclusion of these lectures Rudolf Steiner said It will come to be understood that Christianity is only beginning its influence and will fulfill its real mission only when it is understood in its true spiritual form The more these lectures are understood in this sense the better they will be understood as they were intended This volume is essential if one is to truly understand Rudolf Steiner's understanding of esoteric Christianity and its place in the world today and in the future This volume is a translation of *Das Johannes Evangelium* GA 103 **Lifting the Veil of Mental Illness** William Bento, 2004 Mental illnesses are too often seen only in abstract terms In keeping with this mainstream psychology which seldom acknowledges the psyche or soul relies increasingly on pharmaceutical treatment In his unique approach to anthroposophical psychology or psychosophy William Bento views imbalances of the human soul in an experiential and human way Basing his views on the work of Rudolf Steiner Bento looks not only at the human body soul and spirit but also at the way the whole environment of physical phenomena life forces and spirit beings affects us as individuals Going well beyond our immediate earthly surroundings the author considers the cosmic effects of sun planets and stars offering a holistic view of the human soul This book is a valuable and accessible addition to the field of anthroposophical psychology and to the study of Spiritual Science in general *Wisconsin Hills Farm Stories* Marie-Laure Valandro, 2012-10-01 In this captivating collection of stories Marie Laure Valandro shares her adventures and insights from her life and work on a sixty acre biodynamic farm and garden in a small rural town in eastern Wisconsin Readers get a rare and intimate glimpse into the realities of modern farm life replete with its beauty and magic challenges and demands
