Stallinga This Is Our Logo:

This is Our Logo Henk Stallinga, Annemarie Galani, 2000 The world of designer Henk Stallinga is familiar almost logical but not quite His work appeals to the cognitive senses speaking indirectly to give glimpse of the truth The basic tenet form follows function is subverted a sponge becomes a vase and a business card a knife and fork **Anatomy of Design** Steven Heller, Mirko Illic, 2009-03-01 *DIVA* Anatomy of Design dissects fifty examples of graphic design piece by piece revealing an array of influences and inspirations These pieces represent contemporary artifacts that are well conceived finely crafted and filled with hidden treasures Some are overtly complex Others are so simple that it is hard to believe there is a storehouse of inspiration hidden underneath The selections include all kinds of design work including posters packages and more Each exhibit is selected for its ubiquity thematic import and aesthetic significance and every page shows how great work is derived from various inspirational and physical sources some well known some unknown *div* **Dwell**, 2001-08 At Dwell we are staging a minor revolution We think that it is possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines

Graphis, 2002 *Graphic Design* Gingko Press, 2002-01-31 Unassailable as the world's most comprehensive survey of Holland's unique design scene Dutch Design 2002 2003 is a spectacular biannual that represents all genres of visual communication The set comes in a design bag and includes six paperback volumes and an index featuring the business cards of all contributors From cover to cover each volume is innovative absorbing multi layered and dynamic Featured are brilliant examples of branding business graphics books magazines and brochures Encompasses the entire spectrum of contemporary Dutch graphic design Works featured are absolutely state of the art and include brilliant examples of typography and some of the world's most innovative corporate identity programs A fabulous feast of Holland's best in one remarkable book

Optical Imaging and Microscopy Peter Török, Fu-Jen Kao, 2013-06-05 The motivation to collect contributions from a wide variety of subjects in contemporary optics centered around optical imaging originates from two ideas First it is easy to recognise that certain fields of contemporary optics have been developing in quite a parallel manner Sometimes workers of the different fields discover each other's contributions but mostly they do not One of our major goals is to show how closely these contributions are inter related Such an example is the development of scanning confocal optical microscopy and optical data storage In the former imaging in the classical sense occurs by scanning a tightly focused laser beam over the sample In optical data storage imaging does not occur as the aim is to detect pits rather than to image them Nevertheless the optical systems of these two arrangements have striking resemblance and hence their governing equations are practically the same The second motivation of this book is to collect contributions from imaging related subjects that were not previously published in this form or they are difficult to access Such examples are a chapter on white light interferometry surface plasmon microscopy

or the characterisation of high numerical aperture microscope objective lenses We are extremely pleased that we have contributions in this book from the ternational leaders of individual elds It has been our privilege to work with these authors and we would like to take this opportunity to thank them all
