The Walther League Messenger, 1924 **Standards-based Leadership** Sandra Harris, 2004 Today's assistant principal is charged with the responsibility of supporting the principal in creating a learning organization which emphasizes success for all students Frequently due to the nature of the position assistant principals often find themselves as the man or woman in the middle with job duties that are quite different from that of the principal An important component leading to the successful implementation of school leadership is decision making based on standards that are grounded in research and best practice Standards Based Leadership A Case Study Book for the Assistant Principalship provides a structure for learning and growth that connects theory with practice whether the assistant principal is already on the job or enrolled in a

preparation program Each chapter is organized around identification of a major ELCC standard and then related to the Texas standards The scenarios are all based on actual problems that have faced practicing assistant principals Applying the descriptors of the standard and using the brief literature reviews as resources to guide decision making assistant principals are provided with a framework for implementation of specific strategies that will best help students As aspiring school leaders reflect on the realistic situations provided in each chapter and identify possible applications and implications they will be strengthened in their quest to meet the challenges of standards based leadership for the assistant principalship
