Criminal lawyer and bestselling mystery author Erle Stanley Gardner wrote nearly 150 novels that have sold 300 million copies worldwide. Now the American Bar Association is bringing back his most famous and enduring novels featuring criminal defense lawyer and sleuth Perry Mason in striking trade paperback editions. Julia Branner was forced by her millionaire father in law to give up her baby for adoption. When a young woman surfaces years later claiming to be Julia's daughter, Julia insists she's a fraud after the family fortune and enlists Bishop William Mallory to help expose the imposter. When Julia's father in law is found dead and Julia charged with his murder, the bishop promises to help but is a bishop who's delivered many sermons likely to stutter.

The Case of the Stuttering Bishop Erle Stanley Gardner, 1964 *The Case of the Stuttering Bishop ; The Case of the Dangerous Dowager* Erle Stanley Gardner, 1975 *The Routledge Companion to Screen Music and Sound* Miguel Mera, Ronald Sadoff, Ben Winters, 2017-05-25

The Routledge Companion to Screen Music and Sound provides a detailed and comprehensive overview of screen music and sound studies, addressing the ways in which music and sound interact with forms of narrative media such as television, videogames, and film. The inclusive framework of screen music and sound allows readers to explore the intersections and connections between various types of media and music and sound, reflecting the current state of scholarship and the future of the field. A diverse range of international scholars have contributed an impressive set of forty-six chapters that move from foundational knowledge to cutting-edge topics that highlight new key areas. The companion is thematically organized into five cohesive areas of study: Issues in the Study of Screen Music and Sound discusses the essential topics of the discipline; Historical Approaches examines periods of historical change or transition; Production and Process focuses on issues of collaboration, institutional politics, and the impact of technology and industrial practices; Cultural and Aesthetic Perspectives contextualizes an aesthetic approach within a wider framework of cultural knowledge; Analyses and Methodologies explores potential methodologies for interrogating screen music and sound. Covering a wide range of topic areas drawn from musicology, sound studies, and media studies, The Routledge Companion to Screen Music and Sound provides researchers and students with an effective overview of music's role in narrative media as well as new methodological and aesthetic insights.

Stutter Marc Shell, 2009-06-30

In a book that explores the phenomenon of stuttering from its practical and physical aspects to its historical profile to its existential implications, Shell—who has himself struggled with stuttering all his life—plumbs the depths of this murky region between will and flesh, intention and expression, idea and word. Looking into the difficulties encountered by people who stutter, as do fifty million world-wide, Shell shows that stutterers share a kinship with many other speakers, both impeded and fluent. This book takes us back to a time when stuttering was believed to be diagnosis-induced, then on to the complex mix of physical and

psychological causes that were later discovered Ranging from cartoon characters like Porky Pig to cultural icons like Marilyn Monroe from Moses to Hamlet Shell reveals how stuttering in literature plays a role in the formation of tone narrative progression and character From publisher description *Perry Mason 2 in 1* Erle Stanley Gardner,1975 **The Case of the Sleepwalker's Niece** Erle Stanley Gardner,1936 Literary Secretaries/Secretarial Culture Leah Price,2017-05-15 Secretaries are the hidden technicians of much literary and non literary writing they also figure startlingly often as characters in modern literature film and even literary criticism Literary Secretaries Secretarial Culture brings together secretaries role in the production and more surprisingly consumption of modern culture with interpretations of their function in literature and film from Chaucer to Heidegger by way of Dickens Dracula and Erle Stanley Gardner These essays probe the relation of office practice to literary theory asking what changes when literary texts represent address or acknowledge the human copyist or the mechanical writing machine Topics range from copyright law to voice recognition software from New Women to haunted typewriters and from the history of technology to the future of information management Together the essays will provide literary critics with a new angle on current debates about gender labour and the material text as well as a window into the prehistory of our information age
