Understanding the Castle Ruins of England and Wales Lise Hull,2016-03-15 Medieval castles were not just showcases for the royal and powerful they were also the centerpieces of many people s daily lives A travel guide as well as a historical text this volume looks at castles not just as ruined buildings but as part of the cultural and scenic landscape The 88 photographs illustrate the different architectural concepts and castle features discussed in the text The book includes glossaries of terminology an appendix listing all the castles mentioned and their locations notes bibliography and index *Britain's Medieval Castles* Lise E. Hull,2005-12-30 The widespread construction of castles in Britain began as soon as Duke William of Normandy set foot on the shores of southern England in 1066 The castles that were constructed in the ensuing centuries and whose ruins still scatter the British countryside today provide us with an enduring record of the needs and ambitions of the times But the essence of the medieval castle a structure that is equal parts military residential and symbolic reveals itself not only through the grandeur of such architectural masterpieces as the Tower of London and the imposing nature of such royal residences as Windsor but also in the aging masonry carvings enduring battlements and more modest earthen ramparts that have survived alongside them Through a feature by feature account of the architectural elements and techniques used in constructing the medieval castle author Lise Hull allows the multiple functions of these multifarious forms to shine through and in so doing lends a new vitality to the thousand faces that the medieval world assumed to discourage its enemies inspire its friends and control its subjects This compelling investigation takes a unique look at each of the medieval castle s main roles as an offensive presentation and defensive fortification as a residential and administrative building and as a symbolic structure demonstrating the status of its owner Each chapter focuses on one specific role and uses concrete architectural features to demonstrate that aspect of the medieval castle in Britain A wealth of illustrations is also provided as is a glossary explaining the distinct parts of the castle and their functions This book should be of interest to students researching architecture the Middle Ages or military history as well as general readers interested in castles or considering a trip to Britain to observe some of these magnificent sites themselves **Anglo-Norman Castles** Robert Liddiard,2003 Wide

ranging studies offer an in depth analysis of castle building 11th 12th centuries and place castles within their broader social and political context The castles of the eleventh and twelfth centuries remain among the most visible symbols of the Anglo Norman world This collection brings together for the first time some of the most significant articles in castle studies with contributions from experts in history archaeology and historic buildings Castles remain a controversial topic of academic debate and here equal weight is given to seminal articles that have defined the study of the subject while at the same time emphasising newer approaches to the fortresses of the Anglo Norman aristocracy The studies in this volume range from discussions of the residential and military role of the castle to architectural symbolism and royal attitudes to baronial fortification The result is a survey that offers an in depth analysis of castle building during the eleventh and twelfth centuries but which also places Anglo Norman castles within their broader social architectural and political context Contributors ANN WILLIAMS RICHARD EALES DEREK RENN LAWRENCE BUTLER ROBERT HIGHAM MARJORIE CHIBNALL R ALLEN BROWN CHARLES COULSON SIDNEY PAINTER FREDERICK C SUPPE GRANT G SIMPSON BRUCE WEBSTER J R KENYON THOMAS McNEILL T A HESLOP PHILIP DIXON PAMELA MARSHALL JOHN BLAIR CHARLES COULSON ROBERT LIDDIARD *The Penny Cyclopaedia of the Society for the Diffusion of Useful Knowledge* ,1836 **The Penny Cyclopaedia of the Society for the Diffusion of Useful Knowledge** Society for the Diffusion of Useful Knowledge,1836
