V. Hyde-Price, Erich Reiter, 2001 A central point of controversy among both academics and policymakers is the nature and significance of security in the post Cold War world Engaging that discussion this collection explores the new security challenges facing Europe Law in Greater Europe Bruno Haller, Hans-Christian Krüger, Herbert Petzold, 2021-10-11 This collection of studies intends to honour Heinrich Klebes who both as a distinguished international civil servant and as a scholar and analyst has made and continues to make an important contribution to the development of European cooperation in general and within the Council of Europe in particular At the same time it offers a unique and stimulating analysis of the development of a common body of law in the wider Europe The twenty nine articles contained in this volume are grouped together under five headings commitment to democratic standards protection of human rights and fundamental freedoms the Council of Europe in context the common legal space common problems of democracy and transatlantic relations *Russia, the Council of Europe and the European Convention on Human Rights* Ed Bates, Kanstantsin Dzehtsiarou, Andrew Forde, 2025-02-18 Russia was expelled from the Council of Europe CoE after 26 years following the invasion of Ukraine This timely and in depth analysis explores Russia s tumultuous relationship with the CoE ECHR institutions It examines Russia s membership record and the profound impacts of its expulsion for Europe s human rights system The authors provide valuable insights for future policy to safeguard the integrity of international human rights institutions The book fills an important gap in legal scholarship by exploring the legality and legitimacy of its membership and expulsion and represents a key reference in understanding the challenge of protecting human rights in the face of rising authoritarianism *European Human Rights Grey Zones* Andrew Forde, 2024-04-25 This book critically examines the effectiveness of the Council of Europe s human rights protection architecture in European areas of conflict **The Concept of the Rule of Law and the European Court of Human Rights** Geranne Lautenbach, 2013-11-28 This book analyses the concept of the rule of law in the context of international law through the case law of the European Court of Human Rights It investigates how the court has defined and interpreted the notion of the rule of law in its jurisprudence It places this analysis against a background of more theoretical accounts of the idea of the rule of law drawing in ideas of political philosophy It also provides a comparative assessment demonstrating how the idea of the rule of law has evolved in the UK France and Germany The book argues that at the core of the concept of the rule of law are the notions of legality and judicial safeguards It states that the Court has developed the requirements of legality which the work analyses in detail based on that concept It assesses the independence of the judiciary as an aspect of the rule of law in the context of the European Convention on

Human Rights and the relationship between the rule of law and the substantive contents of law The book posits that the rule of law as seen at the Court is not mainly utilised with regard to freedom rights but is more concerned with procedural rights It discusses the relationship between the rule of law and the view of the Convention as a constitutional instrument of the European public order and shows that the rule of law and democracy are inextricably linked in the case law of the Court Ultimately the book demonstrates in its analysis of the Court's jurisprudence that the notion of the rule of law is a crucial part of the international legal order
