The Consoling Intelligence Responses To Literary Modernism:

The Consoling Intelligence David L. Kubal,1982-01-01 *The Concept of Modernism* Astradur

Eysteinsson,2018-07-05 The term modernism is central to any discussion of twentieth century literature and critical theory Astradur Eysteinsson here maintains that the concept of modernism does not emerge directly from the literature it subsumes but is in fact a product of critical practices relating to nontraditional literature Intervening in these practices and correlating them with modernist works and with modern literary theory Eysteinsson undertakes a comprehensive reexamination of the idea of modernism Eysteinsson critically explores various manifestations of modernism in a rich array of American British and European literature criticism and theory He first examines many modernist paradigms detecting in them a conflict between modernism s culturally subversive potential and its relatively conservative status as a formalist project He then considers these paradigms as interpretations and fabrications of literary history Seen in this light modernism both signals a historical change on the literary scene and implies the context of that change Laden with the implications of tradition and modernity modernism fills its major function that of highlighting and defining the complex relations between history and postrealist literature Eysteinsson focuses on the ways in which the concept of modernism directs our understanding of literature and literary history and influences our judgment of experimental and postrealist works in literature and art He discusses in detail the relation of modernism to the key concepts postmodernism the avant garde and realism Enacting a crisis of subject and reference modernism is not so much a form of discourse he asserts as its interruption a possible other modernity that reveals critical aspects of our social and linguistic experience in Western culture Comparatists literary theorists cultural historians and others interested in twentieth century literature and art will profit from this provocative book

The Modern Elegiac Temper John B. Vickery,2006-05-01 Lamentation of death is the traditional elegiac focus but in the twentieth century the elegy has become characterized as well by the mourning of other kinds of loss those personal familial romantic cultural and philosophical privations and dispossessions that have so greatly shaped the modern sensibility According to John B Vickery a profound elegiac temper is itself the major trait of twentieth century culture registered in attitudes ranging from regret sorrow confusion anger anxiety doubt and alienation to outright despair He transforms our understanding of the elegy and its relation to modernism in *The Modern Elegiac Temper* Vickery offers in depth readings of a broad sampling of British and American poems written from World War I to the present He considers works of overlooked

poets such as Vernon Watkins George Barker and Edith Sitwell while also attending to canonical writers such as T S Eliot Ezra Pound W H Auden and Wallace Stevens Taking a text oriented rather than author or theory oriented approach he discusses in turn the personal love cultural and philosophical elegy and shows how war the Great Depression the Holocaust and other major historical events influenced poets elegiac expressions By suggesting ways in which the individual centered concerns of the traditional elegy metamorphose under the depersonalizing lens of high modernism Vickery reveals the modern elegy to be a finely calibrated instrument for reading and expressing absorbing and reflecting the modern temperament

American Learned Men and Women with Czechoslovak Roots Mila Rechcigl, 2020-11-18 Apart from a few articles no comprehensive study has been written about the learned men and women in America with Czechoslovak roots That s what this compendium is all about with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Czech and Slovak immigrants including Bohemian Jews have brought to the New World their talents their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for the remarkable success and achievements of these settlers in their new home transcending through their descendants as this monograph demonstrates The monograph has been organized into sections by subject areas i e Scholars Social Scientists Biological Scientists and Physical Scientists Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical ground without regards to their native language or ethnic background This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated Consequently it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt Doing it in any other way would be a mere guessing and thus less objective
