The Continuing Storm Iraq Poisonous Weapons And Deterrence:

The Continuing Storm Avigdor Haselkorn,1999 Provides an assessment of the Persian Gulf War reviewing the events of the war intelligence operations strategy and planning and the use of weapons of mass destruction **The Continuing Storm** Avigdor Haselkorn,1999-02-08 In this thought provoking book strategic analyst Avigdor Haselkorn provides an important reassessment of the 1991 Gulf War Haselkorn s step by step narrative in which he reviews the events of the war with Iraq examines intelligence and planning during the war discusses why President Bush abruptly terminated it and analyzes the strategic consequences is absorbing and frightening He reveals that the war was not the splendid high tech victory that many Americans perceive but a nearly catastrophic event The threatened use of weapons of mass destruction during the Gulf War has redefined the meaning of deterrence Haselkorn contends and has set in motion trends that portend great danger to world peace This book focuses on the role played by biological and chemical weapons in the Gulf War and scrutinizes the dynamics of deterrence It supplies the grim facts about anthrax botulinum toxin and poison gases and traces the terror of their use Haselkorn shows that President Bush had little choice about ending the war when he did given the failure of U S intelligence and severe flaws in strategic planning Indeed leaders on both sides of the conflict were either dangerously uninformed or did not fully understand the information they had This book provides a key to understanding the continuing stalemate with Iraq and it offers new insights into how the spread of weapons of mass destruction will affect world politics and future battlefields *Know Thy Enemy* Barry R. Schneider,Jerrold M. Post,2003 Profiles the personalities and strategic cultures of some of the United States most dangerous international rivals **Next Steps in Iraq** United States. Congress. Senate. Committee on Foreign Relations,2002 **Weapons Proliferation and War in the Greater Middle East** Richard L. Russell,2007-05-07 This important new book explores the strategic reasons behind the proliferation of nuclear biological and chemical weapons as well as ballistic missile delivery systems in the Greater Middle East It examines the uses and limitations of chemical weapons in regional combat ballistic missile warfare and defenses as well as Iran s drive for nuclear weapons and the likely regional reactions should Tehran acquire a nuclear weapons inventory This book also discusses Chinese assistance to WMD and ballistic programs in the Greater Middle East Finally this book recommends policy options for American diplomacy to counter the challenges posed by WMD proliferation This essential study prepares the ground for the challenges facing the international community Richard Russell is a professor at the National Defense University s Near East South Asia Center for Strategic Studies in Washington DC He also teaches at the Security Studies Program at Georgetown University He previously served as a political military analyst at the CIA **The Saddam Tapes** Kevin M. Woods,David D. Palkki,Mark E. Stout,2011-09-26 During the 2003 war that ended Saddam Hussein s regime coalition forces captured thousands of hours of secret recordings of meetings phone calls and conferences Originally prepared by the Institute for Defense Analyses for the Office of the Undersecretary of Defense for Policy this study presents annotated

transcripts of Iraqi audio recordings of meetings between Saddam Hussein and his inner circle The Saddam Tapes along with the much larger digital collection of captured records at the National Defense University's Conflict Records Research Center will provide researchers with important insights into the inner workings of the regime and it is hoped the nature of authoritarian regimes more generally The collection has implications for a range of historical questions How did Saddam react to the pressures of his wars How did he manage the Machiavellian world he created How did he react to the signals and actions of the international community on matters of war and peace Was there a difference between the public and the private Saddam on critical matters of state A close examination of this material in the context of events and other available evidence will address these and other questions Fighting for Credibility Frank P. Harvey, John Mitton, 2017-01-18 When Bashar al Assad used chemical weapons against his own people in Syria he clearly crossed President Barack Obama's red line At the time many argued that the president had to bomb in order to protect America's reputation for toughness and therefore its credibility abroad others countered that concerns regarding reputation were overblown and that reputations are irrelevant for coercive diplomacy Whether international reputations matter is the question at the heart of Fighting for Credibility For skeptics past actions and reputations have no bearing on an adversary's assessment of credibility power and interests alone determine whether a threat is believed Using a nuanced and sophisticated theory of rational deterrence Frank P Harvey and John Mitton argue the opposite ignoring reputations sidesteps important factors about how adversaries perceive threats Focusing on cases of asymmetric US encounters with smaller powers since the end of the Cold War including Bosnia Kosovo Iraq and Syria Harvey and Mitton reveal that reputations matter for credibility in international politics This dynamic and deeply documented study successfully brings reputation back to the table of foreign diplomacy

Preventive Attack and Weapons of Mass Destruction Lyle Goldstein, 2006 This comprehensive survey of weapons of mass destruction WMD rivalries places the Bush Doctrine of preemption in historical context arguing that instability fueled by first strike incentives is an inherent byproduct of WMD proliferation **Iraq** Heather Bleaney, Roper, Peter Sluglett, 2004-06-01 Well considered answers to the many questions raised by the situation in Iraq past and present are rare This first comprehensive thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and or influential publications are conveniently highlighted in the introduction An indispensable gateway for all those with a more than superficial interest in what is and what has been happening in this nation so much the focus of attention today A Higher

Form of Killing Robert Harris, Jeremy Paxman, 2007-12-18 A Higher Form of Killing opens with the first devastating battlefield use of lethal gas in World War I and then investigates the stockpiling of biological weapons during World War II and in the decades afterward as well as the inhuman experiments conducted to test their effectiveness This updated edition includes a new Introduction and a new final chapter exposing frightening developments in recent years including the black market that emerged in chemical and biological weapons following the breakup of the Soviet Union the acquisition of these weapons by various Third World states the attempts of countries such as Iraq to build up arsenals and particularly and most recently the use of these weapons in terrorist attacks
