Dr Beeching's Axe 50 Years On Julian Holland, 2013-09-27 Julian Holland's Dr Beeching's Axe 50 Years On is a unique memorial to all that was lost following the publication of the Beeching Report on 27 March 1963 Uniquely the author has tried to include every railway line that was closed as a result of the Beeching Report and more They are all shown on Map 9 in Part 2 of the Report and have been annotated for clarity at the beginning of each regional chapter in the book Needless to say it is not plain sailing there are lines that were marked for closure on the maps but were closed before publication of the Report there are lines that were not originally on Beeching's original hit list but which were closed anyway there are lines that were originally marked down for closure but which were fortunately reprieved There are even one or two which seem to have not existed at all The author has included them all

Steam Trains Today Andrew Martin, 2021-04-29 A delightful book the perfect companion as you wait for the 8.10 from Hove Observer After the Beeching cuts of the 1960s many railways were gradually shut down Rural communities were isolated and steam trains slowly gave way to diesel and electric traction But some people were not prepared to let the romance of train travel die Thanks to their efforts many lines passed into community ownership and are now booming with

new armies of dedicated volunteers Andrew Martin meets these volunteer enthusiasts finding out just what it is about preserved railways that makes people so devoted From the inspiration for Thomas the Tank Engine to John Betjeman's battle against encroaching modernity *Steam Trains Today* will take you on a heart warming journey across Britain from Aviemore to Epping **Eastern Encounters: Canadian Women's Writing about the East, 1867-1929** Shoshannah Ganz

□,2017-04-17 *Eastern Encounters* releases early Canadian women writers from a simple focus on autobiography and racial politics and interrogates their specific and sophisticated Asian influences With a compelling reconstruction of historical context Ganz has created perhaps the first book in a much needed series that will revisit Canadian nationalism through the important cultural exchanges she examines Though shaped with an Asian readership in mind *Eastern Encounters* is an important work for all who wish to challenge the notion that Judeo Christian traditions almost exclusively shaped early Canadian discourse **Great Eastern Railway Magazine** London and North Eastern Railway,1917 [Beeching: 50 Years](#)

On Anthony Poulton-Smith,2013-02-01 In 1963 Dr Beeching's infamous report signalled the end for over 15 000 miles of track a third of Britain's stations and for 70 000 jobs as well as making irrevocable changes to the way of life of many consumers Much misery was caused and Beeching's name was muddied but in hindsight the report probably did more than any other single factor to preserve the nation's railway heritage Without the Beeching cuts much of the locomotives stock tracks signals and signs would have crumbled been forgotten or rotted However the gentle railway gradients lend themselves perfectly to walkways and cycle paths buildings have been refurbished memorabilia now commands prices at auction which would astonish those who painted the metal And of course the heritage lines continue to draw many thousands of visitors each year After the initial shock of the cuts this fresh appraisal considers these benefits and more which may not have come about without the Beeching Report **Eastern European Railways in Transition** Henry Jacolin,2016-04-29 During the nineteenth century railway lines spread rapidly across Europe linking the continent in ways unimaginable to previous generations By the beginning of the twentieth century the great cities of the continent were linked by a complex and extensive rail network Yet this high point of interconnectivity was abruptly cut off after 1945 as the Cold War built barriers both physical and ideological between east and west In this volume leading transport history scholars take a fresh look at this situation and the ramifications it had for Europe As well as addressing the parallel development of railways either side of the Iron Curtain the book looks at how transport links have been reconnected and reconfigured in the twenty years since the reunification of Europe In particular it focuses upon the former communist countries and how they have responded to the challenges and opportunities railways offer both nationally and internationally Including contributions from historians researchers policy makers representatives of railway companies and railway museum staff the essays in this collection touch upon a rich range of subjects Divided into four sections The Historical Overview Under Russian Protection After the Fall of the Iron Curtain and The Heritage of Railways in Eastern Europe the volume offers a broadly chronological introduction to

the issue that provides both a snap shot of current debates and a starting point for further research It concludes that in an era of increased globalisation and interconnectivity and despite the rise of air and road transport and virtual methods of communication railways still have a crucial role to play in the development of a prosperous and connected Europe

The Minor Railways of East Anglia Rob Shorland-Ball,2020-10-19 A look at the minor railways in eastern England that were once busy transport links and made vital contributions to the social and business heritage Rob Shorland Ball is a former teacher and a born storyteller and so is well aware of the strong local loyalties in East Anglia Norfolk Suffolk and Essex are considered to be very different separate and independent areas by their inhabitants When the author worked in Suffolk he explained that he came from Cambridge which he believed was the front door of East Anglia An elderly Suffolk man to whom he was speaking paused for a while and then said with unarguable finality Here in Suffolk if Cambridge exists at all it is a back door and rarely used By the 1950s and 60s when the author explored the minor railways illustrated in this book they were rarely used so needed to be recorded and their stories told before they were forgotten entirely To bring this book up to date the final section is called Destiny because some of the track beds have survived and flourished with new usage as restored heritage railways footpaths and cycleways and one route as a busy busway A nostalgic look back at long forgotten minor railways in East Anglia Highly recommended Branch Line Light Railway Publications Flyer A brief history of each of the lines together with maps and period photographs that make this an interesting read for those unfamiliar with the minor railways of East Anglia Great Eastern Railway Society Newsletter

British Railways 1948-73 T. R. Gourvish,N. Blake,1986 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board s extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948 2 Railway Executive 1948 53 and British Railways Board 1963 73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948 73 This business history thus represents a

Hartford's Ann Plato and the Native Borders of Identity Ron Welburn, 2015-04-21 Who was Ann Plato Apart from circumstantial evidence there is little information about the author of *Essays Including Biographies and Miscellaneous Pieces in Prose and Poetry* published in 1841 Plato lived in a milieu of colored Hartford Connecticut in the early nineteenth century Although long believed to have been African American herself she may also Ron Welburn argues have been American Indian like the father in her poem *The Natives of America* Combining literary criticism ethnohistory and social history Welburn uses Plato as an example of how Indians in the Long Island Sound region adapted and prevailed despite the contemporary rhetoric of Indian disappearance This study seeks to raise Plato's profile as an author as well as to highlight the dynamics of Indian resistance and isolation that have contributed to her enigmatic status as a literary figure **Steam Across the Regions**
