Tsetskhladze,2004-09-01 This new journal from Brill makes many important promises to all scholars interested in the cultures of the ancient Mediterranean and the Near East and the interactions between them By opening a regular avenue for cooperation and conversation among scholars from many disciplines and countries AWE has a real potential for fulfilling the promises it makes BMCR 2003 **Ancient Building in Cyprus** George R. H. Wright,1992 The wealth of excavation in Cyprus conducted across a period of nearly a century and a half has revealed much evidence of ancient building of all functional categories This picture extends over a vast range of time ca 10 000 years since Cyprus is probably the place where the earliest substantial building known the Neolithic round house style is better presented than anywhere else in the world It is the aim of this book to set forth and document the building tradition which hitherto has received no detailed exposition The book will fill several gaps in the library shelves at one and the same time architectural history that presents all the archaeological evidence *Greek Waters Pilot* Rod and Lucinda Heikell,2025-06-26 *Greek Waters Pilot* is the definitive cruising guide to the coasts and islands of Greece covering the entire area from the Ionian Islands to the Aegean Rhodes and Crete and includes details of over 450 harbours and anchorages in a single volume *Greek Waters Pilot* has been painstakingly compiled from Rod and Lucinda Heikell s own survey work and exploration over four decades as well as first hand information from their network of contributors The organisation of so much detail within the confines of a single volume is impressive This fifteenth edition has again been thoroughly updated to reflect developments and changes across the whole region Enriched with fascinating historical mythological and gastronomic information *Greek Waters Pilot* is an incomparable resource and companion for anyone planning to spend time in these endlessly enticing waters **Defense Mapping**

Wright,2022-11-07 The wealth of excavation in Cyprus conducted across a period of nearly a century and a half has revealed much evidence of ancient building of all functional categories Whereas the earlier excavation concerned mainly funerary and religious contexts more recent work has endeavoured to clarify the whole range of building in Cyprus This picture extends over a vast range of time ca 10 000 years since Cyprus is probably the place where the earliest substantial building known the Neolithic round house style is better presented than anywhere else in the world Certainly it was immeasurably longer lived in Cyprus than in any other region of

the ancient world This longevity of tradition became a proverbial aspect of the Cypriote character It is the aim of this book to set forth and document this building tradition which hitherto has received no detailed exposition After preliminary geographical and historical introductions the ancient building of Cyprus has been surveyed and analysed from the following view points its historical development its design its construction and its foreign connections Because of the extensive and detailed coverage every effort has been made to facilitate the use of the book equally as a treatise and as a work of instant reference e g by way of introductory pr cis list of general references running titles to pages and marginal rubrics The book is also virtually a double treatment of the subject since a separate volume contains specially drawn illustrations arranged with captions on the facing pages which themselves constitute an incisive coverage of the subject matter The book will fill several gaps in the library shelves at one and the same time architectural history that presents all the archaeological evidence The print edition is available as a set of two volumes 9789004095472 *Defense Mapping Agency Public Sale Nautical Charts and Publications* United States.
