Macpherson, 1995-09-14 Concise overview of Japanese economic history between 1868 and 1941 with a comprehensive guide to further reading now updated to 1994 [Economic Development of China and Japan](#) C.D. Cowan, 2013-10-15 First published in 2005 Some of the most important of the world's problems today concern affairs in Asia and the relations between Asia and the West To deal adequately with these problems it is necessary not only to master their more obvious elements as they present themselves today but to go to their historical roots In particular it is necessary to study the economic history of modern Asian society In London the School of Oriental and African Studies with the generous assistance of the Ford Foundation began in 1959 a research programme on the economic history of East and South East Asia As part of this programme an international study group composed of scholars from America Europe and Asia was held at the School in July 1961 This volume contains a selection of the papers presented to the study group *The Economic Development of Japan* William Wirt Lockwood, 1954 [Economic Development of Japan](#) William Wirt Lockwood, 2015-12-08 The rise of Japan from agrarianism to a position as one of the leading industrial powers is one of the most dramatic and meaningful phenomena in economic history Professor Lockwood assistant director of the Woodrow Wilson School of Public and International Affairs of Princeton University lucidly describes this astonishing transformation analyzes the factors involved capital technology foreign trade the role of the state etc and discusses the consequences Originally published in 1954 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Japan 1868-1945* Takao Matsumura, John Benson, 2014-09-25 The history of Imperial Japan from the Meiji Restoration through to defeat and occupation at the end of the Second World War is central to any understanding of the way in which modern Japan has developed and will continue to develop in the future This wide ranging accessible and up to date interpretation of Japanese history between 1868 and 1945 provides both a narrative and analysis Describing the major changes that took place in Japanese political economic and social life during this period it challenges widely held views about the uniqueness of Japanese history and the homogeneity of Japanese society **Pacific Affairs**, 1955 Includes book reviews and bibliographies **Asia's Miracle Economies** Jon Woronoff, 2016-09-16 An expanded and updated edition of Woronoff's 1986 study of Asia's emerging economic giants this book looks back at what has happened in the intervening years especially as regards the discovery of this phenomenon in the Western media and the overreactive hype that has accompanied it As the author puts it My purpose is to show how these countries which hitherto has been quite unremarkable began to develop vigorously What policies and strategies they used

What they did right and even more importantly what they did wrong **The Interwar Economy of Japan** Michael Smitka,1998 This volume traces the modern critical and performance history of this play one of Shakespeare s most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory Princeton Alumni Weekly ,1964 The Politics of the Asian Economic Crisis T. J. Pempel,2018-09-05 In the summer of 1997 a tidal wave of economic problems swept across Asia Currencies plummeted banks failed GNP stagnated unemployment soared and exports stalled In short the vaunted Asian Economic Miracle became the Asian Economic Crisis with serious repercussions for nations and markets around the world While the headlines are still fresh a group of experts on the region presents the first account to focus on the political causes and implications of the crisis The events of 1997 98 involved not just property values financial flows portfolio makeup and debt ratios they argue but also the power relationships that shaped those economic indicators As they examine the domestic regional and international politics that underlay the economic collapse the authors analyze the reasons why the crisis affected the nations of Asia in radically different ways The authors also consider whether the crisis indicates a radical change in Asia s economic future **Industrial Development in Pre-Communist China** John Chang,2017-07-05 The Chinese economy has been the subject of substantial research in recent years in the United States and abroad Much has been made of significant strides toward industrial development since the Communist takeover But it is impossible to understand what has been achieved unless one measures these gains against economic events in the pre Communist period This book offers a record of China s industrialization with its comprehensive statistical analysis of the industrial growth of pre Communist China Industrial Development in Pre Communist China covers the period from 1912 to 1949 and deals with all of China irrespective of changes in political boundaries For purposes of this study industrial production includes mining metallurgy manufacturing and fuel and power the construction industry is not included Chang finds that the average annual rate of growth of the modern industrial sector during the pre World War I period was about 8 or 9 percent including Manchuria During the period from 1928 to 1936 under the Nanking Government political unification was achieved Peace and order were maintained and the necessary foundations for economic transformation in the post World War II period were established At the time of its original publication in 1969 Chang s work represented an important first step toward a comprehensive quantitative study of the history of China s industrialization and a benchmark against which the Communist achievement can be measured this work forces reconsideration of widely held views on China s economic and industrial development An important reference for the study of Chinese history and economics especially for the Republican period Chang s work is of continuing value to all Sinologists and to specialists in economic development and economic history **How Asia Works** Joe Studwell,2013-07-02 A good read for anyone who wants to understand what actually determines whether a developing economy will succeed Bill Gates Top 5 Books of the Year An Economist Best Book of the Year from a reporter who has spent two decades in the region and who the Financial Times

said should be named chief myth buster for Asian business In *How Asia Works* Joe Studwell distills his extensive research into the economies of nine countries Japan South Korea Taiwan Indonesia Malaysia Thailand the Philippines Vietnam and China into an accessible readable narrative that debunks Western misconceptions shows what really happened in Asia and why and for once makes clear why some countries have boomed while others have languished Studwell s in depth analysis focuses on three main areas land policy manufacturing and finance Land reform has been essential to the success of Asian economies giving a kick start to development by utilizing a large workforce and providing capital for growth With manufacturing industrial development alone is not sufficient Studwell argues Instead countries need export discipline a government that forces companies to compete on the global scale And in finance effective regulation is essential for fostering and sustaining growth To explore all of these subjects Studwell journeys far and wide drawing on fascinating examples from a Philippine sugar baron s stifling of reform to the explosive growth at a Korean steel mill Provocative *How Asia Works* is a striking and enlightening book A lively mix of scholarship reporting and polemic *The Economist* **The Pacific in the Age of Early Industrialization** Kenneth Pomeranz,2017-05-15 The essays selected for this volume show how the Pacific rapidly became part of an industrializing world Its raw materials notably rubber and copper were critical some of its handicraft industries were devastated by mechanized competition others survived and adapted contributing to distinctive patterns of industrialization that made Japan a new center of power and also laid the groundwork for later growth in Taiwan Korea and coastal China The Pacific coast of the Americas was also first drawn into an industrial world largely as an exporter of raw materials but North and South diverged rapidly portending futures even more different than those of Northeast and Southeast Asia By the 1930s when the uneven effects of industrialization would have much to do with plunging the Pacific into war one can already glimpse in outline the structural bases for many of the region s contemporary characteristics All this is set in context in the important introduction by Kenneth Pomeranz **A Companion to Asian American Studies** Kent A. Ono,2008-04-15 *A Companion to Asian American Studies* is comprised of 20 previously published essays that have played an important historical role in the conceptualization of Asian American studies as a field Essays are drawn from international publications from the 1970s to the present Includes coverage of psychology history literature feminism sexuality identity politics cyberspace pop culture queerness hybridity and diasporic consciousness Features a useful introduction by the editor reviewing the selections and outlining future possibilities for the field Can be used alongside *Asian American Studies After Critical Mass* edited by Kent A Ono for a complete reference to Asian American Studies *Changing Pacific Forests* John Dargavel,Richard P. Tucker,1992 *Changing Pacific Forests* examines the forest related economy of the Pacific Basin including Japan Malaysia New Zealand China and the Philippines from a historical perspective Drawing on a 1991 conference sponsored by the Forest History Society and the International Union of Forestry Research Organizations held in Honolulu these papers address a range of topics related to the changing Pacific forests including the remnants of colonialism the

emergence of the Third World people and resources caught in the middle of policy decisions land management national forests and subsistence use of the forest by indigenous peoples Essays also explore macroeconomic theories of international trade and the interests of the United States and the former Soviet Union in the economic health of the region Changing Pacific Forests will be of interest to scholars of the economy and environment of the Pacific Basin as well as of land management and the history of land use in general Contributors Charles S Backman Thomas R Cox John Dargavel Elizabeth Flint Lim Hin Fui G R Henning Kenneth E Jackson Hiroaki Kakizawa Nicholas K Menzies Andrew Price John F Richards Jr M M Roche I Gustin M Tantra Conrad Totman Richard P Tucker Thomas R Waggener The Japan-British Exhibition of 1910
