Pons, 2020-06-27 This book analyses the main historical turning points in the Spanish economy and the related challenges it faced It focuses on six turning points that changed the direction of the Spanish economy and identifies the economic social or political origin of these watersheds It also compares the Spanish trajectory with the international one exploring the macroeconomic context in which these turning points happened as well as the external and internal constraints on domestic political choices for a small country like Spain The book focuses on how Spain faced up to each turning point the reforms that were implemented the differences between the Spanish response and that of other countries the results of the policies enacted and what problems were not tackled This is an interesting and unique perspective as most of the turning points in economic history are generally studied from the viewpoint of core countries such as the UK US or Germany The ultimate objective is to learn useful lessons from Spanish economic history in order to better face future turning points

The Development of Modern Spain Gabriel Tortella Casares, 2000 This reinterpretation of the history of modern Spain from the Enlightenment to the threshold of the twenty first century explains the surprising changes that took Spain from a backward and impoverished nation with decades of stagnation civil disorder and military rule to one of the ten most developed economies in the world The culmination of twenty years work by the dean of economic history in Spain founder of the Revista de Historia Económica and recipient of the Premio Rey Juan Carlos Spain's highest honor for an academic the book is rigorously analytical and quantitative but eminently accessible It reveals views and approaches little explored until now showing how the main stages of Spanish political history have been largely determined by economic developments and by a seldom mentioned factor human capital formation It is comparative throughout and concludes by applying the lessons of Spanish history to the plight of today's developing nations

Spain, Europe, and the 'Spanish Miracle', 1700-1900 David R. Ringrose,1998-11-26 A challenging re examination of Spanish history questioning orthodoxies about Spain s economy and society Spain Joseph Harrison,David Corkill,2016-03-09 Perhaps more than any other European country Spain has undergone a remarkable transformation in the post war period To the surprise of many it has succeeded in making the leap from a predominantly agricultural and politically repressed country to a modern European democracy with a diversified economy containing important manufacturing and service sectors Yet despite the fact that at the beginning of the twenty first century Spain is the world s eighth largest economy old stereotypes that see the Iberian nation as an inflexible unchanging society persist As such scholars will welcome this new study which challenges the picaresque and outdated notions of Spanish economic development replacing them with a picture of rapid and profound modernization Building upon the recent work of historians and economists the authors provide a thoughtful and compelling overview of the subject that clearly elucidates both the positive and negative aspects of modern Spanish development Thus as well as charting the undoubted successes achieved persistent problems most notably high unemployment are also explored Written in a straightforward and engaging manner this book engages with research from a wide variety of disciplines and will be of interest to anyone with a specific interest in modern Spain or a wider interest in economic development within the framework of the European Union *Economic Development of Spain* World Bank Publications,World Bank Staff,1963-01-01 **The Economic Development of Spain, Report of a Mission Organized by the International Bank for Reconstruction and Development at the Request of the Government of Spain** ,1963 The Economic Development of Spain Banque internationale pour la reconstruction et le développement,1963 **The Economic Development of Modern Europe Since 1870** ,1993
