Diss. Phil.-hist. Basel 1957 Arthur Gerstner-Hirzel, 1957      **Shakespeare's Poetics** Ekbert Faas, 1986-01-30 This book tackles the topic of how Shakespeare viewed his own craft and creativity      **Shakespeare Survey** Allardyce Nicoll, 2002-11-28 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback      The Drama of Speech Acts Joseph A. Porter, 2023-11-15 This study delves into the role of language and speech in Shakespeare's Lancastrian tetralogy Richard II 1 Henry IV 2 Henry IV and Henry V It aims to provide an integrated analysis of how language is conceived and utilized across these plays exploring both thematic and dramaturgical elements The discussion challenges the notion of the tetralogy's disunity presenting evidence for its aesthetic cohesion despite initial objections based on Shakespeare's evolving vision for the plays The study adopts a dual approach balancing the unity of the tetralogy with the integrity of each individual play supported by a comprehensive methodology that combines linguistic philosophy particularly the concept of speech acts developed by J L Austin In analyzing the plays the study introduces three key metaphors to frame the exploration of language's evolution in the tetralogy the shift from the Middle Ages to the Renaissance the story of the Tower of Babel and the Biblical Fall These metaphors help articulate the moral and linguistic transformations seen in the characters especially in their use of speech to assert authority control and identity Austin's speech act theory provides a foundational framework for examining how utterances in these plays are more than just verbal expressions but are active forces shaping the narrative and characters relationships Through this lens the study not only reflects on Shakespeare's manipulation of language but also on its

dramatic function in creating meaning and action within the play's political and social contexts This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1979

*Aspects of Book Culture in Early Modern England* T.A. Birrell, edited by Jos Blom, 2024-08-01 Thomas Anthony Birrell 1924-2011 was a man of many parts For most of his working life he was Professor of English Literature in the University of Nijmegen The Netherlands where he was famous for his lively humoristic and thought provoking lectures He was the author of some very popular literary surveys in Dutch one of which a history of English literature has had seven editions so far However first and foremost he was a bibliographer and a book historian The present collection contains fifteen of his book historical articles two reviews and one published version of a lecture for the illustrious Association Internationale de Bibliophilie The lecture with a wealth of illustrations about the British Library as the Custodian of the Unique gives one a sense of Birrell's ability to present an audience with a complicated topic in comprehensible but not simplified terms The reviews serve as a statement of principle of how to tackle the subject of English readers and books and the standards that ought to apply The articles demonstrate Tom Birrell's in depth knowledge dedication and scholarship He once said that he felt that he could have talked to the 17th century London booksellers on an equal footing and his work convinces one that they would have enjoyed these conversations *Aspects of Book Culture* was edited by Birrell's former pupil colleague friend and fellow bibliographer Jos Blom

*Onstage and Offstage Worlds in Shakespeare's Plays* Anthony Brennan, 2021-03-30 Originally published in 1989 this book focuses on the handling of the relationship between the onstage world and the offstage world between the world that Shakespeare shows us and the one he tells us about It is developed in two parts Initially examined is the way reports are used in Shakespeare to relate the offstage and onstage worlds building from simple examples within individual scenes in various plays to related sequences of reports which can be evaluated as part of broader strategies effecting the structure of a whole play In the second part the author examines the ways in which several or all of these strategies work in individual plays and what combined effect the prominent employment of them has in shaping the effect of the plays In all cases the author is concerned to indicate why Shakespeare chose to handle matters as he does rather than in other ways available in the sources or in the speculative alternative methods which can be imaginatively constructed
