Autonomy, Accountability and Social Justice Amanda Keddie, Martin Mills, 2019-04-10 Autonomy Accountability and Social Justice provides an account of recent developments in English state education with a particular focus on the academisation of schooling It examines how head teachers teachers and others working in diverse education settings navigate the current policy environment The authors provide readers with insight into the complex decision making processes that shape school responses to current educational agendas and examine the social justice implications of these responses The book draws on Nancy Fraser s social justice framework and her theorising of neoliberalism to explore current tensions associated with moves towards both greater autonomy for and accountability of state schooling These tensions are presented through four case studies that centre upon 1 a group of local authority primary schools 2 an academy chain 3 a co operative secondary school and 4 an alternative education setting The book identifies the emancipatory possibilities of these approaches amid the complex demands of autonomy and accountability seizing English schools Informed by a consideration of market parameters and social protectionist ideals this examination provides rich insights into how English schools have emancipatory capacity Autonomy Accountability and Social Justice makes a major theoretical contribution to understandings of how the market is working alongside the regulation of schooling and the implications of this for social justice By drawing on the experiences of those working in schools it demonstrates that the tensions associated with autonomy and accountability within the current education policy environment can be both productive and unproductive for social justice
