The Elements of Economic Destruction Richard James,1995 **Rockefellerocracy** Richard James DeSocio,2013-04-08

Rockefellerocracy Kennedy Assassinations Watergate and Monopoly of the Philanthropic Foundations is a portal to a universe of political and economic supremacy revealing links to the crimes of the century Kennedy had a dream for the nation but Nelson Rockefeller a ruthless megalomaniac had his own selfish scheme to become president After a ten year long course of wrongdoing to steal American democracy his nomination to the vice presidency by President Gerald Ford was not the hand of fate Congressman Ford had served as an integral part of the Warren Commission whitewash The two men formed the first administration not elected by the people This release coincides with the fiftieth anniversary of the JFK assassination that infamous weekend in November of 1963 that author Richard James DeSocio remembers well He even witnessed Jack Ruby execute Lee Harvey Oswald in front of a live TV audience Originally searching for answers to satisfy his own curiosity that led to twenty five years of painstaking research the author has unraveled the dark mystery that baffled a nation for half a century The verdict is radically different from the official version **America Inc. - The Rise and Fall of a Civil**

Democracy Keith Edmonds,2010-01-01 The book outlines the eradication of democratic freedoms and the emptiness that pervades postmodern existence combining psychodynamic theories of human behaviour with the politics of consumption The stark contrast between a representative democracy and our current form of governance is highlighted throughout the book as corporations have become remarkably adept at creating needs perceived needs by convincing consumers that self fulfilment resides in the purchase of the latest Lexus iPod Blackberry antidepressant or diet plan The reader will gain an appreciable understanding of the forces that shape our behaviour and the inadequacy of a democratic institution based on the promotion of special interests and the empty promises of political talking heads *Handbook of Caribbean Economies* Robert E. Politics Harlan M. C. Field, 2012-07-10 In this book Harlan Field boldly asks modern Americans to leave behind their old politics which have placed America's greatness in jeopardy and exhorts us to pursue a new political strategy that will assure America's great tradition for its future generations As we enter a new millennium Harlan observes we stand poised to discard the crowning achievement of the last thousand years the modern Nation State The only known entity that is capable of preserving Freedom and opportunity for the individual justice for the masses a healthy environment a stable society and a vibrant economy is falling victim to the seemingly invincible juggernaut of Globalism The five cardinal prerogatives of a free people are all being surrendered with little debate and even less thought The rights of a sovereign people to formulate their own independent foreign policy to raise and command a national army to admit or exclude aliens to levy tariffs on goods of foreign manufacture and to coin their own money are under attack all over the world through such peculiar pretenders to legitimacy as the North American Free Trade Agreement NAFTA the General Agreement on Tariffs and Trade GATT and the European Union E U We no longer can even remember what makes a group of people into a nation A common culture a common heritage a common language shared goals shared sacrifice shared progress This book is a must read for our politicians on the left and on the right lest because of party politics America is made to give into a secondary role on the world stage of ruthless politics and demagoguery *Canadian Textile Journal* ,1926
