The Eloquence Of Frederick Jackson Turner:

The Eloquence of Frederick Jackson Turner Ronald H. Carpenter, 1996-12-12 *Eloquence of Frederick Jackson Turner* Ronald H. Carpenter, 1983 In reading history people often form attitudes which affect their future actions Historians thus have the opportunity to persuade and influence a wide audience Frederick Jackson Turner was particularly persuasive largely because of his eloquent style This study of Turner s rhetoric reveals the ways in which he influenced a broad spectrum of Americans and the means by which he did so Letters to Turner to his family and other primary source material are analyzed and his oratorical career is also described in detail from his high school experiences to his univ activities The influence of Robert M La Follette is treated in some detail Examples of Turner s oratory includes *The Power of the Press*

The Eloquence of Frederick Jackson Turner Ronald H. Carpenter, 1983 **Frederick Jackson Turner** Martin Ridge, 2016-02-26 This book contains four essays by and about Frederick Jackson Turner 1861 1932 the Wisconsin born historian whose ideas and writings have had such a profound impact upon the way Americans view their past and their place in the world It is a book not only for the scholar and teacher who will find it both useful and incisive but also for the mythic general reader who wants to broaden and enrich his acquaintanceship with Turner and the celebrated Frontier Thesis In addition to essays by Turner and by Martin Ridge of The Huntington Library and the late Ray Allen Billington the book is illustrated with photos from the State Historical Society of Wisconsin *Frontiers of Historical Imagination* Kerwin Lee Klein, 2023-11-15 The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists and literary critics have understood the story of America s origin and the way those understandings have shaped and been shaped by changing conceptions of history The American West was once the frontier space where migrating Europe collided with Native America where the historical civilizations of the Old World met the nonhistorical wilds of the New It was not only the cultural combat zone where American democracy was forged but also the ragged edge of History itself where historical and nonhistorical defied and defined each other Klein maintains that the idea of a collision between people with and without history still dominates public memory But the collision he believes resounds even more powerfully in the historical imagination which creates conflicts between narration and knowledge and carries them into the language used to describe the American frontier In Klein s words We remain obscurely entangled in philosophies of history we no longer profess and the very idea of America balances on history s shifting frontiers The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein s analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropol *The Sower and the Seer* Joseph Hogan, Jon Lauck, Paul Murphy, Andrew Seal, Gleaves Whitney, 2021-02-17 This collection of twenty two essays a product of recent revivals of interest in both Midwestern history and intellectual history argues for the contributions of

interior thinkers and ideas in forming an American identity The Midwest has been characterized as a fertile seedbed for the germination of great thinkers but a wasteland for their further growth The Sower and the Seer reveals that representation to be false In fact the region has sustained many innovative minds and been the locus of extraordinary intellectualism It has also been the site of shifting interpretations to some a frontier to others a colonized space a breadbasket a crossroads a heartland As agrarian reformed and Michigander Liberty Hyde Bailey expressed in his 1916 poem Sower and Seer the Midwestern landscape has given rise to significant visionaries just as their knowledge has nourished and shaped the region The essays gathered for this collection examine individual thinkers writers and leaders as well as movements and ideas that shaped the Midwest including rural school consolidation women s literary societies Progressive era urban planning and Midwestern radical liberalism While disparate in subject and style these essays taken together establish the irrefutable significance of the intellectual history of the American Midwest

The 20th Century O-Z Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography

The ^APolitics of Consolation Christina Simko, 2015-07-28 What meaning can be found in calamity and suffering The Politics of Consolation examines how American political leaders have addressed this question tracing the history of American political consolation and examining how this long tradition framed the events of September 11 2001

Marriage, Violence and the Nation in the American Literary West William R. Handley, 2002-08-15 In Marriage Violence and the Nation in the American Literary West William R Handley examines literary interpretations of the Western American past Handley argues that although scholarship provides a narrative of western history that counters optimistic story of frontier individualism by focusing on the victims of conquest twentieth century American fiction tells a different story of intra ethnic violence surrounding marriages and families He examines works of historiography as well as writing by Zane Grey Willa Cather Wallace Stegner and Joan Didion among others to argue that these works highlight white Americans anxiety about what happens to American character when domestic enemies such as Indians and Mormon polygamists against whom the nation had defined itself in the nineteenth century no longer threaten its homes Handley explains that once its enemies are gone imperialism brings violence home in retrospective narratives that allegorise national pasts and futures through intimate relationships

Discourse and Culture Alun Munslow, 2013-04-03 Written history is literary artifact taking this as its starting point Discourse and Culture argues that the Foucauldian concept of the shifting scale of linguistic and historic values must be the central focus for a new interpretation of American culture and ideology Six major American

historical figures are evaluated as products of the conflict between subordinate and dominant influences in American society
 steelmaster Andrew Carnegie labour leader Terence V Powderly historian of the West Frederick J Turner social
 reconstructionist Jane Addams race leader Booker T Washington and black nationalist W E B du Bois
 Discourse and Culture re assesses the relationship between ideology and cultural formation by asking if cultural change can be explained as a
 function of discourse The book draws upon the ideas of Althusser Gramsci and Hayden to address this issue which lies at the
 very heart of contemporary debate on the character of cultural history *Metaphorical Conceptualizations* Ulrike
 Schröder, Milene Mendes de Oliveira, Adriana Maria Tenuta, 2022-03-07 The book deals with the important shift that has been
 heralded in cognitive linguistics from mere universal matters to cultural and situational variation The discussions examine
 cognitive and cultural linguistics theories in relation to the following areas of research i metaphorical conceptualization ii the
 influence of culture on metaphor metonymy and conceptual blends iii the impact of culture and cognition on metaphorical
 lexis iv the interface of pragmatics and cognition when metaphor is studied in situ that is in face to face as well as in virtual
 multimodal interaction v the application of insights from metaphorical conceptualizations to language teaching and vi recent
 methods for revealing inter cultural metaphorical conceptualizations corpus based approaches gesture studies etc The book
 brings together cognitive functional and inter cultural approaches *Rhetoric in Martial Deliberations and Decision Making*
 Ronald H. Carpenter, 2004 In this study of the discourse involved in martial deliberations Ronald H Carpenter examines the
 rhetoric employed by naval and military commanders as they recommend specific tactics and strategies to peers as well as
 presidents Drawing on ideas of rhetorical thinking from Aristotle to Kenneth Burke Carpenter identifies two concepts of
 particular importance to the military decision making process prudence and the representative anecdote **The**

 Perez, 2019-07-23 A lifetime of cinematic writing culminates in this breathtaking statement on film's unique ability to move us

Cinema is commonly hailed as the universal language but how does it communicate so effortlessly across cultural and linguistic borders In *The Eloquent Screen* influential film critic Gilberto Perez makes a capstone statement on the powerful ways in which film acts on our minds and senses Drawing on a lifetime's worth of viewing and re-viewing Perez invokes a dizzying array of masters past and present including Chaplin Ford Kiarostami Eisenstein Malick Mizoguchi Haneke Hitchcock and Godard to explore the transaction between filmmaker and audience He begins by explaining how film fits into the rhetorical tradition of persuasion and argumentation Next Perez explores how film embodies the central tropes of rhetoric metaphor metonymy allegory and synecdoche and concludes with a thrilling account of cinema's spectacular capacity to create relationships of identification with its audiences Although there have been several attempts to develop a poetics of film there has been no sustained attempt to set forth a rhetoric of film one that bridges aesthetics and audience Grasping that challenge *The Eloquent Screen* shows how cinema as the consummate contemporary art form establishes a thoroughly modern rhetoric in which different points of view are brought into clear focus

Small-Town Dreams John E. Miller, 2014-03-28 We live these days in a virtual nation of cities and celebrities dreaming a small town America rendered ever stranger by purveyors of nostalgia and dark visionaries from Sherwood Anderson to David Lynch And yet it is the small town that world of local character and neighborhood lore that dreamed the America we know today and the small town boy like those whose stories this book tells who made it real In these life stories beginning in 1890 with frontier historian Frederick Jackson Turner and moving up to the present with global shopkeeper Sam Walton a history of middle America unfolds as entrepreneurs and teachers like Henry Ford George Washington Carver and Walt Disney artists and entertainers like Thomas Hart Benton Grant Wood Carl Sandburg and Johnny Carson political figures like William McKinley William Jennings Bryan and Ronald Reagan and athletes like Bob Feller and John Wooden by turns engender and illustrate the extraordinary cultural shifts that have transformed the Midwest and through the Midwest the nation and the world Many of these men are familiar icons even Ford and Reagan certainly Ernie Pyle Sinclair Lewis James Dean and Lawrence Welk and others like artists Oscar Micheaux and John Steuart Curry economist Alvin Hansen and composer Meredith Willson less so But in their stories as John E Miller tells them all appear in a new light unique in their backgrounds and accomplishments united only in the way their lives reveal the persisting shaping power of place and particularly the Midwest on the cultural imagination and national consciousness In a thoroughly engaging style Miller introduces us to the small town Midwestern boys who became these all American characters privileging us with insights that pierce the public images of politicians and businessmen thinkers and entertainers alike From the smell of the farm the sounds and silences of hamlets and county seats the schoolyard athletics and classroom instruction and theatrical performance we follow these men to their moments of inspiration innovation and fame observing the workings of the small town past in their very different relationships with the larger world Their stories reveal in an intimate way how profoundly childhood experiences shape personal identity and how

deeply place figures in the mapping of thought belief ambition and life s course *Neo-race Realities in the Obama Era* Heather E. Harris,2019-05-01 Neo race Realities in the Obama Era expands the discourse about Barack Obama s two terms as president by reflecting upon the impact of neo racism during his tenure Continually in conversation with tienne Balibar s conceptualization of neo racism as being racism without race the contributors examine how identities become the target of neo racist discriminatory practices and policies in the United States Individual chapters explore how President Obama s multiple and intersecting identities beyond the racial binaries of Black and White were perceived as well as how his presence impacted certain marginalized groups in our society as a result of his administration s policies Evidencing the hegemonic complexity of neo racism in the United States the contributors illustrate how the mythic post race society that many wished for on election night in 2008 was deferred in order to return to the uncomfortable comfort zone of the way America used to be **German Expansionism, Imperial Liberalism and the United States, 1776-1945** Jens-Uwe Guettel,2012-12-17

This book traces the importance of the United States for German colonialism from the late eighteenth century to 1945 focusing on American westward expansion and racial politics Jens Uwe Guettel argues that from the late eighteenth century onward ideas of colonial expansion played a very important role in liberal enlightened and progressive circles in Germany which in turn looked across the Atlantic to the liberal democratic United States for inspiration and concrete examples Yet following a pre 1914 peak of liberal political influence on the administration and governance of Germany s colonies the expansionist ideas embraced by Germany s far right after the country s defeat in the First World War had little or no connection with the German Empire s liberal imperialist tradition for example Nazi plans for the settlement of conquered Eastern European territories were not directly linked to pre 1914 transatlantic exchanges concerning race and expansionism

The Culture of Wilderness Frieda Knobloch,2000-11-09 In this innovative work of cultural and technological history Frieda Knobloch describes how agriculture functioned as a colonizing force in the American West between 1862 and 1945 Using agricultural textbooks USDA documents and historical accounts of western settlement she explores the implications of the premise that civilization progresses by bringing agriculture to wilderness Her analysis is the first to place the trans Mississippi West in the broad context of European and classical Roman agricultural history Knobloch shows how western land plants animals and people were subjugated in the name of cultivation and improvement Illuminating the cultural significance of plows livestock trees grasses and even weeds she demonstrates that discourse about agriculture portrays civilization as the emergence of a colonial socially stratified and bureaucratic culture from a primitive feminine and unruly wilderness Specifically Knobloch highlights the displacement of women from their historical role as food gatherers and producers and reveals how Native American land use patterns functioned as a form of cultural resistance Describing the professionalization of knowledge Knobloch concludes that both social and biological diversity have suffered as a result of agricultural progress *On the Frontier of Science* Leah Ceccarelli,2013-11-01 The frontier of science is a metaphor that

has become ubiquitous in American rhetoric from its first appearance in the public address of early twentieth century American intellectuals and politicians who aligned a mythic national identity with scientific research to its more recent use in scientists arguments in favor of increased research funding Here Leah Ceccarelli explores what is selected and what is deflected when this metaphor is deployed its effects on those who use it and what rhetorical moves are made by those who try to counter its appeal In her research Ceccarelli discovers that the frontier of science evokes a scientist who is typically male a risk taker an adventurous loner someone separated from a public that both envies and distrusts him with a manifest destiny to penetrate the unknown It conjures a competitive desire to claim the riches of a new territory before others can do the same Closely reading the public address of scientists and politicians and the reception of their audiences this book shows how the frontier of science metaphor constrains American speakers helping to guide the ends of scientific research in particular ways and sometimes blocking scientists from attaining the very goals they set out to achieve Writing Violence on the Northern Frontier José Rabasa, 2000 Explores the representations of violence in colonial Nuevo Mexico as seen in history and fiction literature of the period
