The Emergent Native Americans Deward E. Walker (Jr.),1972      *Inventing the American Primitive* Helen Carr,1996-07  
Inventing the American Primitive examines a body of work both literary and anthropological that describes inscribes translates and transforms Native American myths and poetry Drawing on post colonial and feminist theory as well as ethnography s recent textual turn Carr reveals the conflicts and ambivalence in these texts Through their writings the writers and anthropologists studied were attempting to preserve a culture which their country with their help or connivance sought to destroy The contradictions and tensions of this position run throughout their work Although there is no simple narrative of progress in this story as it moves from the eighteenth century primitivism to twentieth century modernism the book shows the process by which the richness and complexity of Native American traditions came to be acknowledged

**Reading Asian American Literature** Sau-ling Cynthia Wong,1993-07-12 A recent explosion of publishing activity by a

wide range of talented writers has placed Asian American literature in the limelight. As the field of Asian American literary studies gains increasing recognition, however, questions of misreading and appropriation inevitably arise. How is the growing body of Asian American works to be read? What holds them together to constitute a tradition? What distinguishes this tradition from the mainstream canon and other minority literatures? In the first comprehensive book on Asian American literature since Elaine Kim's ground-breaking 1982 volume *Sau ling Wong* addresses these issues and explores their implications for the multiculturalist agenda. Wong does so by establishing the intertextuality of Asian American literature through the study of four motifs: food and eating, the Doppelgänger figure, mobility and play in their multiple sociohistorical contexts. Occurring across ethnic subgroup, gender, class, generational and historical boundaries, these motifs resonate with each other in distinctly Asian American patterns that universalistic theories cannot uncover. Two rhetorical figures from Maxine Hong Kingston's *The Woman Warrior*, *Necessity* and *Extravagance*, further unify this original, wide-ranging investigation. Authors studied include Carlos Bulosan, Frank Chin, Ashley Sheun Dunn, David Henry Hwang, Lonny Kaneko, Maxine Hong Kingston, Joy Kogawa, David Wong Louie, Darrell Lum, Wing Tek Lum, Toshio Mori, Bharati Mukherjee, Fae Myenne Ng, Bienvenido Santos, Monica Sone, Amy Tan, Yoshiko Uchida, Shawn Wong, Hisaye Yamamoto, and Wakako Yamauchi. *Native Nations* Nancy Bonvillian, 2024-03-27. Combining historical background with discussion of contemporary Native nations and their living cultures, this comprehensive text introduces students to the many Indigenous peoples in North America. Organized by region to highlight cultural practices, each part covers the topography, climate, and natural resources in the area and describes the range of cultural practices and beliefs among groups. Subsequent tribe-specific chapters are devoted to different Native communities, addressing both their history and contemporary lives. New to the Third Edition: New Chapter 26, *Contemporary Challenges*, explores the issues facing Native communities today, including environmental crises, voting rights, residential school investigations. New Chapter 27, *The Arts: Pop Culture and Representation*, examines contemporary Indigenous writers, musicians, and film makers, as well as the challenges Indigenous peoples face with misrepresentation. Fully revised art program with a wealth of images and maps explores different Native cultures. Updated statistics on social and economic data, as well as demographic profiles. Resources in Education, 2001-04. **Managing Cultural Differences** Robert T. Moran, 2007-06-07. This new edition of a business textbook bestseller has been completely updated to reflect the numerous global changes that have occurred since 1999: globalization, SARS, AIDS, the handover of Hong Kong, and so forth. In particular, the book presents a fuller discussion of global business today. Also, issues of terrorism and state security as they affect culture and business are discussed substantially. The structure and content of the book remains the same, with thorough updating of the plentiful region and country descriptions, demographic data, graphs, and maps. This book differs from textbooks on International Management because it zeroes in on culture as the crucial dimension and educates students about the cultures around the world so they will be better prepared to work successfully for a multinational corporation or in a global context.
