*The Way of the Cross* Julius Bautista, 2019-09-30 Every year during Holy Week in the Philippine province of Pampanga hundreds of men and women undergo acts of excruciating self-inflicted pain in ways that evoke the Way of the Cross the torment and crucifixion that Christ endured in the last days of his earthly existence Because these Passion rituals are officially disavowed by the Filipino Roman Catholic Church most observers view them as irrational and extremist mimicry of Christ's painful ordeal Even scholars conventionally depict them as theatrical spectacle or macabre examples of Filipino folk religion But what conditions enable ritual actors to submit to such extreme pain What justifications do they give for going against official prohibitions What outcomes do they seek in channeling Christian piety in this way This book addresses these questions through its in-depth analyses of three interconnected ritual acts the *pabasa* a days-long communal chanting of Christ's Passion story the *pagdaramé* the public self-flagellation of hundreds of devotees and the *pamamaku* *king krus* in which steel nails are driven through the palms and feet of ritual practitioners as part of a street play performed in front of tens of thousands of spectators Author Julius Bautista suggests that such ritual acts manifest the embodied physicality of a suffering selfhood that facilitates the expression of heartfelt sentiments of pity empathy trust and bereavement By emphasizing these outwardly focused human sensibilities as the wellsprings of ritual agency he demonstrates that Passion rituals are reinterpretations of the very idea and experience of pain hardship and suffering and premised on an appeal for a certain kind of divine intimacy The author draws on a decade of in-depth and often exclusive interviews with a host of local stakeholders including ritual practitioners clerics scholars and government officials and his own participation in a Passion

play Ethnographic insight is considered alongside primary and secondary archival sources including unpublished locally produced oral historical accounts and a survey of relevant media coverage The Way of the Cross makes a welcome contribution to the anthropology of religion by examining the unique ontological contexts in which ritual agents experience God's involvement in their lives *Empathy* Joseph D. Gibson, 2024-01-10 Human beings tend to romanticize history or idealize historical figures This is nowhere more apparent than the civil rights era of the twentieth century The problem is that when we idealize history we fail to learn from it The result is that history repeats itself along with its sins and atrocities The January 6 Capitol insurrection and the current racial reckoning we are experiencing is unoriginal to the American experience We have been here before This book seeks to humanize people we have idealized Readers are invited to challenge racial hatred and injustice in their own context by looking to the lives of historical figures who have faced the challenges we currently face By examining the self care practices of personalities like Ida B Wells Fannie Lou Hamer Benjamin Elijah Mays and Martin Luther King Jr this book examines the practices of introspection and self work these historical figures engaged in that enabled them to fulfill the body of work they are celebrated for today By humanizing these historical titans we can emulate similar practices of self care and introspection in our own lives that can equip us in continuing the ongoing work of dismantling structures of racial hatred and oppression and promoting freedom love equity and justice to redeem the soul of a nation **The Skilled Communicator in Social Work** Karen Healy, 2017-10-12 A vital part of a social worker's role is to build strong relationships based on confidence and trust with people across all stages of the life course and from a broad range of backgrounds in what can be extremely challenging circumstances In this her latest collaboration with Palgrave bestselling social work author Karen Healy turns her attention to the key topic of communication and the importance of developing into a skilled communicator across all areas of

and how the French made the balloon into one of the quintessential symbols of late nineteenth century modernity and how the balloon's reinvention shaped the airplane's assimilation in the early years of aviation On August 27 1783 a large crowd gathered in Paris to watch the first ascent of a hydrogen balloon Despite the initial feverish enthusiasm by the mid nineteenth century the balloon remained relatively unchanged and was no longer seen as the harbinger of a new era Yet that all changed in the last third of the century when following the traumatic Franco Prussian War defeat the balloon reemerged to become the modern artifact that captured the attention of many Through this process the balloon became an important symbol of the fledgling Third Republic and France established itself as the world leader in flight In *Ascending Republic* Patrick Luiz Sullivan De Oliveira tells for the first time the story of this surprising revival Through extensive research in the press and archives in France the United States and Brazil De Oliveira argues that French civil society cultivated popular enthusiasm for flight what historians call air-mindedness decades before the advent of the airplane Champions of French ballooning made the case that if the British Royal Navy controlled the seas and the Imperial German Army dominated the

continent then France needed to take ownership of the skies The French appropriated this newly imagined geopolitical space through a variety of practices from republican savants who studied the atmosphere at high altitudes to aristocrats who organized transcontinental long distance competitions All of this made Paris into the global capital of a thriving aeronautical culture that incorporated seemingly contradictory visions of sacrificial patriotism aristocratic modernity colonial anxiety and technological cosmopolitanism

**How That Robot Made Me Feel** Ericka Johnson,2025-05-20 An edited collection that explores what emotions we have when encountering robots how we react emotionally to them in different contexts and why these emotional responses are so important Do robots or the AI that is driving them have emotions That is a hotly debated topic both in science fiction where such assertions are a staple of the narrative and in tech development where it often makes headlines But what about how we humans emotionally respond to robots Are our emotional responses any less important when it comes to how the robots we encounter today are designed In *How That Robot Made Me Feel* Ericka Johnson asks the authors in this collection to critically examine our emotional and affective responses to robots and what such an examination would do to the way roboticists use or toy with our emotions in their design decisions The narrative arc of this anthology follows the question of just whose emotions are being engaged through robotic interactions why and for what design ends Of course the answer is that it is our emotions that are interesting And these emotions are not universal despite the historically universalist paradigm of AI and how robotic emotions work Emotions are contingent to borrow a commonly used phrase in feminist technoscience They are placed in space time and cultural context And understanding how they are produced and engaged with will help clarify many of the political aspects of robotic interaction that are currently concealed by the shiny and allegedly neutral surfaces of robots

**Putting Social Justice and Equity at the Heart of Reading for Pleasure** Jane Carter,2025-03-31 This essential book discusses what reading for pleasure is and what it is not introducing some fundamental ideas about how we learn to read and how this process can

impact a child's identity as a reader in classrooms that promote equality, inclusion and diversity. The profile and importance of Reading for Pleasure has grown significantly over the last few years and is now firmly embedded in both government policy and the Ofsted framework. Developing a Reading for Pleasure school that is truly inclusive of the whole school community, however, can require a culture shift in relation to the teaching of reading, representation in the reading environment and the knowledge and attitudes of the school community. This book seeks to use the current research, teacher case studies and the voices of children to address some of the issues that teachers and pre-service teachers encounter when trying to develop an inclusive Reading for Pleasure culture within their schools. Each chapter is co-authored by teachers and researchers and includes case studies and children's perspectives. It provides practical and evidence-based advice, lesson ideas and creative ideas to both support and challenge all school leaders, staff and student teachers in their journey to create readers rather than children that can just read.
