The Enchanted River:

The Enchanted River Simon Fenwick, 2004 In the nineteenth century the Royal Watercolour Society was at the heart of the British artistic establishment Members included David Cox Peter De Wint and Samuel Palmer Edward Burne Jones William Holman Hunt Lawrence Alma Tadema and John Singer Sargent For much of the twentieth century it was considered out of touch with developments in British art until changing fashion brought about the re establishment of the RWS as a significant force in contemporary British painting In an engaging narrative Simon Fenwick records these changing fortunes and the controversies personal vendettas and financial crises which characterised much of its history He tells how Jane Austen visited the 1813 exhibitions looking for portraits of characters from *Pride and Prejudice* how Burne Jones resigned from the Society in 1870 over complaints about nudes in one of his paintings and how when Helen Allingham was elected to full membership in 1889 the President predicted that this would lead to lady members shrieking at RWS meetings and the breaking up of the Society

Naming and Unnaming Jordan Stump,1998-01-01 Naming and Unnaming is a dazzling study that centers on the work of Raymond Queneau one of the most influential French novelists of the twentieth century Jordan Stump takes as his subject the many implications epistemological political literary sometimes even physical of naming in Queneau s remarkable novels From the idea that the names of characters offer a more immediate and perhaps even a more intimate understanding of their souls than we might glean from their words and deeds has grown the broad field of inquiry known as literary onomastics Stump argues that there is another approach to the literary proper name one that concentrates not on the meaning of names but on the meaning of the use of those names the ways in which the characters and narrator of a novel address or refer to others Naming and Unnaming considers the literary and philosophical implications of names and naming Stump examines four issues in Queneau s novels the nature of writing and of creation in general the possibility or impossibility of knowledge the relationship between the individual and the group and the uses of power and control in relation to which naming emerges as a force both powerful and utterly impotent By exploring these forces and their evocation Stump reveals the complexity of both the act of naming and the novels of Queneau
