The End Of Our Exploring:

The End of Our Exploring Matthew Lee Anderson, 2013-06-21 Do we know what it means to question well We need not fear questions but by the grace of God we have the safety and security to rush headlong into them and find ourselves better for it on the other side Faith isn't the sort of thing that will endure as long as our eyes are closed The opposite is the case Faith helps us see and that means not shrinking from the ambiguities and the difficulties that provoke our most profound questions In our embrace of questioning we must learn to question well In our uncertainty we must not give up the task of walking worthy of the calling that Christ has placed upon us For we have not yet reached the end of our exploring This book is written to aid you in faithfully questioning your foundations

The Ends of Our Exploring Hooley Michael Graham McLaughlin, 1999 Scientist Hooley McLaughlin offers an unusual and provocative book about philosophy and scientific ethics In one globetrotting scientific expedition after another the author exposes us to the contradictions and puzzles that underlie our philosophic and scientific approach to the world He explores our need for religious purpose our need to decipher a grand design for the universe to have a theory of everything in short to know the mind of God *ThirdWay*, 1978-03-09 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture

Orthodoxy Gilbert Keith Chesterton, 2013-06-17 Now with a foreword by Matthew Lee Anderson Antiquated Unimaginative Repressive We've all heard these common reactions to orthodox Christian beliefs Even Christians themselves are guilty of the tendency to discard historic Christianity Yet as we read through the literature in Christianity's past we learn that we are in better company with our beliefs than we might think Through his enchanting book *Orthodoxy* G K Chesterton reminds us of the paradoxes of our faith and the joy that comes when we explore them From the foreword by Matthew Lee Anderson author of *The End of Our Exploring* How can we contrive to be at once astonished at the world and yet at home in it And with that question G K Chesterton recounts the heart of an intellectual journey that took him from the edges of a nihilistic pessimism into the center of the paradoxical joy of Christian orthodoxy His book is not a defense of the Christian faith at least not primarily so much as an attempt to explain how the startling paradoxes and sharp edges of the creed explain everything else It is a dated work dealing in the categories and concerns of Chesterton's contemporaries and yet it comes nearer timelessness than anything we have today Though *Orthodoxy* was written near the start of the 20th century I have dubbed it the most important book for the 21st There are few claims I have made in my life that I am more sure of than that one

Roseman, 2017-09-15 In the passage to modernity we in the West have lost the ability to see things whole We've closed our minds to all things transcendent and default to unbelief and can't make sense of the persistent echoes of the voice of God that reverberate in our souls In *Rediscovering God's Grand Story* James Roseman picks up the strands of science philosophy history the arts and theology and reweaves the tapestry to see a coherent story that makes the best sense of the world and provides real meaning and significance to our lives God's Grand Myth We see that the signals of transcendence that confound our culture of doubt are a universal language and vocabulary of the heart echoing the voice of God and in the very Judeo Christian story we so readily jettison is found the Author enabling us to see the world whole again This essay tells why the story and promise of Christianity is so hard to hear today but won't go away Could it be that as T S Eliot wrote in the mid twentieth century at the end of all our exploring will be to arrive where we started and know the place for the first time
